Just east of the greater Phoenix area, the Superstition Mountains are a wild, rugged range of volcanic peaks, mesas, and canyons. A network of trails covers this wilderness, reaching into Sonoran desert canyons,

pine forested valleys, mysterious volcanic rock formations, and jagged peaks. North of the Superstitions and still only a two hour drive from Phoenix, the Mazatzal Mountains are one of Arizona's largest and most remote wilderness areas. You can hike for days here without seeing another hiker. Completely revised and updated, Hiking Arizona's Superstition and Mazatzal Country, 2nd, is your ticket to exploring and enjoying this remarkable country, from the Verde

River to the pine-forested peaks along the Mazatzal Crest, the jagged summits of Four Peaks, and the labyrinthine canyons of the Superstitions. This guidebook contains descriptions of enjoyable hikes from a few hours to a week in length, for everyone from family groups to ardent peak baggers. Many of the hikes are loops and have opportunities for side trips and exploration. Look inside to find: Hikes suited to every ability Mile-by-mile directional cues GPS coordinates for all

Arizona has one of the fastest growing communities of Latino immigrants in the United States. In response to accusations that the Federal government was hampering the immigration enforcement actions of Arizona police, state Senator Russell

Pearce introduced the “Support Our Law Enforcement and Safe Neighborhoods Act.” Better known as SB 1070, the policy allows police officers in Arizona to arrest unauthorized immigrants under the state’s trespassing law. The law also gives officers the latitude to question and detain those that may appear suspicious, which may simply mean that they appear Latino. Under the State’s statute, immigrants can also be criminalized for their mere presence in Arizona. The

bill was signed into law on April 23, 2010, which generated a number of immensely complex issues at the local, national and international level. The measure has affected an already problematic U.S.-Mexico, bi-national relationship at a time of increased security cooperation between the two countries. Furthermore, former the President of Mexico has criticized the law, issuing travel advisories, and as a sanction, trade between Arizona and Mexico has

been reduced. Elected officials across the country called for a variety of economic boycotts and campaigns that would discourage the full implementation of the law. Over fifteen major cities have ended business contracts with Arizona. The State tourism industry has lost almost one billion dollars in less than six months as a result of this policy. This book examines a variety of issues and consequences of SB 1070 at the local, national and international level. It

provides timely research and analysis on a topic not previously examined and from a variety of interdisciplinary approaches, making it of interest to political scientists and policy-makers alike. *The Central Arizona Project. Arizona's flourishing wine industry may surprise those who think of the Grand Canyon State as a desert landscape dotted with cacti. From the high-country vineyards of the Verde Valley to the rolling plateaus of Sonoita and Willcox, pioneering winemakers are producing nationally acclaimed, award-winning wines. While the 1970s are

recognized as launching the modern-day industry, Arizona's viticulture dates back much further. The Spanish and Jesuit missionaries introduced European winemaking to the Southwest, and the 1800s saw the introduction of Arizona's first wineries. Join author Christina Barrueta on this fascinating journey and meet the pioneers and visionaries who are forging their own paths to build America's newest wine region. *The Central Arizona Project* Arcadia Publishing

A riveting account of the state of Arizona, seen through the lens of the Tucson shootings. On January 8, 2011, twenty-two-year-old Jared Lee Loughner opened fire at a Tucson meet-and-greet held by U.S.

Representative Gabrielle Giffords. The incident left six people dead and

eighteen injured, including Giffords, whom he shot in the head. Award-winning author and fifth generation Arizonan Tom Zoellner, a longtime friend of Giffords's and a field organizer on her Congressional campaign, uses the tragedy as a jumping-off point to expose the fault lines in Arizona's political and socioeconomic landscape that allowed this to happen: the harmful political rhetoric, the inept state government, the lingering effects of the housing market's boom

and bust, the proliferation and accessibility of guns, the lack of established communities, and the hysteria surrounding issues of race and immigration. Zoellner's account includes interviews with those directly involved and effected, including Arizona's controversial Sheriff Joe Arpaio. Zoellner offers a revealing portrait of the Southwestern state at a critical moment in history—and as a symbol of the nation's discontents and uncertainties. Ultimately,

it is his rallying cry for a saner, more civil way of life

But it isn't any ordinary sickness: modern life is

poisoning them, and when Ash too falls ill, the doctor's response is, "It's all in your mind." Meanwhile, the world beyond is succumbing to a breakdown of civilization only distantly perceived by Ash and the isolated residents of Snowflake, from which there may or may not be a chance for recovery. This humane and thoughtful novel explores the resilience of love and community in the face of crisis.
