After recovering from a few missteps while lost in the Jurassic, Rain, Stone, Sean, and Emily—the Dinosaur Explorers—are finally ready to explore the prehistoric era! And they're going to need the

help of Doctor Da Vinci, Diana, and robot helper Starz plus all the luck they can get to escape the world's largest dinosaurs! It's going to be a rough ride, but the team is up for the challenge, and ready to get one step closer to their return to their present-day home!

Parasaurolophus Cambridge University Press

A guide to dinosaurs reveals some of the latest finds from the field, along with information on such favorites as Tyrannosaurus, Stegosaurus, and Triceratops.

[The Explorer](#) Raintree

Lavishly illustrated back to the time when dinosaurs had the run of our planet. Amazing large format illustrations and key facts provide an astonishing, close-up view. All ages.

Plunged way back into the past, Rain, Emily, and the rest of the Dinosaur Explorers, continue to make their way back to the present, but first they must take the plunge and submerge themselves into the prehistoric oceans. What they find is that the weightlessness of the water caters to larger creatures, sometimes bigger than dinosaurs themselves! Here they must dodge carnivorous

ancient dolphins, elude massive crocodile creatures, and essentially do their best to survive. But it's also possible that they may even find some undersea friends. One thing is for certain, the Dinosaur Explorers are in way over their heads! Will they sink or swim?

Little Explorers: Dinosaurs National Geographic Books

When Jack Horner was in high school, he put together a science project that identified and compared dinosaur fossils from Montana and Alberta. Now a world-renowned dinosaur paleontologist, Dr. Horner realizes that many of his identifications in that proje

Trapped in the Precambrian Era 570 million years ago by an earthquake, the X-Venture Xplorers find themselves in a fix- by needing a bigger fix for their time machine! Rain, Sean and Stone are now faced with the challenge of finding electricity in an era where human haven't even evolved! And to make matters worse, the locals don't take kindly to them either! Witness all the wonders of our world's past with these PREHISTORIC PIONEERS!

Digging for Dinosaurs The Countryman Press

Introducing another book in the LITTLE EXPLORERS series, an interactive nonfiction series for curious youngsters. With more than 30 flaps, DINOSAURS provides little ones with hands-on fun! DINOSAURS is a lively introduction to all types of prehistoric dinos. Children can lift the flaps to learn about these amazing dinosaurs and the environments they used to live in, and they will be amazed as they find out all about the biggest, fastest, and most ferocious dinosaurs, and much, much more. This book features over 30 sturdy flaps to lift, along with charming, kid-friendly artwork that introduces new concepts and vocabulary in a simple and accessible way.

Explorer's Guide Colorado (Second Edition) Papercutz

The perfect way to introduce children to the fascinating world of dinosaurs. Full of interesting facts--did you know some dinosaurs had sharp front teeth while others had no front teeth at all? This alphabet book explores both the known and the not-so-well known dinosaurs. Meet the heterodontosaurus (one of the smallest known to exist), the megalosaurus (the first dinosaur ever discovered), the iguanodon, the ultrasaurus, and more! Once again, Jerry Pallotta and Ralph Masiello have combined their talents to create a unique children's book that will inform and entertain young readers.

That's No Dino! Princeton University Press

How did those enormous dinosaur skeletons get inside the museum? Long ago, dinosaurs ruled the Earth. Then, suddenly, they died out. For thousands of years, no one knew these giant creatures had ever existed. Then people began finding fossils -- bones and teeth and footprints that had turned to stone. Today, teams of experts work together to dig dinosaur fossils out of the ground, bone by fragile bone. Then they put the skeletons together again inside museums, to look just like the dinosaurs of millions of years ago.

Dino-Mike's adventure takes him to Australia.

Explorer Guide to Dinosaurs Papercutz

A brief introduction to the many creatures that roamed the earth, air, and sea more than 65 million years ago.

Dinosaur Memories QEB Publishing

While exploring the Triassic era, the X-Venture Xplorers are split in two- not by rampaging creatures or primal danger, but by simple squabbling! Stone and Emily continue on foot, while Rain and Sean take the vehicle for a spin! However, the era's residents see this as an opportunity to

score some bite-sized snacks! And things are only going to get worse! Read on and see how the X-Venture Xplorers escape being TRAPPED IN THE TRIASSIC!

