Bracken's The
Darkest Minds
in this thrilling
debut novel

about prison-
guard-in-
training,
Kenzie, who is
taken hostage
by the
superpowered
criminal teens
of the
Sanctuary
space
station—only
to have to
band together
with them

when the
station is
attacked by
mysterious
creatures.
Kenzie holds
one truth
above all: the
company is
everything. As
a citizen of
Omnistellar
Concepts, the
most powerful
corporation in

the solar system, Kenzie has trained her entire life for one goal: to become an elite guard on Sanctuary, Omnistellar's space prison for superpowered teens too dangerous for Earth. As a junior guard, she's excited to prove herself to her company—and that means sacrificing anything that won't propel her forward. But then a routine drill goes sideways and Kenzie is taken hostage by rioting

prisoners. At first, she's confident her commanding officer—who also happens to be her mother—will stop at nothing to secure her freedom. Yet it soon becomes clear that her mother is more concerned with sticking to Omnistellar protocol than she is with getting Kenzie out safely. As Kenzie forms her own plan to escape, she doesn't realize there's a more sinister threat looming, something

ancient and evil that has clawed its way into Sanctuary from the vacuum of space. And Kenzie might have to team up with her captors to survive—all while beginning to suspect there's a darker side to the Omnistellar she knows.

Extinction Aftermath

Del Rey
In the Retro Hugo Award-nominated novel that inspired the Syfy miniseries, alien invaders bring peace to

Earth—at a grave price: “A first-rate tour de force” (The New York Times). In the near future, enormous silver spaceships appear without warning over mankind’s largest cities. They belong to the Overlords, an alien race far superior to humanity in technological development. Their purpose is to dominate Earth. Their demands, however, are surprisingly benevolent: end war, poverty, and

cruelty. Their presence, rather than signaling the end of humanity, ushers in a golden age . . . or so it seems. Without conflict, human culture and progress stagnate. As the years pass, it becomes clear that the Overlords have a hidden agenda for the evolution of the human race that may not be as benevolent as it seems. “Frighteningly logical, believable, and grimly

prophetic . . . Clarke is a master.” —Los Angeles Times
Storm Assault
 National Geographic Books
 Five years after attacking the human-colonized worlds of the Spiral Arm, the hydrogues maintain absolute control over stardrive fuel...and their embargo is strangling human civilization. On Earth, mankind suffers from renewed attacks by the hydrogues and decides to

use a cybernetic army to fight them. Yet the Terran leaders don't realize that these military robots have already exterminated their own makers - and may soon turn on humanity. Once the rulers of an expanding empire, humans have become the galaxy's most endangered species. But the sudden appearance of incredible new beings will destroy all balances of power. Now for humans and the

myriad alien factions in the universe, the real war is about to begin...and genocide may be the result. **Primordia 3: The Lost World-Re-Evolution** Random House Collecting the first four issues of the quarterly anthology smash sensation, Star Wars Tales contains thrilling stories featuring Darth Vader, Obi-Wan Kenobi, Han Solo, Emperor Palpatine, C-3PO, R2-D2,

Lando Calrissian and a cast of thousands! Tales explores every corner of the Star Wars galaxy and keeps readers coming back for more! Star Wars Tales Volume I is sure to delight fans both young and old! *Extinction Level Event, Book One* Orbit "A small change today can change our tomorrow. A small change 100 million years ago can change everything."N

o one really noticed when things started to change. Some animals vanished. Some new ones appeared. Then some things appeared that were monstrous. No one seemed to notice except Ben Cartwright and the other survivors of the hidden plateau in the depths of the Amazon Jungle. Only they were aware of the growing threat to the human race. While Andy Martin lived out his

dreams by venturing north to witness the birth of the American continent and navigate a prehistoric inland sea of the Late Cretaceous, whatever he was doing was rippling forward to change our world. Every day brought new threats in the form of creatures that should have long been extinct, or newly evolved monstrosities that were from mankind's worst nightmares.Th

e comet, Primordia, was returning and time was up. They had to go back and find Andy and stop him before mankind vanished from the face of the Earth. In the thrilling 3rd installment of the blockbusting PRIMORDIA series, Greig Beck explores a frightening world where evolution has gone wild, while also taking us further into the prehistoric Cretaceous jungle and oceans, to a time in which

mankind was never meant to exist. Demon Star Wizards of the Coast Earth's last Assault Troopers target the oldest being in existence. In the fourth book of the Extinction Wars series, Abaddon commands a Karg-Jelk Super Fleet bent on annihilating humanity. Years of intense terraforming has healed the Earth from the ravages of alien hell-burners and a deadly bio-terminator.

