Of Small Towns, Big Dreams and Greater Achievements Growing up in the sleepy towns of Bhilai and Bokaro, Arundhati Bhattacharya never imagined that one day she would go on to chair India's largest bank. It was sheer chance that she came

to know of the bank probationary officers' entrance examination through a friend. She applied, was selected and went on to have a glorious banking career spanning four decades. Indomitable is the story of Arundhati's life as a banker and the challenges she faced in a male-dominated bastion. She takes the reader through her childhood and early education in the 1960s, getting to Kolkata for her college education and then into the State Bank of India(SBI), where she started her career. The life of a woman banker with a family in a frequently transferrable job isn't easy. In Arundhati's life, too, there were breaking points when she almost thought of quitting her career to balance her personal aspirations with her family's needs. But she didn't give up. Instead, she faced her challenges with humour and positivity and took up every assignment as a new chapter in learning and adapting. In her role as the chairman of SBI, she steered the bank through some of its worst phases. She inspired confidence in the banking sector when the NPA crises led to a significant public-trust deficit. Under her leadership, SBI metamorphosed into a customer-centric and digitally

advanced bank while playing a pivotal role in national development. Some of her human resources initiatives included industry-first practices that were appreciated and later adopted by other banks. Candid, lucid and humble, Indomitable is a story that will galvanize you to embrace challenges, break barriers, push forward and achieve greater heights.

This open access book provides a clear holistic conceptual framework of CISS-F (competitiveness, inclusiveness, sustainability, scalability and access to

finance) to analyse the efficiency of value chains of high value agricultural commodities in India. It is based on the understanding that agriculture is an integrated system that connects farming with logistics, processing and marketing. Farmer's welfare being central to any agricultural policy makes it very pertinent to study how a value chain works and can be strengthened further to realize this policy goal. This book adds value to the existing research by studying the value chains end-to-end across a wide spectrum of agricultural commodities with the holistic lens of CISS-F. It is not enough that a value chain is competitive but not

inclusive or it is competitive and inclusive but not sustainable. The issue of scalability is very critical to achieve macro gains in terms of greater farmer outreach and sectoral growth. The research undertaken here brings out some very useful insights for policymaking in terms of what needs to be done better to steer the agricultural value chains towards being more competitive, inclusive, sustainable and scalable. The value chain specific research findings help draw very nuanced policy recommendations as well as present a big picture of the future direction of policy making in agriculture.