Digging Up Dinosaurs Silver Dolphin Books

What can long-dead dinosaurs teach us about our future? Plenty, according to paleontologist Kenneth Lacovara, who has discovered some of the largest creatures to ever walk the Earth. By tapping into the ubiquitous wonder that dinosaurs inspire, Lacovara weaves together the stories of our geological awakening, of humanity's epic struggle to understand the nature of deep time, the meaning of fossils, and our own place on the vast and bountiful tree of life. Go on a journey--back to when dinosaurs ruled the Earth--to discover how dinosaurs achieved feats unparalleled by any other group of animals. Learn the secrets of how paleontologists find fossils, and explore quirky, but profound questions, such as: Is a penguin a dinosaur? And, how are the tiny arms of T. rex the key to its power and ferocity? In this revealing book, Lacovara offers the latest ideas about the shocking and calamitous death of the dinosaurs and ties their vulnerabilities to our own. Why Dinosaurs Matter is compelling and engaging—a great reminder that our place on this planet is both precarious and potentially fleeting. “As we move into an uncertain environmental future, it has never been more important to understand the past.”

The Princeton Field Guide to Dinosaurs Charlesbridge

Travel back in time and walk alongside your favorite prehistoric creatures with The Ultimate Dinosaur Field Guide--created as if a paleontologist painted these illustrations and made these notes during a journey through the Permian, Triassic, Jurassic, Cretaceous, and Cenozoic periods. Encounter dinos of all shapes and sizes and note observations on each species' appearance, size, diet, and more. Detailed watercolor illustrations will captivate young readers. This spectacular visual guide gets you up close and personal with the coolest prehistoric creatures to walk the Earth, including the T-rex, Stegosaurus, Brachiosaurus, Dimetrodon, Moschops, Archosaurus, Giganotosaurus, Smilosuchus, Allosaurus, Pterodactylus, and Velociraptor. Explore prehistoric landscapes with these incredible herbivores, ferocious carnivores, and other fascinating animals in The Ultimate Dinosaur Field Guide!

Dinosaur Explorers Vol. 6 Applesauce Press

Dinosaur memories are hard to forget! Most who revel in the current renaissance in dinosaur science, art, fiction and movies, or who enjoy the other appealing prehistoric animals so well popularized by the media have fond recollections of what it was like “growing up dinosaur.” Together with wife Diane and his father Allen G. Debus, Allen A. Debus unveils treasured dinosaur memories and stories about prehistoric animals and paleo-people, spanning from the cold-blooded dinosaur ‘era,’ to the modern wave dinosaur renaissance. Beginning with fondly recalled roadtrips to prehistoric places where T. rex still reigns, Dinosaur Memories ventures into the realm of thunder beasts and explores the rich ‘pop-cultural’ appeal of prehistoric animals. If you’ve ever

collected dinosaurs, enjoyed fossil hunting or visits to see the old bones in museums, Dinosaur Memories is a book you’ll still recall years from now! Thirty-five chapters are grouped into seven sections titled, “Roads Into Prehistory,” “Thunder Beasts,” “Dinosaur Worlds,” “Fantasy Dinosaurs,” “Fossil Trickery,” “Paleo-people,” and “Rustlin’ up Dinos.”

Dinosaurs Under the Big Sky NeuBooks

Investigate famous fossil excavations and the archaeologists and paleontologists who led them with Digging for Dinosaurs. Through dinosaurs such as Megalosaurus, Tyrannosaurus rex, and Sinosauropteryx, readers will discover how we learn about how dinosaurs looked, how they lived, and the conditions of Earth long ago. Full-color photos and infographics bring these amazing ancient discoveries to life! Table of contents, diagram, map, fun facts, a glossary, and an index are included. Aligned to Common Core Standards and correlated to state standards. Checkerboard Library is an imprint of Abdo Publishing, a division of ABDO

Dino-Mike and the Dinosaur Cove Priddy Books US

STEM-inspired comics adventures drawn in a full-color manga-style reminiscent of Dragonball Z, with special illustrated pages devoted to science facts. The Dinosaur Explorers—Rain, Emily, Sean, and Stone, along with Dr. Da Vinci, his assistant, Diana, and their robot helper, Starz-- were all flung back in time by Dr. Da Vinci's particle transmitter, and the solar-power device can only bring them back to the present a few centuries at a time, giving them all a perfect opportunity to explore the past—provided they can actually survive it. They now find themselves back in the Jurassic, and they quickly find it's no walk in the park (Get it?) (Sorry.). This is the grand age of dinosaurs, but also the time when the first non-dinosaur animals begin to stretch their wings!
