World War II:

Visual

Encyclopedia

profiles the

soldiers who

served, as

well as key

events and

the

technology of

war. Find the facts about the most cunning strategists, the longest battles, the fastest fighter planes, and much more in this spectacular visual dictionary. Key information is available at a glance, with data boxes,

facts and stats to dip into alongside cutting-edge CGI technology that bring these infamous events to life. Packed with profiles of the people, places and events, from Winston Churchill to Pearl Harbor, World War II: Visual

Encyclopedia explores this historic event that shaped our world. What Caused World War II? Pen and Sword Military World War II comes alive through the public records and private accounts of the day... We have long relied on historians to sift through the debris of the past and piece together narratives to shape our understanding of events. But it is in the letters, diaries, speeches, song lyrics,

newspaper articles, and government papers that history truly comes alive. In *The New York Times Living History: World War II: The Allied Counteroffensive, 1942-1945* eminent historian Douglas Brinkley has carefully chosen the critical documents that bring to life the days of the war from the first Allied counteroffensive to the US military formation of the European Theater of Operations

(ETO) to V-J Day. His selections span the momentous, such as Eisenhower's address to the troops in preparation for D-Day and Hirohito's surrender on Japanese radio, to the intimate and the obscure. Readers will find one of Tokyo Rose's broadcasts, letters from soldiers on the eve of battle, Ernie Pyle's dispatches from Sicily, and Truman's diary entries in which he wrestles with the decision to

drop the A-bomb. Each primary document is accompanied by a relevant piece of New York Times reporting from the period and original text explaining the historical significance of the event in the war's progress. News photos and other images add a strong visual component to this vivid re-creation of history. Germany's War Routledge Comprehensive coverage of all the main action in World War II.

Chronologies give a blow-by-blow account of how the war progressed. Chronicles events across Europe, North Africa, and the Pacific--from the Nazi invasion of Poland to the Battle for Okinawa. Illustrated with action photographs and detailed full-color maps throughout. **World War II** Cambridge University Press Drawing on previously unpublished eyewitness accounts, prizewinning

historian Donald L. Miller has written what critics are calling one of the most powerful accounts of warfare ever published. Here are the horror and heroism of World War II in the words of the men who fought it, the journalists who covered it, and the civilians who were caught in its fury. Miller gives us an up-close, deeply personal view of a war that was more savagely fought—and

whose outcome was in greater doubt—than readers might imagine. This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative. Miller covers the entire war—on land, at sea, and in the air—and provides new coverage of the brutal island fighting in the Pacific,

the bomber war over Europe, the liberation of the death camps, and the contributions of African Americans and other minorities. He concludes with a suspenseful, never-before-told story of the atomic bombing of Nagasaki, based on interviews with the men who flew the mission that ended the war.

Did you know that neither

Hitler nor Stalin graduated from high school? Or that the Allies often employed teenage girls as spies? In *The History Buff's Guide to World War II*, Thomas R. Flagel leaves no stone unturned as he presents dozens of top ten lists that examine the politics, leaders, and battles of the Second World War. From Hitler to Stalin, battleground to home front, Flagel's compelling

analysis and attention to often-overlooked information ensures a surprise on every page for even the most dedicated World War II buff. This fresh, impossible-to-put-down book puts a new perspective on one of the most heavily researched wars of all time and is sure to enthrall expert and amateur historians alike. The New York Times Living History: World War II: The Allied Counteroffensive, 1942-1945
 Capstone
 The name TIME-LIFE has become synonymous with providing readers with a deeper understanding

of subjects and world events that matter to us all. Now, as the U.S. commemorates the 70th anniversary of the end of World War II, TIME-LIFE revisits the pivotal final battles and events in one of the most influential periods in history in World War II: 1945. Between January and August of 1945, the Allies staged their last great military victories, participated in the Potsdam

and Yalta conferences, and mourned the death of FDR. Adolf Hitler committed suicide, Benito Mussolini was hanged. The first atomic bomb was dropped. These are just some of the events in the closing months of World War II, a dramatic period that both marked the end of the bloodiest conflict in history and laid the groundwork for the coming Cold War. Organized chronologically,

World War II: 1945 maps out the conflict's end in a visual, easy-to-digest format that illustrates key events, days, battles, personalities, military strategies, political maneuverings and betrayals. A compelling, illustrated package, the book will bring 1945 to life for a public curious to learn about the year that changed the world. World War Two Smithmark Publishers Stephen E.

