The brand new title that provides practical employment law guidance on HR restructuring matters across 30 European jurisdictions. Offering straightforward information on issues which are commonly faced by businesses during various kinds of restructuring, it looks at: the reorganisation of a workplace or group of companies; downsizing or closure of a business; restructuring due to relocation; and when outsourcing is being considered. The book assists readers to focus on what needs to be done 'now' as well as to plan for the timing, consultation, costs, morale implications and processes involved in each stage of the restructure. Individual 'State' chapters aid practical comparison These scenarios are examined across the 28 EU member states plus Norway and Switzerland, each in their own chapter, to allow for practical comparison across various jurisdictions. An introductory chapter on EU minimum standards

helps the reader to place each country within the context of EU law. Each chapter follows the same template to allow for easy comprehension of how to approach the same issue across borders. They cover: -Employment Status -Process for individual redundancies -Process for collective redundancies -Works Council and consultation requirements -Employment implications of business transfers -Unilateral and mutually agreed changes to terms and conditions of employment Local status of legislation and case law To keep the book user-friendly, legislation and case law are addressed in such a way that presents the current local primary and secondary status of each, without excessive use of unnecessary citations. Who should consider buying this book? This is an essential title for all employment law practitioners and HR specialists who work for, or advise, businesses that have offices in multiple European states. This unnerving and fluently written book is the definitive one to read' - BBC Wildlife 'Anyone concerned about the world our children and grandchildren must inherit owes it to themselves to read this book' - Irish Times

_____ An urgent and provocative call to action from the world's leading climate scientist Dr James Hansen, the world's leading scientist on climate issues, speaks out with the full truth about global warming: the planet is hurtling to a climatic point of no return. Hansen - whose climate predictions have come to pass again and again, beginning in the 1980s when he first warned US Congress about global warming - is the single most credible voice on the subject worldwide. He paints a devastating but all-too-realistic picture of what will happen if we continue to follow the course we're on. But he is also a hard-headed optimist, and shows that there is still time to take the urgent, strong action needed to save humanity. _____ 'James Hansen gives us the opportunity to watch a scientist who is sick of silence and compromise; a scientist at the breaking point - the point at which he is willing to sacrifice his credibility to make a stand to avert disaster' - LA Times
