RHS Ready, Steady, Grow! Dorling
Kindersley Ltd

The Royal Horticultural Society The Half
Hour Allotment (first published in 2005)
has been a best-selling gardening title
for many years. This new edition re-
presents the classic in a fresh new
illustrated format with hundreds of new
photographs and a bright new cover
design. The book shows you how to

manage your allotment and enjoy fresh
vegetables through the year on just half
an hour's work a day with weekends off.
It combines expert advice from Lia
Leendertz and the Royal Horticultural
Society and time-saving ideas for
planning the most effective use of your
time and energy, giving you something
to eat fresh every day of the year and
ensure bumper crops in summer! Lia
Leendertz, the best-selling author of *The
Almanac*, is an organic gardener with a
great sensitivity for the environment so
the book is a gentle and thoughtful read

as well as being a bible for productive and time-starved gardeners.

RHS Encyclopedia of Gardening

Dorling Kindersley Ltd

Those of us living in towns and cities might think that the pleasures of growing our own food, watching the seasons pass with the changing produce and getting our hands stuck into the soil are beyond our reach. But a growing number of urban dwellers are realising that there are ways of connecting with the land, and enjoying the sheer pleasure of watching something grow, without giving up the joys of living in the city. Jojo Tulloh takes us to her inner-city allotment and guides us through a year of cooking, inspired by the food that has sprung from her surprisingly fertile patch of East London waste-ground.

50 Ways to Kill a Slug Hachette UK
 RHS *Can Anything Stop Slugs* assists with all of the most common problems encountered in a garden - as well as some slightly more unusual ones. The RHS's Chief Horticulturist, Guy Barter, provides expert advice, responding to the questions posed by thousands of gardeners every year. This entertaining and informative guide provides a wealth of information. Feature boxes of interesting facts enable you to really get to grips with the issue at hand. As the cause of a problem is not always apparent, the main symptom is used as the starting point in each section, enabling you to troubleshoot all your garden problems. This is not a dull reference book full of lists - it is an easy-to-read and amusing look at how we

battle with nature in our gardens, showing you how to either come out top or to surrender with dignity.

RHS 50 Ways to Outsmart a Squirrel & Other Garden Pests

Frances Lincoln Bestselling author Kay Maguire and RHS Young Designer of the Year Tony Woods provide stylish design ideas, growing tips and advice to help readers turn even the tiniest outdoor space into a beautiful and life-affirming oasis. With 30 step-by-step projects, RHS Big Ideas, Small Spaces shows the urban gardener how to transform balconies, walls, windowsills, rooftops and the smallest of yards. Discover the best planting plans for your garden, with ideas for hanging planted screens, mobile gardens, balcony rail planters and potted shelves. Learn the things you need to know to get your

garden started, and how to overcome common problems, and ensure your garden, however small, is beautiful all year round.

RHS Propagating Plants Dorling Kindersley Ltd

'This is a lovely book to dip into, and you may even find yourself reading it cover to cover' - the Guardian 'An enlightening and entertaining read that will leave the reader armed with the facts and insight to improve their garden as well as their general knowledge' - The English Garden RHS *How Do Worms Work?* provides expert answers to the questions that every gardener wants to ask - and a few that you never even dreamt of. As well as answering the titular question about soil's best friend, this fact-filled journey through the world of the garden is

packed with Q&As that are sometimes practical, sometimes whimsical and always intriguing. This richly illustrated volume is an absorbing guide to the quirky and lesser-known aspects of gardening and a perfect gift for any gardener with an inquisitive mind. With sections on Seeds and Plants; Flowers and Fruits; Below the Ground; Weather, Climate and the Seasons; and In the Garden, *RHS How Do Worms Work?* holds the answers to common questions such as: - What's the difference between a fruit and a vegetable? - Is it true that sunflower heads follow the sun? - When is a plant a weed? - How do you attract butterflies? - How long can a plant survive without water? and many more. [RHS Step-by-Step Veg Patch](#) Dorling Kindersley Ltd

'Britain's ten million acres of private gardens add up to a vital haven for wildlife. Chock-a-block with ideas for encouraging wildlife into your plot, this pocket-sized book tells you how to make your off-street parking wildlife-friendly, why you should welcome wasps into the garden and whether you should let ladybirds overwinter in your home. One for budding David Attenboroughs.' - Mail on Sunday Foreword written by Isabella Tree of the Knepp Wildland Project. *RHS How Can I Help Hedgehogs?* offers more than 100 ideas for you to help wildlife thrive in your garden. Packed with simple, low-cost ideas that will make a huge difference to the natural world, the book suggests ways to help birds, bees, butterflies, beetles and many other declining species. Hopeful, informative

and entertaining, with plenty of 'I-never-knew-that' mini-features, this is a book you and your family need, and one that you'll all enjoy, too. Includes topics such as how to increase the biodiversity of your plot and how to improve your soil without using chemicals. Includes... - Can I make my garden bat-friendly? - Do green roofs work? - Why should I love my weeds? - Should I keep honey bees? - Which flowers are friendliest for moths? - Where's best for a bird box? - Is garden lighting disruptive? ...and many more.
The Playground Potting Shed Hachette UK

