The lion loves elections—he wins every time. But when the mouse decides to run for president, other animals offer up their own candidates. Each one has a cause to champion: the ant wants a busier schedule, the German shepherd wants more law and order, and the wildebeest just wants everyone to live in peace. With so many options, how can the animals ever decide? Amusingly told through vibrantly colored illustrations, *Vote for Me!* introduces readers to the wild process of selecting a good leader.

New York Times Bestseller! A compendium about tiny ripples that created big waves in history. What was Hitler's real name? Which famous artist was mistakenly thought to be stillborn, until his uncle revived him by blowing cigar smoke in his face? And what were Albert Einstein's last words? Hilarious, fascinating, and a roller coaster of dizzying historical what-ifs and lesser-known anecdotes, *Napoleon's Hemorrhoids* is a potpourri for serious historians and casual history buffs that reveals how much of history turned out to be the consequences of fortune, accident, or luck. Here, you'll learn that Communist jets were two minutes away from opening fire on American planes during the Cuban missile crisis, when they had to turn back as they were running out of fuel. You'll discover that before the Battle of Waterloo, Napoleon's painful hemorrhoids prevented him from mounting his horse to survey the battlefield. You'll learn that Nixon's White House taping system was accidentally revealed by an aide, causing his downfall in the Watergate scandal. You'll discover how Coca-Cola's most famous advertisement, launched in 1971 was inspired by an

unplanned all-night layover at an Irish airport. (And . . . no one actually knows Einstein's last words. They were in German, a language his nurse did not speak.) A treasure trove of astonishing anecdotes about the tiny ripples that created big waves in history, *Napoleon's Hemorrhoids* reveals how our most famous incidents, best-loved works of art, and most accepted historical outcomes are simply twists of fate.

Characters in some languages, particularly Hebrew and Arabic, may not display properly due to device limitations. Transliterations of terms appear before the representations in foreign characters. This is an encyclopedic dictionary of close to 400 important philosophical, literary, and political terms and concepts that defy easy—or any—translation from one language and culture to another. Drawn from more than a dozen languages, terms such as *Dasein* (German), *pravda* (Russian), *saudade* (Portuguese), and *stato* (Italian) are thoroughly examined in all their cross-linguistic and cross-cultural complexities. Spanning the classical, medieval, early modern, modern, and contemporary periods, these are terms that influence thinking across the humanities. The

entries, written by more than 150 distinguished scholars, describe the origins and meanings of each term, the history and context of its usage, its translations into other languages, and its use in notable texts. The dictionary also includes essays on the special characteristics of particular languages--English, French, German, Greek, Italian, Portuguese, Russian, and Spanish. Originally published in French, this one-of-a-kind reference work is now available in English for the first time, with new contributions from Judith Butler, Daniel Heller-Roazen, Ben Kafka, Kevin McLaughlin, Kenneth Reinhard, Stella Sandford, Gayatri Chakravorty Spivak, Jane Tylus, Anthony Vidler, Susan Wolfson, Robert J. "With its warm palette and gentle scenes of the worried child being comforted, this book could function as a sequel to Sanna's astounding debut picture book, *The Journey*, which recounted a family's dangerous flight from their home in a war zone. Sanna provides an empathetic exploration of the adjustment to a new land that all migrants experience."--New York Times Book Review "Authentic and immediate, the first-person narration draws in readers and reveals just how easily fear can become overwhelming and isolating, but can also be controlled when feelings are shared and through comfort found in friendship. Like Sanna's *The Journey*, this book about an immigrant's experiences tackles a tough topic with honesty, empathy, and a sense of hopefulness."—School Library Journal, STARRED REVIEW "This follow-up to *The Journey* about a refugee family fleeing a war-torn homeland, focuses on the young daughter's apprehension as she adjusts to life in a new country and a new school."—The Horn Book Review "[...] this creative depiction shows how

friendship, empathy, and connection can help bring the overwhelming down to size for all."

—Publishers Weekly, STARRED REVIEW "A universal book that can be used to explain fear to readers and give empathy to those in a new environment." —Kirkus Reviews "It will be a familiar story for many children, but the girl's specific fears about language and difference might make this useful for discussions about newcomers as well." —Booklist When a young immigrant girl has to travel to a new country and start at a new school, she is accompanied by her Fear who tells her to be alone and afraid, growing bigger and bigger every day with questions like "how can you hope to make new friends if you don't understand their language?" But this little girl is stronger than her Fear. A heart-warming and timely tale from the bestselling author and illustrator of *The Journey*, this book shows us the importance of sharing your Fear with others--after all, everyone carries a Fear with them, even if it's small enough to fit into their pocket!

Combining southern warmth with unabashed emotion and side-splitting hilarity, Fannie Flagg takes readers back to Elmwood Springs, Missouri, where the most unlikely and surprising experiences of a high-spirited octogenarian inspire a town to ponder the age-old question: Why are we here? Life is the strangest thing. One minute, Mrs. Elnor Shimfissle is up in her tree, picking figs, and the next thing she knows, she is off on an adventure she never dreamed of, running into people she never in a million years expected to meet. Meanwhile, back home, Elnor's nervous, high-strung niece Norma faints and winds up in bed with a cold rag on her head; Elnor's neighbor Verbena rushes immediately to the Bible; her truck driver friend, Luther Griggs, runs his eighteen-wheeler into a ditch--and the entire town is thrown for a loop and left wondering, "What is life all about, anyway?" Except for Tot Whooten, who owns Tot's Tell It Like It Is Beauty Shop. Her main concern is that the end of the world might come before she can collect her social security. In this comedy-mystery, those near and dear to Elnor discover something wonderful: Heaven is actually right here, right now, with people you love, neighbors you help, friendships you keep. Can't Wait to Get to Heaven is proof once more that Fannie Flagg "was put on this earth to write" (*Southern Living*), spinning tales as sweet and refreshing as iced tea on a summer day, with a little extra kick thrown in.

Since comet Shoemaker-Levy collided with the planet Jupiter with stupendous force in 1994 there has been an upsurge of amateur interest in comets. Most comets are first discovered by amateur astronomers because there are so many amateurs looking for them, and techniques and instruments have improved dramatically in the past few years. After a short but detailed introduction to the comets themselves Nick James and Gerald North describe comet hunting, photographing and imaging comets, and digital image processing. The use of computers for orbital calculations and even helping to discover new comets is given a full chapter, as are advanced techniques including comet photometry and spectroscopy. This comprehensive book has an accompanying CD-ROM and is at once a "primer" for comet hunters and a reference text for more advanced amateur astronomers.