Ambrose's D-Day is the definitive history of World War II's most pivotal battle, a day that changed the course of history. D-Day is the epic story of men at the most demanding moment of their lives, when the horrors, complexities, and triumphs of life are laid bare. Distinguished historian Stephen E. Ambrose portrays the faces of courage and heroism, fear and determination

—what Eisenhower called “the fury of an aroused democracy”— that shaped the victory of the citizen soldiers whom Hitler had disparaged. Drawing on more than 1,400 interviews with American, British, Canadian, French, and German veterans, Ambrose reveals how the original plans for the invasion had to be abandoned, and how enlisted men

and junior officers acted on their own initiative when they realized that nothing was as they were told it would be. The action begins at midnight, June 5/6, when the first British and American airborne troops jumped into France. It ends at midnight June 6/7. Focusing on those pivotal twenty-four hours, it moves from the level of Supreme Commander to that of a French child, from General Omar Bradley

to an American paratrooper, from Field Marshal Montgomery to a German sergeant. Ambrose’s D-Day is the finest account of one of our history’s most important days.

D-Day Gareth Stevens Publishing LLLP

A comprehensive review of World War II that offers a global-level analysis. Written for academics and students of history, World War II in Global

<p>Perspective, 1931-1953 presents a dynamic and global account of the historical events prior to, during, and after World War II. The author—a noted expert on the topic—explores the main theaters of the war and discusses the connections between them. He also examines the impact of the war on areas of the world that are often neglected in historical accounts, including Latin America, sub-</p>	<p>Saharan Africa, and the so-called ‘neutral’ countries. This comprehensive text clearly shows how in the struggle against the Axis powers, the United States replaced Britain as the global superpower. The author discusses the Japanese invasion of Manchuria in 1931 and the Korean War (1950-1953) and argues that the core years of the war (1939-1945) cannot be understood</p>	<p>without considering the turbulent events that framed them. The text puts World War II in context as a series of large regional conflicts that intersected and overlapped, finally emerging as a genuine “world war” with the formal entry of the United States in late 1941. This vital text: Offers a comprehensive review of World War II that frames it in a global context Gives weight to the</p>
---	---	---

economic and political developments of the war Provides a robust account of the main military campaigns Contains illustrations and maps that themselves highlight little-known aspects of the global war <u>World War II, Film, and History</u> Britannica Educational Publishing A truly global account of WWII - the war that encompassed six continents. <u>The Library of Congress World War II</u>	<u>Companion</u> Dk Pub Accompanying DVD includes World War II footage. <u>World War II: Infographics</u> Simon and Schuster During World War II, the Japanese government created a research bureau, the Chōsabu, to study occupied Singapore. The bureau's reports on Singapore's economy and society, reproduced here in translation, covered population and living	standards, prices, wages, currency and inflation, rationing, labour usage, food production and supply, and industrialization. Syonan's military and civilian administrators drew on Chōsabu research in formulating social and economic policy. The research takes on added importance because the Japanese destroyed most records of their wartime administration
---	---	--

. That leaves the Chōsabu reports as one of the few first-hand Japanese sources to have survived the war. The translation allows a fuller understanding of the impact of the war and occupation than hitherto possible. Introductory chapters by the editors analyse the reports in light of wartime events in Singapore and Japanese occupation policies, and discuss the Chōsabu authors and their place in

the history of Japanese economic thought. World War II on Film Hachette UK World War II explores the secrets of World War II. Throughout the war, both sides made great efforts to uncover enemy plans and keep their own secrets hidden. They engaged in secret operations, plots, and missions, always attempting to wrongfoot the enemy or take them by surprise. NEW YORK

TIMES COMPLETE WORLD WAR II Bloomsbury Publishing The major participants of World War II are familiar to most young historians, but less well known are the many causes of this bloody conflict. Among them is the treaty that ended World War I, originally meant to keep Germany from becoming a world power again. This and other surprising facts await readers of this notable volume, which

discusses not only the causes of the war, but also the significant battles and eventual conclusion.

Carefully selected photographs reflect the terrible toll of this deadly conflict.