The homeworld thrives, reseeded and repopulated, with heavy layers of defensive systems to make sure the Earth is never harmed again. But Abaddon has incredibly advanced technology, including a vast moon-sized ship able to teleport to any place in the galaxy. If Creed hopes to save humanity, he'll need more than fierce determination and savage fighting skills.

He has to go the galactic core to find out the truth about Abaddon, the Jelk and the terrible secret of the human race. The knowledge will help to strengthen Fortress Earth, but will it be enough to win? *Project Hail Mary* Astra Publishing House New York Times bestseller The mystery of Lolth remains, leaving the drow to wonder if she has truly turned her back on them

forever. In this fourth installment in the War of the Spider Queen series, priestess Quenthel Baenre and her fellow drow adventurers continue their quest for the truth—and this time, the stakes are higher than ever. Now they must travel to a place from which few ever return: the Demonweb Pits of the Abyss. But not all of Quenthel's companions are confident

in their faith. Disheartened by Lolth's silence, priestess Halisstra Melarn becomes enamored of a different goddess, calling her loyalty to Lolth into question . . .

Year 2522.

Oh. My. Stars. Junior Officer Ara Lawrence here, reporting for duty. Again. It's situation critical for the security team and everyone in the base - including my parents - with

a new attack from the looters imminent, a possible galaxy-wide crime conspiracy and an unstoppable alien threat. But this all pales in the face of my mind-blowing discovery about the Q-net. Of course, no one believes me. I'm not sure I believe me. It could just be a stress-induced delusion. That's what my parents seem to believe... Their concern for me is hampering my

ability to do my job. I know they love me, but with the Q-net in my corner, I'm the only one who can help the security team beat the shadowy aliens from the pits we discovered. We're holding them at bay, for now, but the entire Milky Way Galaxy is in danger of being overrun. With battles on too many fronts, it's looking dire. But one thing I've learned is when people I love are in jeopardy, I'll never give up

trying to save them. Not until my dying breath. Which could very well be today...

Independently Published
A dire warning. An impending alien invasion. Only one chance for survival. In the near future, an alien probe arrives on Earth with a pivotal mission-determine if humanity has what it takes to survive the impending invasion by a merciless

armada. The probe discovers Marc Ibarra, a young inventor, who holds the key to a daring gambit that could save a fraction of Earth's population. Humanity's only chance lies with Ibarra's ability to keep a terrible secret and engineer the planet down the narrow path to survival. Earth will need a fleet. One with a hidden purpose. One strong enough to fight a battle against annihilation.

The Ember War is the first installment in an epic military sci-fi series. If you like *A Hymn Before Battle* by John Ringo and *The Last Starship* by Vaughn Heppner, then you'll love this explosive adventure with constant thrills and high stakes from cover to cover.

Sanctuary

Usborne Publishing Ltd
A literary descendent of Ursula K. Le Guin, Ruthanna Emrys crafts a novel of extra-terrestrial

diplomacy and urgent climate repair bursting with quiet, tenuous hope and an underlying warmth. *A Half-Built Garden* depicts a world worth building towards, a humanity worth saving from itself, and an alien community worth entering with open arms. It's not the easiest future to build, but it's one that just might be in reach. On a warm March night in 2083, Judy Wallach-Stevens

wakes to a warning of unknown pollutants in the Chesapeake Bay. She heads out to check what she expects to be a false alarm—and stumbles upon the first alien visitors to Earth. These aliens have crossed the galaxy to save humanity, convinced that the people of Earth must leave their ecologically-ravaged planet behind and join them among the stars. And if humanity doesn't agree,

