The Life, Letters, and Writings of Charles Lamb: The last essays of Elia. Miscellaneous essays. Letters. Tales Princeton University Press

In his last years D. H. Lawrence often wrote for newspapers; he needed the money, and clearly enjoyed the work. He also wrote several substantial essays during the same period. This meticulously-edited collection brings together major essays such as Pornography and Obscenity and Lawrence's spirited Introduction to the volume of his Paintings; a group of autobiographical pieces, two of which are published here for the first time; and the articles Lawrence wrote at the invitation of newspaper and magazine editors. There are thirty-nine items in total, thirty-five of them deriving from original manuscripts; all were written between 1926 and Lawrence's death in March 1930. They are ordered chronologically according to the date of composition; each is preceded by an account of the circumstances in which it came to be published. The volume is introduced by a substantial survey of Lawrence's career as a writer responding directly to public interests and concerns.

In the mid-twentieth century, Virginia Woolf published 'Six Articles on London Life' in Good Housekeeping magazine, a popular magazine where

fashion, cookery and house decoration is largely featured. This first book-length study of what Woolf calls 'little articles' proposes to reassess the commissioned essays and read them in a chronological sequence in their original context as well as in the larger context of Woolf's work. Drawing primarily on literary theory, intermedial studies, periodical studies and philosophy, this volume argues the essays which provided an original guided tour of London are creative and innovative works, combining several art forms while developing a photographic method. Further investigation examines the construct of Woolf's essays as intermedial and as partaking both of theory and praxis; intermediality is closely connected here with her defense of a democratic ideal, itself grounded in a dialogue with her forebears. Far from being second-rate, the Good Housekeeping essays bring together aesthetic and political concerns and come out as playing a pivotal role: they redefine the essay as intermedial, signal Woolf's turn to a more openly committed form of writing, and fit perfectly within Woolf's essayistic and fictional oeuvre which they in turn illuminate.

Literary Nonfiction. Essays. Poetry. Essays (1976-2016) include a home-town introduction of the author's friend John Ashbery, a memoir of his friendship with James Schuyler (judged "the best single essay on Schuyler I know" by Richard Howard in the New York Times), a revisionist history of the New York School ("fine and gossipy," wrote Peter Schjeldahl in the New Yorker), and a long essay on Nièdecker and the evolutionary sublime ("magisterial" according to Barry Schwabsky at Hyperallergic; "marvelous" notes Laura Sims at Coldfront). Also an outsider's look at Emerson written

originally for the Library of America plus an afterword to the poems of Donald Britton, described by Kevin Killian as "a beautiful portrait" and by Schwabsky as "a fiercely searching critical overview of the New York poetry world of the 1980s."

This book comprises essays to mark the centenary of Dostoyevsky's death in 1881. The first part considers specific works and the second part ranges more widely over aspects of the great novelist's work, including essays on Dostoyevsky as philosopher, on his religious thought and on formalist and structuralist approaches to his work.

Virginia Woolf began writing reviews for the Guardian 'to make a few pence' from her father's death in 1904, and continued until the last decade of her life. The result is a phenomenal collection of articles, of which this selection offers a fascinating glimpse, which display the gifts of a dazzling social and literary critic as well as the development of a brilliant and influential novelist. From reflections on class and education, to slyly ironic reviews, musings on the lives of great men and 'Street Haunting', a superlative tour of her London neighbourhood, this is Woolf at her most thoughtful and entertaining.

Imaginary Portraits' is volume 3 in the ten-volume Collected Works of Walter Pater. Among Victorian writers, Pater (1839-1894) challenged academic and religious orthodoxies, defended 'the love of art for its own sake', developed a new genre of prose fiction (the 'imaginary portrait'), set new standards for intermedial and cross-disciplinary criticism, and made 'style' the watchword for creativity and life. Pater's Imaginary Portraits are among some of the most stylish and original pieces of short fiction in Victorian literature: portrayals of a series of handsome male protagonists across the ages of European history, set against a range of evocative European backdrops from Classical Greece to Medieval France, eighteenth-century Germany and modern England. Together, they constitute a remarkable testimony to Pater's profound understanding of centuries of cultural history, reworked in the hybrid genre of the imaginary portrait as sophisticated portrait miniatures of minor characters touched and affected by major moments in European history. They question central issues of nationhood and belonging, a Pan-European cultural identity, and the fate of the individual in the face of collective history. As formative texts for Modernist writers like Joyce, Eliot, and Woolf, Pater's Imaginary Portraits had an impact which reached far beyond the nineteenth century.

Chosen as a TLS Book of the Year 2019 This vital collection restores to print and prominence the work of Douglas Crase, a poet of revisionist invocations of the American landscape and transcendentalist tradition. Douglas Crase is best known for a single book of poems, The Revisionist (1981). In the year of its publication John Ashbery urged Carcanet to consider it for British publication and now, thirty-eight years later, the book appears together with the chapbook entitled The Astropastorals (2017), which together constitute the core of Crase's poetic work. He is among the crucial poets of his generation, but until now his work has not been widely available. An heir to Whitman, to Crane, to Ashbery, Crase deploys what he calls an American 'civil meter', throwing down a wry distinctively American prosodic gauntlet to readers and writers that is likely to be as discussed as Williams's 'variable foot'. With an introduction by Mark Ford.

Courted long and hopelessly by young scientist, Ted Tice, she is to find that love brings passion, sorrow, betrayal and finally hope. The milder Grace seeks fulfilment in an apparently happy marriage. But as the decades pass and the characters weave in and out of each other's lives, love, death and two slow-burning secrets wait in ambush for them.

A powerful and provocative collection of essays that offers poignant reflections on living between society' s most charged, politicized, and intractably polar spaces— between black and white, rich and poor, thin and fat.Savala Nolan knows what it means to live in the in-between. Descended from a Black and Mexican father and a white mother, Nolan' s mixed-race identity is obvious, for better and worse. At her mother' s encouragement, she began her first diet at the age of three and has been both fat and painfully thin throughout her life. She has experienced both the discomfort of generational poverty and the ease of wealth and privilege.It is these liminal spaces— of race, class, and body type— that the essays in Don' t Let It Get You Down excavate, presenting a clear and nuanced understanding of our society' s most intractable points of tension. The twelve essays that comprise this collection are rich with unforgettable anecdotes and are as humorous and as full of Nolan' s appetites as they are of anxieties. Over and over again, Nolan reminds us that our true identities are often most authentically lived not in the black and white, but in the grey of the in-between.
