America is a corporatized society defined by a culture of consumerism, and the youth market is one of the groups that corporations target most. By marketing directly to children, through television, movies, radio, video games, toys, books, and fast food, advertisers have produced a 'kinderculture'. In this eye-opening book, editor Shirley R. Steinberg reveals the profound impact that our purchasing-obsessed culture has on our children and argues that the experience of childhood has been reshaped into something that is prefabricated. Analyzing the pervasive influence of these corporate productions, top experts in the fields of education, sociology, communications, and cultural studies contribute incisive essays that students, parents, educators, and general readers will find insightful and entertaining. Including seven new chapters, this third edition is thoroughly updated with examinations of the icons that shape the values and consciousness of today's children, including Twilight, True Blood, and vampires, hip hop, Hannah Montana, Disney, and others.

****FREE SAMPLER**** Lagom (pronounced 'lar-gom') has no equivalent in the English language but is loosely translated as 'not too little, not too much, just right'. It is widely believed that the word comes from the Viking term 'laget om', for when a mug of mead was passed around a circle and there was just enough for everyone to get a sip. But while the anecdote may hit the nail on the head, the true etymology of the word points to an old form of the word 'lag', which means 'law'. Far from restrictive, lagom is a liberating concept, praising the idea that anything more than 'just enough' is a waste of time. Crucially it also comes with a selflessness and core belief of responsibility and common good. By living lagom you can live a happier and more balanced life, reduce your environmental impact, improve your work-life balance, free your home from clutter, enjoy good food the Swedish way, grow your own and learn to forage, and cherish the relationships with those you love.

Christ Legends Once, when Jesus was only five years old, he sat on the doorstep outside his father's workshop, in Nazareth, and made clay cuckoos from a lump of clay which the potter across the way had given him. He was happier than usual. All the children in the quarter had told Jesus that the potter was a disobliging man, who wouldn't let himself be coaxed, either by soft glances or honeyed words, and he had never dared ask aught of him. But, you see, he hardly knew how it had come about. He had only stood on his doorstep and, with yearning eyes, looked upon the neighbor working at his molds, and then that neighbor had come over from his stall and given him so much clay that it would have been enough to finish a whole wine jug. On the stoop of the next house sat Judas, his face covered with bruises and his clothes full of rents, which he had acquired during his continual fights with street urchins. For the moment he was quiet, he neither quarreled nor fought, but worked with a bit of clay, just as Jesus did. But this clay he had not been able to procure for himself. He hardly dared venture within sight of the potter, who complained that he was in the habit of throwing stones at his fragile wares, and would have driven him away with a good beating. It was Jesus who had divided his portion with him.

From the preeminent writer of Taiwanese nativist fiction and the leading translator of Chinese literature come these poignant accounts of everyday life in rural and small-town Taiwan. Huang is frequently cited as one of the most original and gifted storytellers in the Chinese language, and these selections reveal his genius. In "The Two Sign Painters," TV reporters ambush two young workers from the country taking a break atop a twenty-four-story building. "His Son's Big Doll" introduces the tortured soul inside a walking advertisement, and in "Xiaoqi's Cap" a dissatisfied pressure-cooker salesman is fascinated by a young schoolgirl. Huang's characters—generally the uneducated and disadvantaged who must cope with assaults on their traditionalism, hostility from their urban brethren and, of course, the debilitating effects of poverty—come to life in all their human uniqueness, free from idealization.

The Shape of Populism Routledge

An illuminating history of state-building, nationalism, and bureaucracy, this book tells the story of how an international cohort of Austrian officials from Bohemia, Hungary, the Hapsburg Netherlands, Italy, and several German states administered Galicia from its annexation from Poland-Lithuania in 1772 until the beginning of Polish autonomy in 1867. Historian Iryna Vushko examines the interactions between these German-speaking bureaucrats and the local Galician population of Poles, Ukrainians, and Jews. She reveals how Enlightenment-inspired theories of modernity and supranational uniformity essentially backfired, ultimately bringing about results that starkly contradicted the original intentions and ideals of the imperial governors.

The collection Croatian Tales of Long Ago is considered to be a masterpiece and features a series of newly written fairy tales heavily inspired by motifs taken from ancient Slavic mythology of pre-Christian Croatia. Croatian Tales of Long Ago are seen as one of the most typical examples of the writing style of Ivana Brli  -Ma  urani  . The book has been compared by literary critics to Hans Christian Andersen and J. R. R. Tolkien due to the way it combines original fantasy plots with folk mythology.