they may need to be saved by force. But the watershed networks that rose up to save the planet from corporate devastation aren't ready to give up on Earth. Decades ago, they reorganized humanity around the hope of keeping the world livable. By sharing the burden of decision-making, they've started to heal our wounded planet. Now corporations, nation-states,

and networks all vie to represent humanity to these powerful new beings, and if anyone accepts the aliens' offer, Earth may be lost. With everyone's eyes turned skyward, the future hinges on Judy's effort to create understanding , both within and beyond her own species. The Extinction Trials Orbit Kyle Riggs has been away from Earth for a long time...but that's about to change. In STORM ASSAULT, the eighth book of the Star Force Series, the story moves in a new direction. Massive fleets are built by both Star Force and the Imperials-but there is a third player in the game: the Blues. A three-way battle for the known star systems breaks out, with the fates of many

worlds and species hanging in the balance. Riggs realizes he must destroy his enemies before they destroy him. Seeking justice and revenge, he gathers his strength and ventures out on a mission of conquest from the Eden System. Humanity must fight to survive, and Riggs is the right man for the job.

Swarm Orbit "No one would have believed in the last years of the nineteenth century that this world was being watched keenly and closely by intelligences greater than man's..." So begins H. G. Wells' classic novel in which

Martian lifeforms take over planet Earth. As the Martians emerge, they construct giant killing machines - armed with heatrays - that are impervious to attack. Advancing upon London they destroy everything in their path. Everything, except the few humans they collect in metal traps. Victorian England is a place in which the steam engine is state-of-the-art technology and powered

flight is just a dream. Mankind is helpless against the killing machines from Mars, and soon the survivors are left living in a new stone age. Includes the original Warwick Goble illustrations. *A Forest of Stars* Orbit The Earth died when aliens rained thermonuclear warheads on her cities and sprayed the surface with a bio-terminator. A deadly poison drifted to every corner

of the planet, threatening the last survivors with annihilation. For a soldier in Antarctica like Creed, there is only one way to keep breathing untainted air. He must join the Jelk Corporation as an assault trooper, leaving the planet for outer space. In return for his and other people's services, the Jelk will house the last humans for as long as the assault troopers keep winning. For the price of

living and the chance to save humanity, Creed has to wear a shock chip in his neck-Jelk discipline is harsh-and he has to don a symbiotic battlesuit that feeds off his sweat. Human life is cheap in the vast alien war. The assault troopers are little more than suicide soldiers, but for humanity to escape extinction, they must survive. But Creed didn't agree to the bargain in order to

remain a dog to the aliens. He has a plan, and he'll need all his cunning to beat the extraterrestrials and begin the road to freedom for the human race. Fortress Earth Orbit #1 NEW YORK TIMES BESTSELLER • From the author of *The Martian*, a lone astronaut must save the earth from disaster in this “propulsive” (Entertainment Weekly), cinematic thriller full of suspense, humor, and fascinating

science—in development as a major motion picture starring Ryan Gosling. HUGO AWARD FINALIST • ONE OF THE YEAR'S BEST BOOKS: Bill Gates, GatesNotes, New York Public Library, Parade, Newsweek, Polygon, Shelf Awareness, She Reads, Kirkus Reviews, Library Journal • “An epic story of redemption, discovery and cool speculative sci-fi.”—USA Today “If you loved The

Martian, you'll go crazy for Weir's latest."—The Washington Post Ryland Grace is the sole survivor on a desperate, last-chance mission—and if he fails, humanity and the earth itself will perish. Except that right now, he doesn't know that. He can't even remember his own name, let alone the nature of his assignment or how to complete it. All he knows is that he's been asleep for a very, very

long time. And he's just been awakened to find himself millions of miles from home, with nothing but two corpses for company. His crewmates dead, his memories fuzzily returning, Ryland realizes that an impossible task now confronts him. Hurtling through space on this tiny ship, it's up to him to puzzle out an impossible scientific mystery—and conquer an extinction-level threat to

our species. And with the clock ticking down and the nearest human being light-years away, he's got to do it all alone. Or does he? An irresistible interstellar adventure as only Andy Weir could deliver, Project Hail Mary is a tale of discovery, speculation, and survival to rival The Martian—while taking us to places it never dreamed of going. Survival
Margaret K. McElderry Books

