This pocket reference guide is a must for all medical students and junior doctors preparing for exams in pharmacology or needing a rapid reminder during a clinical attachment. In light of the growing pressures on those who prescribe drugs to patients, increasing emphasis has been placed on the importance of pharmacology in the undergraduate medical curriculum. Rapid Clinical Pharmacology, with its concise, easy-to-use approach, offers an appealing format for students to use in both clinical practice and exam preparation and its 'one-page per drug/class' layout easily facilitates the generation of a personal student formulary. Each chapter of the book mirrors each section of the BNF to allow easy cross-referencing and then each chapter is divided into consistent sections as per other books in the Rapid series. Rapid Clinical Pharmacology will also be available as a mobile application for iPhone, iPod Touch, iPad and Blackberry. See wiley.com/go/mededapps for further details.

Pharmacology for the Medical Student isn't a rapid review book and it's not a massive pile of information that you don't need to know. This is a pharmacology textbook written so that you can read it quickly and understand it thoroughly. With 350+ USMLE-style questions, you can test your comprehension of the material before your professor does! This book is intended for students to use with their pharmacology course in medical or physician assistant school, but it has also become a popular resource with students preparing for their licensure exams (Step 1 USMLE, PANCE, etc.) Written by Dr. Erick Bourassa, a professor of pharmacology and a former medical student, this book contains everything you need to know in pharmacology to smash the boards and feel confident during your clinical training. For verified instructors wishing to use the text in their course, presentation files and a large test bank (separate from the questions included in the book) are available free of charge. To receive access to these files, contact the author directly.
