Running the gamut in

 political to faux-New
 Yorker, David Berman's
 lo-fi cartoons incorporate
 strains of high and low

comedy, wistful
 Americana, contemporary
 art, dream visions, and a
 visual analog to the
 semipenetrable personal
 allusions found in his

music and poetry. His drawings invite the same deeper thought as his writings, making use of wordplay, cultural references, and offbeat observations. The sparse illustrations are complemented by poignant one-liners, and reveal moments of lightness within the author's dark humor, providing a wry, erudite commentary on American culture.

What choral conductor or soloist has not looked around for new ideas for warming up the voice? Here are 200 suggestions all at once! And these creative exercises do more than just warm up the voice: they help to relax the body, train the ear and develop an awareness of dynamics and rhythm. "Klaus Heizmann's collection is a wonderful new resource of ideas and techniques: practical, varied,

challenging, relaxing and stimulating. I am always looking for new ideas, as I like to use a different set of warm-ups at every rehearsal with my choirs, and I tend to choose specific exercises to suit the repertoire for the day. This collection gives us 200 excellent "tools-of-the-trade"; they are clearly labeled, intelligently set out, well-designed and extremely useful." Topics include "E" type barre chords, "A"

type barre chords, major, minor and dominant 7th forms, rock & roll style power chords and boogie progressions, simple "jazz" chords to spice up the blues, and much more.

Ova priča ima sretan kraj, ali ce vas na putu do tamo dobro protresti.

The first ever book on American composer and sound-art pioneer Maryanne Amacher, with letters, manifestos, notes and more elucidating her eclectic thinking on sound

and perception Maryanne Amacher (1938-2009) was a composer of large-scale fixed-duration sound installations and a highly original thinker in the areas of perception, sound spatialization and aural architecture. She is frequently cited as a pioneer of what has come to be called "sound art," although her thought and work challenges assumptions about the limitations of that genre. Maryanne Amacher: Selected Writings and Interviews represents the first ever book-length collection devoted to the composer, whose life and work are as vast as they are as yet unknown. From personal notes and letters to program notes, manifestos and unrealized project proposals, the documents are framed by longer interviews with Amacher that discuss corresponding periods of her life. Because Amacher worked across nearly every imaginable media format, this book will be of tremendous interest to theorists and practitioners in media and communications, urban design, contemporary art history, music studies, sound studies, film, radio, art criticism and performance studies. *Nature and History in*