In 2061, a young scientist invents a time machine to fix a tragedy in his past. But his good intentions turn catastrophic when an early test reveals something unexpected: the end of the world. A desperate plan is formed. Recruit three heroes, ordinary humans capable of extraordinary things, and change the future. Safa Patel is an elite police officer, on duty when

Downing Street comes under terrorist attack. As armed men storm through the breach, she dispatches them all. 'Mad' Harry Madden is a legend of the Second World War. Not only did he complete an impossible mission--to plant charges on a heavily defended submarine base--but he also escaped with his life. Ben Ryder is just an insurance investigator. But as a young man he witnessed a

gang assaulting a woman and her child. He went to their rescue, and killed all five. Can these three heroes, extracted from their timelines at the point of death, save the world? *The Rise of the Empire: Star Wars* National Geographic Books Biologist Mackenzie Connor is charged with protecting the human race after a devastating alien invasion in this first book in the

Species Imperative science fiction series. Herself a biologist, Julie E. Czerneda has earned a reputation in science fiction circles for her ability to create beautifully crafted, imaginative, yet believably realized alien races. In *Survival*, the first novel in her new series, *Species Imperative*, she draws upon this talent to build races, characters, and a universe which will draw readers into a magnificent tale of interstellar intrigue, as an Earth scientist is caught up in a terrifying interspecies conflict. Senior co-administrator of the Norcoast Salmon Research Facility, Dr. Mackenzie Connor, Mac to her friends and colleagues, was a trained biologist, whose work had definitely become her life. And working at Norcoast Base, set in an ideal location just where the Tannu River sped down the west side of the Rocky Mountains to the Pacific Coast was the perfect situation for Mac. She and fellow scientist Dr. Emily Mamani were just settling in to monitor this year's salmon runs when their research was interrupted by the unprecedented arrival of Brymn, the first member of the alien race known as the Ohryn to ever set foot

on Earth. Brymn was an archaeologist, and much of his research had focused on a region of space known as the Chasm, a part of the universe that was literally dead, all of its worlds empty of any life-forms, though traces existed of the civilizations that must once have flourished in the region. Brymn had sought out Mac because she was a biologist -- a discipline strictly forbidden among his

own people -- and he felt that through her expertise she might be able to help him discover what had created the Chasm. But Mac had little interest in alien races and in studies that ranged beyond Earth, and as politely as she was capable of, she tried to make it clear that she was unwilling to abandon her own work. However, the decision was soon taken out of her hands when a mysterious and

devastating attack on the Base resulted in the abduction of Emily, and forced Mac to flee for her life with Brymn and the Earth special agents who were escorting him. Suddenly, it appeared that Earth itself might be under attack by the legendary race the Ohryn called the Ro, the beings they thought might be the destructive force behind the Chasm. Cut off from everything and everyone

she knew, Mac found herself in grave danger and charged with the responsibility of learning everything she could that might possibly aid Earth in protecting the human race from extinction... *Extinction* Dark Horse The sixth book in USA Today bestselling author Nicholas Sansbury Smith's propulsive post-apocalyptic series about one man's mission to save the

world. The newly christened leader of Delta Force Team Ghost, Master Sergeant Joe Fitzpatrick arrives in Normandy over 70 years after Allied Forces joined the fight against the Nazis. The war to free survivors and eradicate pockets of adult Variants and their offspring is underway by the European Unified Forces. But as the troops push east, rumors of a new type of monster spread

through the ranks. Fitz and his new team quickly realize that the fight for Europe might be harder than anyone ever imagined. Back in the States, Captain Reed Beckham and Dr. Kate Lovato are settling into a new life on Plum Island. Across the United States, the adult Variants have all been wiped out, and the juveniles are on the run. But the survivors soon realize there are other monsters at

home, and
they may be

human. A new
