'Meg Cabot is chick-lit royalty' NEWSWEEK 'Her trademark frank humor makes for compulsive reading' PUBLISHERS WEEKLY Escape to Little Bridge Island, the first story in a new series from Meg Cabot *Includes an excerpt from the forthcoming new full-length novel No Judgments*

Looking for a tropical escape? Welcome to Little Bridge, one of the smallest - and most beautiful - islands in the Florida Keys, home to sandy white beaches, salt-rimmed margaritas, stunning sunsets and some of the quirkiest - but also kindest and most resourceful - people you'll ever meet. Physical trainer Roberta 'Rob' James moved to Little Bridge hoping she'd found paradise, but things haven't turned out quite as she'd hoped. The closest Rob has come to her 'happily ever after' is happy hour at the Mermaid Café with her

buddy Bree, the bartender slash waitress who's got romance problems of her own. But Rob's situation suddenly changes when sheriff's deputy Ryan Martinez accidentally enrolls in her bridal boot camp class. Turning mush into metal in time for the big day is Rob's passion (because even the happiest bride could use a little toning). But what happens when a guy who's all mush meets a girl who's all metal? They discover they have a lot to learn . . . about each other, themselves and the island paradise they've come to call home.

Why do readers LOVE Meg Cabot? 'Meg Cabot is a fabulous author' USA Today '[Meg Cabot] is the master of her genre' Publishers Weekly 'Cabot has a knack for hilarious dialogue and zany characters, but she also creates a story that's full of heart' Kirkus Reviews Let's Do This! Liveright Publishing

Relentless Pursuit Simon and Schuster
Find your motivation, change your life. Let's Do This! is the motivation

playbook for any type of personal change, from losing 10lbs to stepping up in your career to running a half-marathon. The difference between giving up and succeeding comes down to your motivation to take control of your life. Forget worrying about your willpower (which drains your energy and zaps your confidence) and join Andy Ramage's 28-day Motivation Masterclass to enjoy totally new levels of success. Tap into the 'Six Streams of Positivity' that will keep you on the straight and narrow, refine your resolution and master your mornings through simple daily rituals. The key to any successful behaviour change is the motivation to keep going once you've started. In this unapologetically positive book, Andy Ramage, who transformed his own life step by step, explains the theory and the practice of motivation so that you can make any change in your life, and make it last. *Official Register of the Officers and Cadets* IDRC
When Locke High School opened its doors in 1967, the residents of Watts celebrated it as a sign of the changes promised by

Los Angeles. But four decades later, first-year Teach for America recruits Rachelle, Phillip, Hrag, and Taylor are greeted by a school that looks more like a prison, with bars, padlocks, and chains all over. With little training and experience, these four will be asked to produce academic gains in students who are among the most disadvantaged in the country. Relentless Pursuit lays bare the experiences of these four teachers to evaluate the strengths and peculiarities of Teach for America and a social reality that has become inescapable.

Includes: historical perspective; an overview of boot camp goals, components, and results; state correctional programs in N.Y. State, Illinois, and Georgia; the Federal system; boot camps in county jails (Santa Clara County, CA); juvenile boot camps (California and Florida); different program models (discipline in Georgia; substance abuse programming in adult correctional boot camps; boot camps as an alternative for women); program design and

planning (multisite studies; boot camps and prison crowding); and the future of boot camps. Charts, tables and photos. *Destroyer Escort Sailors Association* Xlibris Corporation

In February 1925, 17-year-old Jimmie Foxx left his home in Sudlersville, Maryland, and joined the Philadelphia Athletics in spring training. Over the next twenty years, Foxx was one of the most consistent stars in the majors. His long home runs were legendary--his 535 were second only to Babe Ruth's 714 when he retired in 1945. Only six years later, he was elected to the Baseball Hall of Fame. Foxx tried his hand at a variety of jobs after he left baseball, but seemed always to be drawn back to the game. He coached and managed in the minor leagues and even managed the Fort Wayne Daisies of the All American Girls Professional Baseball League in 1953. This is the story of Foxx's rise to glory, his life in and out of the game, and his love affair with the national pastime.

