 Constructive feedback is an essential part of learning, growth, and performance. Too often, though, feedback is withheld. How to Encourage Constructive Feedback from Others, Leader's Guide from the popular 60-Minute Active Training Series offers facilitators a ready-made, effective one-hour program that teaches participants how to use feedback from others. Specifically, participants will be introduced to and learn how to apply, the four fundamental strategies that open up people at work to exchange honest and constructive feedback: Invite others to give feedback that's really wanted Develop an on-going commitment to feedback Take into account the needs of the person on the giving end Keep the focus on the future, not the past

Effective feedback, whether it's meant for your boss, your peers, or your direct reports, is built around three ideas. One, focus on the situation. Two, describe the other person's behavior you observed in that situation. And third, describe the impact that behavior had on you. The result is a message that is clear and that can inspire action and productive change

 Praise for The Power of Feedback "Some books are worthy of being recommended simply because of their subject matter. . . . There is no greater force to improve the quality of human relationships

or improve the way organizations function than to multiply the amount and improve the quality of feedback." "Other books are worthy of being recommended . . . when an author takes an otherwise abstract, obtuse subject and turns it into an actionable, practical set of things to do. Joe Folkman has accomplished that task . . . helping individuals and organizations to develop feedback-rich environments . . . [and] change through the use of a variety of surveys and feed?-back instruments. He has made this topic highly engaging and accessible." "So, here you have the best of everything—an important topic; a talented, entertaining, and highly qualified author; content that is practical; and a text written in an easily comprehended manner. Enjoy." --From the Foreword by John H. "Jack" Zenger "Joe Folkman has years of experience and miles of wisdom from coaching and training high-performance organizations. He speaks truth: change is hard. But feedback can be very powerful if the receiver makes the commitment to lasting change. Folkman has scored a home run with *The Power of Feedback*." --Maria Nalywayko Senior Vice President, Human Resources, Fremont Investment & Loan "Most of us are clueless when it comes to providing feedback. But now, thanks to Joe Folkman's *The Power of Feedback*, we have a road map for turning the feedback we receive into lasting and profound change." --Jeffrey Gill Director of Organization Capability, The Coca-Cola Company

Much as Good to Great described what separates top companies from the rest, *The Next Level: What Insiders Know about Executive Success* shows executives what separates leadership success from failure at the next level. Every day, high performers are tapped to be executives and then left alone to figure out how to succeed in their new role. When this happens, most executives rely on strengths that served them well earlier in their careers. As executive coach Scott Eblin explains, this is why 40 percent of them fail. Moving successfully to the executive level requires knowing which behaviours and beliefs to let go, as well as which new ones to pick up. This confidence-building book outlines a program for success based on frank advice from accomplished senior executives around the world on what to do and, just as important, what to avoid. Like having a personal executive coach at your side, this valuable book shows you what to pick up and let go of to be successful at the next level. This fully revised edition of *The Next Level* is an essential addition to any leadership development or executive education toolkit.
