In AU JAPON (1904), de Guerville recounts with mostly comical gaze—and perhaps a touch of imagination—his experiences in the Far East during the years 1892 and 1894. As the author himself confesses, “each of us sees things in our own way.” After a century, that of Monsieur de Guerville is worth rediscovering. In addition to translating the original French, DANIEL C. KANE provides a thorough introduction, a glossary of key figures, a chronology of de Guerville’s publications, and an index. **Publishers' circular and booksellers' record** Universidad de Salamanca
The European Yearbook has expanded over the years in keeping with the role played by European institutions

compared with national ones. It is an indispensable work of reference for anyone dealing with these institutions, which have become so numerous & varied that no-one can possibly memorise all their acronyms or functions. The European Yearbook provides aids for finding one's way through the labyrinth of these organisations which coordinate a variety of activities in over 20 countries. One of the aids is an 'organisation chart' at the beginning of the documentary section, giving a clear picture of the general situation. A perusal of the many contributions in the volume organisation by organisation, shows the full diversity of the activities which Europe is gradually taking over from national governments, with their consent &

financial support. Written in both of the Council of Europe's official languages, English & French, the European Yearbook also contains a general index by subject & name which constitutes a very valuable list of articles & provides direct access to the work's subject matter, regardless of the particular organisation concerned, offering a kind of cross-section of the activities of European organisations.

Le livre comprend une collection de legendes et de fables japonaise recueillies par le missionnaire Claude Ferrand au Japon. La mythologie japonaise embrasse les traditions shintoïstes et bouddhistes ainsi que la religion populaire basée sur l'agriculture.

Le pantheon shinto comprend innombrables kami (japonais pour dieu ou esprits). Les mythes et legendes japonais, comme generalement reconnus dans le courant dominant aujourd'hui, sont bases sur le Kojiki, le Nihon Shoki, et quelques livres complementaires. Le Kojiki, ou Registre des choses anciennes, est le plus ancien compte survivant du Japon de mythes, de legendes et de l'histoire. Le Shintoshu decrit les origines de divinites japonaises a partir d'un point de vue bouddhiste, tandis que le Hotsuma Tsutae enregistre une version sensiblement differente de la mythologie. The book includes a collection of Japanese legends and fables collected by the missionary Claudius Ferrand in Japan. Japanese mythology (Nihon

shinwa) is the set of legends and myths of Japan. The main Japanese myths, as generally accepted nowadays have Shinto origin, based on the Kojiki and other complementary works. The Kojiki is the oldest collection of myths, legends and history of Japan. The Shintoshu explains the genesis of deities from a Buddhist approach. The Tsutae Hotsuma and the Nihonshoki, meanwhile, contain relatively different versions of this mythology.
