You Can't Make This Stuff Up Simon and Schuster

If you want your startup to succeed, you need to understand why startups fail. "Whether you're a first-time founder or looking to bring innovation into a corporate environment, *Why Startups Fail* is essential reading."—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of *The Lean Startup* and *The Startup Way* Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn't answer it. So he launched a multiyear research project to find out. In *Why*

*Startups Fail*, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • **Bad Bedfellows.** Startup success is thought to rest largely on the founder's talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • **False Starts.** In following the oft-cited advice to "fail fast" and to "launch before you're ready," founders risk wasting time and capital on the wrong solutions. • **False Promises.** Success with early adopters can be misleading and give founders unwarranted confidence to expand. • **Speed Traps.** Despite the pressure to "get big fast," hypergrowth can spell disaster for even the most promising ventures. • **Help Wanted.** Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in

short supply of both. • **Cascading Miracles.** Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, *Why Startups Fail* is not merely a guide to preventing failure but also a roadmap charting the path to startup success.

About the Book Author Dominique Fufidio wanted to write a book, but about what? While reading the first couple chapters of the autobiography by comedian Kevin Hart, she was inspired reading stories about his father. This prompted her to break out her computer and write the first chapter of *You Just Can't Make This Sh\*t Up*. Dominique started to write a story of childhood, the story of her childhood, all stories that involved her dad. These short stories are the same she had been telling for years, entertaining others while letting them into her life. Dominique's childhood memoirs made her the life of every party and her father a legend. Many wish to meet her dad, now all can know the stories of Dominique Fufidio, her childhood, and her experiences centralized around her father. If you didn't know these stories are recollections of memories and experiences, you wouldn't believe them to be true, they are just flat-out absurd. These stories are so far out of the norm of how children are raised, how people behave, you really just can't make this sh\*t up. About the Author Dr. Dominique Marie Fufidio lives in Dallas, Texas with her husband, Matthew, and two dog babies. She owned and sold her successful dental practice, is a retired competitive athlete, coach, mentor, and good friend. Dominique wrote this book around the time of her ten-year wedding anniversary, dedicating it to Matt.

After witnessing the murder of her parents for marrying outside of their race, half-blood Astrid wants nothing more than to be left on her own. Placed in the care of Dag, a forgetful but well-meaning warlock, she vows to never feel as lost and helpless as she did on the day they were killed, and turns her back on the elves and the dwarves for destroying her life. Forty years later, young dwarf Jarl Vorn is certain that his city, Bjargtre, is under threat from an emerging goblin King. When his fears are dismissed, he asks Astrid to help him and his adoptive son, Knud, to reach the capital of Logberg safely, and Astrid finds herself pulled back into a world she never wanted to be a part of again.

In this highly entertaining and insightful memoir, one of television's most respected broadcasters interweaves the story of his life and career with lively firsthand tales of some of the most thrilling events and fascinating figures in modern sports. No sportscaster has covered more major sporting events than Al Michaels. Over the course of his forty-plus year career, he has logged more hours on live network television than any other broadcaster in history, and is the only play-by-play commentator to have covered all four major sports championships: the Super Bowl, World Series, NBA Finals, and the Stanley Cup Final. He has also witnessed first-hand some of the most memorable events in modern sports, and in this highly personal and revealing account, brings them vividly to life. Michaels shares never-before-told stories from his early years and his rise to the top, covering some of the greatest moments of the past half century—from the "Miracle on Ice"—the historic 1980 Olympic hockey finals—to the earthquake that rocked the 1989 World Series. Most of the stories in this book are those that I lived throughout my life. I recently retired, and I had the time to write these stories down. At least as many as I can remember (memory may not my best trait anymore). Someone often says something that triggers the depths of my memory. I wrote down a note to remind myself, and then I added that item to this book. There are over 230 such stories here. I removed the names and places from my stories, to protect the innocent.

New York Times bestselling author, superstar comedian, and Hollywood box office star Kevin Hart turns his immense talent to the written word in this "hilarious but also heartfelt" (Elle) memoir on

survival, success, and the importance of believing in yourself. The question you're probably asking yourself right now is: What does Kevin Hart have that a book also has? According to the three people who have seen Kevin Hart and a book in the same room, the answer is clear: A book is compact. Kevin Hart is compact. A book has a spine that holds it together. Kevin Hart has a spine that holds him together. A book has a beginning. Kevin Hart's life uniquely qualifies him to write this book by also having a beginning. It begins in North Philadelphia. He was born an accident, unwanted by his parents. His father was a drug addict who was in and out of jail. His brother was a crack dealer and petty thief. And his mother was overwhelmingly strict, beating him with belts, frying pans, and his own toys. The odds, in short, were stacked against our young hero. But Kevin Hart, like Ernest Hemingway, J.K. Rowling, and Chocolate Droppa before him, was able to defy the odds and turn it around. In his literary debut, he takes us on a journey through what his life was, what it is today, and how he's overcome each challenge to become the man he is today. And that man happens to be the biggest comedian in the world, with tours that sell out football stadiums and films that have collectively grossed over \$3.5 billion. He achieved this not just through hard work, determination, and talent. "Hart is an incredibly magnetic storyteller, on the page as he is onstage, and that's what shines through [in this] genial, entertaining guide to a life in comedy" (Kirkus Reviews).

Is it possible to be a judge and have a sense of humor too? Judge Vanessa Gilmore shows us that the answer is a resounding yes! In this humorous, autobiographical collection of short stories, Judge Gilmore reveals a glimpse of life on and off the bench. A master storyteller, and a lover of all things funny, Judge Gilmore would often regale her friends at parties with tales of her life.

When she related a story about a criminal defendant who was flirting with her as she took his plea, and another who dressed as king during his trial, her friends insisted that these stories could not be true. This book shows us that life really is stranger and funnier than fiction. From hilarious tales of flirting criminals and fighting lawyers, to heart warming stories of time spent mentoring young girls, we see it all through the eyes of a judge. Vanessa found humor when a man in a restaurant insisted that she should stop saying she was a federal judge because it just sounded too far fetched and vindication when her young son asked if boys could be judges too. This book will leave you laughing and asking if life as a judge can

really be this much fun.

Most of my life, I have heard, "Only you, Lauren," and have frequently asked myself, "Why does crazy shit always happen to me?" Now I have found an answer to the question I have asked myself over the years....to share my stories with you! The way I figure it is that there is no point to annoying, frustrating, funny and downright unbelievable shit to happen, unless you are going to share those stories with others. In this book, you will find a series of true stories written and experienced by me. Some will be very short, while others needed multiple pages to get the full story down. You will read about my family members, friends, former friends, boyfriends, ex-boyfriends, colleagues, past clients and many more people who have helped me fill the pages of my life so far. After reading this book, I encourage you take a minute to think about all the stories of your life, both good

and bad, and look at how they have contributed to who you are today. For me, these stories are more than just funny and crazy shit that has happened to me over the years. Each one of these stories has taught me something I may not have learned without them, and have helped to shape me into the person I am today. At the end of each chapter, you will read what I learned from each one of the stories I share. Some lessons were life-changing, while others simply taught me not to cut 12 inches off a bridesmaid dress before trying it on. Actually, come to think of it, maybe that should be considered a life-changing lesson! As I always say, everything happens for a reason, even the bad stuff. It is our job to figure out what that reason is, no matter how small, and use that information to expand our horizons and live a happier and healthier life. Enjoy!