World War II For

Dummies

Heinemann Educational Books

An impressive chronicle of the events of

World War II compiles all the major New York Times

headlines to create a

powerful reminder that we should

never forget the most

destructive war in history

and its effect on the

American people and

their government.

[Logistics in World War II](#)

Liberty Street World War II

was a very different war

than had previously

been fought in the course of

history—new technologies and ideas

were employed

making way for

widespread death and

new atrocities.

This book is a valuable

resource that follows the

war from the rise of Hitler

to the dropping of

the atomic bombs,

through blitzkrieg and bombings, to the treaty that finally ended it all, noting the effects upon future world politics. Page One John Wiley & Sons Winner of the Pulitzer Prize: "The richest and most powerful single document of the American experience in World War II" (The Boston Globe). "The Good War" is a testament not only to the experience of war but to the extraordinary skill of Studs Terkel as an interviewer

and oral historian. From a pipe fitter's apprentice at Pearl Harbor to a crew member of the flight that dropped the atomic bomb on Nagasaki, his subjects are open and unrelenting in their analyses of themselves and their experiences, producing what *People* magazine has called "a splendid epic history" of WWII. With this volume Terkel expanded his scope to the global and the historical, and

the result is a masterpiece of oral history. "Tremendously compelling, somehow dramatic and intimate at the same time, as if one has stumbled on private accounts in letters locked in attic trunks . . . In terms of plain human interest, Mr. Terkel may well have put together the most vivid collection of World War II sketches ever gathered between covers." —The New York Times Book Review "I promise you

will remember your war years, if you were alive then, with extraordinary vividness as you go through Studs Terkel's book. Or, if you are too young to remember, this is the best place to get a sense of what people were feeling."

—Chicago Tribune "A powerful book, repeatedly moving and profoundly disturbing."

—People

The Second World War

Simon and Schuster
A "chilling" and "expertly"

written history of the 1939 September Campaign and the onset of World War II (Times of London). For Americans, World War II began in December of 1941, with the bombing of Pearl Harbor; but for Poland, the war began on September 1, 1939, when Hitler's soldiers invaded, followed later that month by Stalin's Red Army. The conflict that followed saw the debut of many of the features that would come to

define the later war-blitzkrieg, the targeting of civilians, ethnic cleansing, and indiscriminate aerial bombing-yet it is routinely overlooked by historians. In Poland 1939, Roger Moorhouse reexamines the least understood campaign of World War II, using original archival sources to provide a harrowing and very human account of the events that set the bloody tone for the conflict to

come.

**America in
World War II**

John Wiley & Sons
Looking to ally yourself with World War II knowledge? More than 75 years after its end, World War II remains one of the most devastating and impactful events in human history. It was a global war, and the nations that fought it employed every available resource, harnessing both technology and people to

one purpose.

Today, we remember WWII for its battles, tragedies, and horrors, but also for its outcome: a greater good that triumphed over evil. The breadth of World War II facts and history can be overwhelming, which is why World War II For Dummies is the perfect book for any reader, from history buffs to WWII novices. Full of accurate and easy-to-understand information (so you don't

have to speak military to comprehend), this book will help you explore a war that defined and shaped the world we live in today. You'll discover all the players—individuals as well as nations—who participated in the war and the politics that drove them. Battle by battle, you'll find out how the Axis powers initially took control of the war and how the Allies fought back to win the day. World War II

for Dummies also covers: The origins and causes of World War II The rise of Adolf Hitler and the Third Reich How the war was handled at home Germany's invasion of Poland, France, Denmark, Norway, Belgium, and Luxembourg Great Britain's refusal to surrender after 42 days of German aerial attack The United States' entrance into the war after

Japan bombed Pearl Harbor The Allied invasion of Normandy (D-Day) Germany's last-ditch effort to stop the Allies at the Battle of the Bulge The use of the atomic bomb on Hiroshima and Nagasaki Become an expert on this historical catalyst with World War II For Dummies—grab your copy today. P.S. If you think this book seems familiar, you're probably right.

The Dummies team updated the cover and design to give the book a fresh feel, but the content is the same as the previous release of World War II For Dummies (9780764553523). The book you see here shouldn't be considered a new or updated product. But if you're in the mood to learn something new, check out some of our other books. We're always writing about new topics!