Bridal Boot Camp Springer

The year is 3024. Humanity has gained alien allies, expanded tens of trillions of our

population beyond the solar system, developed heavily advanced technology once thought to be the realm of science fiction in the twenty-first century, and so much more. But now the solar system is in danger from a merciless, bloodthirsty alien empire known as Lagorians and a lethal criminal bent on something wicked.

Everyone, military and civilian alike, are in mortal danger. Thus, the United Terran Space Defense has built up a fleet and fighter force the likes in which we've never seen before, but even the grand admirals of the UTSD believe it is not enough, which is why they secretly contributed to building the Deep Space Intelligence Agency, which they say is meant to create and train special agents for their genetically enhanced capabilities. Because of one's enhanced abilities in the thirty-first century, whether it be a perfect aim, speedy, agility and flexibility, hyperintelligence, or inhuman endurance or if they simply ranked high in boot camp within the UTSD, only they are chosen for a trial by fire before being recruited as an agent, and Jay

Columbus is one of them. Once he succeeds in his test, how will his training go in the DSIA? Should he pass everything, what shall he do to foil the operations of the Lagorians? Furthermore, what will he do about the lethal criminal, Lucy Finch, that wants HIM captured, of all people?
Two Saps Vij Books India Pvt Ltd

This book deals with the consequences of the inclusion of African states and communities in the global aluminium chain. The so-called “New Scramble for Africa” of the 2000s illustrated how seriously African living conditions are affected by continuous cycles of boom and bust, and how strongly the quality of life currently depends on the investment decisions and corporate social responsibility policies of transnational corporations. Taking the example of the global production network of bauxite and aluminium, the author focuses on the socio-political aspects of this dependency, which he achieves through the conducting of a series of interviews with various involved parties.

Why do so many South Africans prefer taking the

law into their own hands to relying on the police? Why are those who do so often cheered or sympathised with? Of the unprecedented 27 000 recorded murders in South Africa in 2022, at least 1 894 – or 7 per cent – were attributed to mob justice and vigilantism, more than double the number from five years before. In the first nine months of 2023, a further 1 472 mob justice deaths had already been registered. Mob justice is nothing new, but in recent years it has taken on an undeniably desperate, furious edge. From the breathtakingly violent Zandspruit massacre in May 2021, to the killings during the July unrest two months later, to the march of Operation Dudula across the nation in 2022, vigilantism – and the condoning of it – has never before captured the zeitgeist of South Africa so sharply. What has changed in the past few years, and what does it augur for the future?

Following three recent cases of mob justice, from the hellish metropolitan townships of Gauteng to the far-flung bushveld of northern Limpopo, and drawing on extensive research and interviews, *Why We Kill* explores the

roots, realities and consequences of South Africa’s current crisis of vigilantism.

All Catherine wants to do is sing, but a TV show is about to make her a star . . .

Catherine Reilly is 24, single and still lives at home with her dad and two of her sisters. The only thing Catherine’s ever been any good at is singing, but she has no connections, low confidence and isn’t exactly glamorous.

However, when she sees a TV ad for the latest series of *Star Maker* – the biggest talent show on national television she decides to enter . . .

Catherine now has the best voice coach in the business, a team of sadistic trainers and stylists and the world’s number one music mogul on her side . . . Can an ordinary girl’s dreams really come true?

The Green Wyvern: Volume One Anchor Canada

The book’s title has an apparent misnomer—boots were not used in early armies, at least as apparent from temple sculptures which depict bare-bodied and barefooted soldiers. But is it likely to have been

true? Or social reasons led to suppression of footgear on temple walls? The book explores these and myriad other questions on the military experience of South Asia, hoping to construct a picture of how men, animals, and equipment were used on South Asian battlefields from the end of the Paleolithic till the dawn of our era. Further, as all that happens on battlefields is no more than the tip of the proverbial iceberg whose submarine mass conceals many cause-effect relationships in a wide variety of fields, the author, adopting a wide fronted approach, examines the evidence of anthropology, literature, mythology, folklore, technology, archaeology, and architecture, to reconstructs the military atmosphere of South Asia beyond the battlefield, which is the aim of this book.