Are you interested in growing your own plants from scratch? This reference book will teach you how to propagate virtually every type of plant. If you're a thrifty gardener who wants more plants for

free, then this book is perfect for you! From fruit trees and ornamental shrubs to exotic orchids and succulents, get all the info you'll need to propagate plants at your fingertips. Discover the experts' secrets to perfecting plant propagation with this easy-to-follow gardening manual. A horticulturist's delight, this new edition features more than 1,800 detailed illustrations and photos that show both practical step-by-step gardening techniques and the plants themselves. How long do your seedlings need to germinate? What makes a healthy stem cutting? How do you know what type of rootstock to use when grafting plants? Find out the answer to these questions and more in the most comprehensive guide to propagating plants ever published. From palms and

roses to culinary herbs and conifers, each chapter contains popular and botanically interesting plant groups. Explore the modes of propagation that are unique to the featured plants. Learn about their characteristic ways of reproduction and how these are exploited in various techniques. The techniques are fully illustrated with step-by-step photographs and explanatory artworks. The plants' special needs are discussed, with expert tips on how to achieve success. This gardening book is crammed with hundreds of step-by-step tutorials and clear advice, ranging from straightforward and simple to more in-depth. The rating system in the plant-by-plant A-Z dictionaries provides you with a quick reference to the relative ease or difficulty of each method of propagation.

Fill Your Garden with Beautiful Plants for Next-To-Nothing Plant propagation is a fun, rewarding, and inexpensive way to add shrubs to your garden or multiply your collection of houseplants. This book helps you successfully reach your goals while steering you clear of common mistakes. It's an indispensable reference book for every propagator's bookshelf. Use this comprehensive gardening guide to: - Find out how to propagate more than 1500 garden plants. - Follow the visual step-by-step guides and authoritative advice on cutting, layering, sowing, grafting, and more. - Consult the experts from the horticulture team at the Royal Horticultural Society.

Planting Design Hachette UK
RHS Garden Problem Solver is a comprehensive guide to establishing

healthy growing conditions in your garden and tackling pests and diseases when they occur. This book identifies more than 280 common pests, diseases and problems offering a broad range of cultural, chemical and biological solutions. With detailed instructions on combating pests and diseases in ornamentals, vegetables and fruit and how to keep weeds at bay, you'll learn how to save money, time and effort.

No Dig Random House

From the green-thumbed optimist who views their garden as a calming getaway to those that see backyard life as more of a struggle against weeds and pests, almost all gardeners will meet a creature or two who will drive them to despair. Plenty of gardeners are ready to swear off nasty chemical deterrents and

bloodthirsty solutions. But how can you save your squash and uphold your hostas at the same time? *50 Ways to Outsmart a Squirrel* serves up a smorgasbord of eco-friendly ideas and solutions. They're legal, humane and - best of all - effective. Cut through the old wives tales, save your salt for seasoning, and discover gold-standard, sustainable planting solutions and crop-saving tips from gardeners who know exactly how you feel.

Flora Hachette UK

Winner of the Practical Book of the Year 2013 at the Garden Media Guild Awards. *RHS Grow Your Own Crops in Pots* is the natural successor to Carol Klein's bestselling *RHS Grow your own Veg*, which has sold more than 300,000 copies since publication. With this book

you can turn the tiniest space into a productive and attractive plot, using the best varieties and techniques. Follow 30 tried-and-tested container recipes for top tasting crop combinations such as tomato with basil, fruit salads and cut-and-come-again vegetables. Discover the essential techniques that every container-gardener should know and use the crop directory to find out the best way to grow more than 60 vegetables, fruit, salads, herbs and edible flowers. *RHS Handbook: Garden Problem Solver* Hachette UK

'No dig' gardening saves time and work. In this book, no dig experts Charles Dowding and Stephanie Hafferty explain how to set up a no dig garden. They describe how to make compost, enrich soil, harvest and prepare food and make

natural beauty and cleaning products. These approaches work as well in small spaces as in large gardens Gardeners' World Top Tips Dorling Kindersley Ltd
Cool gardening projects for kids, with the experts at the RHS, in ebook format Get your child in the garden, get sowing and harvesting and they will learn to grow all kinds of plants, vegetables and fruits quickly and easily!