The Right Fit Formula
McFarland

In the field of police management, there is a great need for material that is specific to south Africa and that covers the new and challenging issues found in the SAPS management training programmers.

"Christine has done the impossible! The Right Fit Formula is a diet/nutrition/fitness book that is personalized, informative, witty, insightful, and practical."
—Dr. David Schechter, Top Doctors "Ten Years" Award for Sports Medicine
For decades, people have chosen diets based on what worked for someone else—some celebrity they admire, a coworker, or friend. Wrong approach! Diet and fitness expert Christine Lusita has been there. As she points out, "All my life I'd been hearing about workouts and diets that were supposed to be good for me. But each time I 'failed,' I felt as if I was the problem. I knew something had to change, and it wasn't about finding the next gimmick. It was about finding what worked for me." In this highly-relatable and easy-to-follow guide, Christine shows you how to achieve YOUR version of personal success. Having battled for years with endless dieting, Christine has created a unique, individualized weight-loss transformation system for people exactly like you—who have no time, tons of stress and a

constant battle with the mirror and the scale.

You'll learn to: Pinpoint exactly what fitness and food plan works for you
Have fun (really!) with your workout routine
Get rid of toxic people, problems and other energy-sucks
Find guilt-free "me" time
Kick your inner critic to the curb
Calm your kind of crazy--without the milkshakes!
Love who you are, what you are, and where you are
Create a lifestyle that empowers you instead of defeats you
Forget any ideas you've had about how you're "supposed" to lose weight.
The Right Fit Formula shows you how to fuel your aspirations and reach your goals that don't involve landing on some magic number on the scale.
With personality-driven recipes, food plans, and workouts, you learn to live your best, fittest, and healthiest life, not someone else's idea of perfection.
Let Christine show you how easy it is to live your life, and lose weight, too!

Empire of Chance Good Press

An accessible and timely guide to increasing female presence and leadership in tech companies
Tech giants like Apple and Google are

among the fastest growing companies in the world, leading innovations in design and development. The industry continues to see rapid growth, employing millions of people: in the US it is at the epicenter of the American economy. So why is it that only 5% of senior executives in the tech industry are female? Underrepresentation of women on boards of directors, in the C-suite, and as senior managers remains pervasive in this industry. As tech companies are plagued with high-profile claims of harassment and discrimination, and salary discrepancies for comparable work, one asks what prevents women from reaching management roles, and, more importantly, what can be done to fix it? *The Future of Tech is Female* considers the paradoxes involved in women's ascent to leadership roles, suggesting industry-wide solutions to combat gender inequality. Drawing upon 15 years of experience in the field, Douglas M. Branson traces the history of women in the information technology industry in order to identify solutions for the issues facing women today. Branson

explores a variety of solutions such as mandatory quota laws for female employment, pledge programs, and limitations on the H1-B VISA program, and grapples with the challenges facing women in IT from a range of perspectives. Branson unpacks the plethora of reasons women should hold leadership roles, both in and out of this industry, concluding with a call to reform attitudes toward women in one particular IT branch, the video and computer gaming field, a gateway to many STEM futures. An invaluable resource for anyone invested in gender equality in corporate governance, *The Future of Tech is Female* lays out the first steps toward a more diverse future for women in tech leadership. *When All the World was Browns Town* DIANE Publishing

Remember the global peace dividend - the budget surpluses that were supposed to result from the raising of the Iron Curtain and the end of the arms race? As war-torn societies in the Middle East, Latin America, and parts of Africa found peace and began building

democratic societies, governments were supposed to use the money they once spent on the military to better meet basic human needs. But has it happened? *Le Rickshaw Wallah's Story* Harvard University Press

Baron Theodus of Sursival arrives at the Green Wyvern Inn to tell his life story. Each night, he returns to regale the townspeople with tales of monsters, treasure, foes, and friends. And when his story is done, he says he will leave his subjects, never to return. To most people, the baron's name is Bull. He is a giant of a man. They say the great warrior has never been defeated in battle, but he will tell you those tales are lies. He has come to set the record straight and promises to tell the whole story of his life: victories and losses alike. Tonight, he will tell the tale of his road to adventure. It starts with a goblin raid that leaves Bull, his sister, and his mother as penniless refugees on a perilous journey. The trials that follow push Bull to the very edge of human endurance.

Servamus Matt Heppe
 □Dance of the Chameleon, A Vietnam Medic's Story is

an eyewitness account of both heroic and shameful events occurring during the Vietnam War. Decorated medic, James Squadrito, served in three venues in Vietnam where the experiences he recounts in the book were far too common. Rampant drug use among soldiers, sex-trafficking of Vietnamese women as young as twelve and thirteen years old both on and off base, ill-trained officers, and woefully prepared medics including himself were common realities during the war. Jim tells of incidences of soldiers he had to patch up who had shot themselves to get sent home, of dead soldiers who were shot by friendly fire in retaliation for their attempts at troop discipline, and racial infighting that mirrored the conflicts of the civil rights movement stateside. Arms trafficking and drug and artifact smuggling were standard crimes perpetrated by soldiers and officers. Fortunately, these and other inglorious moments were counterbalanced by self-sacrifice and heroism. Jim, who, chameleonlike, changed his colors from the spoiled frat boy to a productive citizen, recounts his personal

journey of growth from cynicism to spirituality. After leaving the service and left scarred by his experiences, he would talk with other Vietnam soldiers at vets gatherings. These sessions were cathartic for him and provided a motivation to write this book, which he hopes will be a source of healing for his comrades who still haven't recovered from the ravages of the Vietnam conflict. There are over one hundred thousand medics in the United States who walked the tightrope of saving lives and being pulled into actual combat when enemy troops ignored the Geneva Convention protocols. This book is a tribute to them who put the lives of soldiers first above their own. □

In Times of War

Rowman & Littlefield

The award-winning sportswriter who regaled Cleveland's baseball fans with his wry, affectionate portrait of the Indians in "The Curse of Rocky Colavito" now immortalizes the much-beloved Cleveland Browns in this story of the team's 1964 championship season. of photos.

The Getting Unstuck

Workbook Univ of California Press

When communications were lost with the Outer-Rim worlds of sector eleven, the Inner-Sanctum believed it to be a sign of rebellion. In answer to the silence, the United Colonial Navy was ordered to assemble a small task force to investigate. The fleet would consist of the U.C.S. Independence as well as a few other heavy hitters from all over the colonies; enough to deal with whatever the sector's Planetary Guard might throw at them. The fleet arrived expecting a fight, but all they found were a number of large debris fields orbiting dead planets... and a new enemy no one could stop. They struck without warning or mercy, their motives unknown. Within just a few short weeks they had managed to decimate the United Colonies, sending our species hurtling towards the brink of extinction. Only one chance remains. What's left of mankind must find their way to safe harbor under the protection of the United Colonial Navy. It is there that the fate of man will be determined, as well as the fate of the U.C.S. Independence and all those that choose to stand with her against the

coming tide.

The Scorpions Hachette

This particular Hillsdale is no less, no more, than the others. It contains the usual center of business activity clustering about a rather modern hotel. One of its livery stables has been remodeled into a moving-picture house, the other into a garage; one of its newspapers has

become a daily, the other still holds to a Friday issue. In its outlying districts will be found hitching racks before the stores. Altogether, Hillsdale might be said to be "on the fence," with one leg toward progressiveness, the other still lingering in the past. Its residences have not grown beyond the rambling, mellow kind, that drowse in poetic

languor amidst flowering vines and trees. These trees, that also line the streets, meeting in cathedral arches overhead, might be stately elms of New England, poplars of the middle-west, or live-oaks of the south; for it must be strictly borne in mind that Hillsdale is "somewhere in the United States."
