Fiction. Translated from the French by Paul Knobloch. Originally published in 1947. "In the Exopotamian desert, where hepatrols blossom and children collect little animals called sandpeepers, the sun shines in an unusual way: it produces eerie black zones whose mysteries remain unexplained. Above all, Vian's peculiar way with

language proves that, indeed, life in the desert is equal to none. Since unusual language is bound to produce unusual fiction, it follows that the story does not take place in the fall, nor is it set in China" - from the Foreword by Marc Lapprand. The fourth novel by Vian, who was a contemporary of Sartre and Beauvoir. His innovative style, cutting-edge during his lifetime, but only successful in the sixties, made him an icon of the May 1968 student movement.

The origins of the Jewish community of Morocco are buried in history, but they date back to ancient times, and perhaps to the biblical period. The first Jews in the country migrated there from Israel. Over the centuries, their numbers were increased by converts and then by Jews expelled from Spain and Portugal. After the Muslim conquest, Morocco's Jews, as "people of the book," had dhimmi status, which entailed many restrictions but allowed them to exercise their religion freely. In the mellahs (Jewish quarters) of Morocco's cities and towns, and in the mountainous rural areas, a distinct Jewish culture developed and thrived, unquestionably traditional and Orthodox, yet unique because of the many areas in which it assimilated elements of the local culture and lifestyle, making them its own as it did so. Most of Morocco's Jews settled in Israel after 1948, and many others went to other countries. Wherever they went, their rich cultural heritage went with them, as exemplified by the Maimuna festival, just after Passover, which is now a major occasion on the Israeli calendar.

In 1942, a dashing young man who liked nothing so much as a heated game of poker, a good bottle of scotch, and the company of a pretty girl hopped a merchant ship to England. He was Robert Capa, the brilliant and daring photojournalist, and *Collier's* magazine had put him on assignment to photograph the war raging in Europe. In these pages, Capa recounts his terrifying journey through the darkest battles of World War II and shares his memories of the men and women of the Allied forces who befriended, amused, and captivated him along the way. His photographs are masterpieces — John G. Morris, *Magnum Photos'* first executive editor, called Capa "the century's greatest battlefield photographer" — and his writing is by turns riotously funny and deeply moving. From Sicily to London, Normandy to Algiers, Capa experienced some of the most trying conditions imaginable, yet his

compassion and wit shine on every page of this book. Charming and profound, *Slightly Out of Focus* is a marvelous memoir told in words and pictures by an extraordinary man.—Print Ed.

The legendary war photographer Robert Capa carried into his personal life the same remarkable vitality that characterizes his pictures. Driven from his native Hungary by political oppression, he was first recognized for photographing the Spanish Civil War. In 1938 he was in China recording the Japanese invasion. During World War II he was in London, North Africa, and Italy, and then in France covering D-Day on Omaha Beach, the liberation of Paris, and the Battle of the Bulge. When the new nation of Israel was founded in 1948 he was there. In 1954 he was in Vietnam, taking photographs until the moment he was killed. Away from battle, Capa gathered about him such famous people as Ernest Hemingway and his wife (the war correspondent Martha Gellhorn), Gary Cooper, Irwin Shaw, and Gene Kelly. Whelan shows Capa photographing the street life of Paris,

crisscrossing America on assignment from Life, in Russia with John Steinbeck, in Italy with John Huston, on the Riviera with Picasso, and with Ingrid Bergman.

The cultural and creative industries have become increasingly prominent in many policy agendas in recent years. Not only have

governments identified the growing consumer potential for cultural/creative industry products in the home market, they have also seen the creative industry agenda as central to the growth of external markets. This agenda stresses creativity, innovation, small business growth, and access to global markets – all central to a wider agenda of moving from cheap manufacture towards high value-added products and services. The increasing importance of cultural and creative industries in national and city policy agendas is evident in Hong Kong, Singapore, Taiwan, South Korea, Beijing, Shanghai and Guangzhou, Australia, and New Zealand, and in more nascent ways in cities such as Chongqing and Wuhan. Much of the thinking in these cities/countries has derived from the European and North American policy landscape. Policy debate in Europe and North America has been marked by ambiguities and tensions around the connections between cultural and economic policy which the creative industry agenda posits. These become more marked because the key drivers of the creative economy are the larger metropolitan areas, so that cultural and

economic policy also then intersect with urban planning, policy and governance.

Painted Fires, first published in 1925, narrates the trials and tribulations of Helmi Milander, a Finnish immigrant, during the years approaching the First World War. The novel serves as a vehicle for McClung's social activism, especially in terms of temperance, woman suffrage, and immigration policies that favour

cultural assimilation. In her afterword, Cecily Devereux situates *Painted Fires* in the context of McClung's feminist fiction and her interest in contemporary questions of immigration and "naturalization." She also considers how McClung's representation of Helmi Milander's story draws on popular culture narratives.

Interfering with the presidential election was just the first step. The target was the American Airlines Center, the home of the Dallas Mavericks. The FBI had told Ahmed Shakir that his drug bust would go away if he helped them, and they'd supply all the weaponry, carefully removing the firing pins before the main event. It never occurred to Ahmed to doubt them, until it was too late. When John Wells is called to Washington, he's sure it's to investigate the carnage in Dallas, but it isn't. The former CIA director, now president, Vinnie Duto has plenty of people working in Texas. He wants Wells to go to Colombia. An old asset there has information to share--and it will lead Wells to the

deadliest mission of his life, an extraordinary confluence of sleeper cells, sniper teams, false flag operations, double agents high in the U.S. government--and a Russian plot to take over the government itself. If it succeeds, what happened in Texas will be only a prelude.

Drawing on the most important studies in psychology, human aggression, anthropology, and primatology, and on hundreds of original interviews conducted over a period of more than 20 years, this groundbreaking treatise urges women to look within and to consider other women realistically, ethically, and kindly and to forge bold and compassionate alliances. Without this necessary next step, women will never be liberated. Detailing how women's aggression may not take the same form as men's, this investigation reveals—through myths, plays, memoir, theories of revolutionary liberation movements, evolution, psychoanalysis, and childhood development—that girls and women are indeed aggressive, often indirectly and mainly toward one another. This fascinating work concludes by showing that women depend upon one

another for emotional intimacy and bonding, and exclusionary and sexist behavior enforces female conformity and discourages independence and psychological growth.

"McCullin is required reading if you want to know what real journalism is all about." --"Times Literary Supplement" From the construction of the Berlin Wall through every conflict up to the Falklands War, photographer Don McCullin has left a trail of iconic images. At the "Sunday Times Magazine" in the 1960s, McCullin's photography made him a new kind of hero. The flow of stories every Sunday took a generation of readers beyond the insularity of post-war Britain and into the recesses of domestic deprivation: when in 1968, a year of political turmoil, the Beatles wanted new pictures, they insisted on using McCullin; when Francis Bacon, whose own career had emerged with depiction of the ravages of the flesh, wanted a portrait, he turned to McCullin. McCullin now spends his days quietly in a Somerset village, where he photographs the landscape and arranges still-lives -- a

far cry from the world's conflict zones and the war-scarred north London of Holloway Road where his career began. In October 2015, it will be twenty-five years since the first publication of his autobiography, "Unreasonable Behaviour" -- a harrowing memoir combining his photojournalism with his lifework. The time is right to complete McCullin's story."

Night of Fire Wilfrid Laurier Univ. Press
In 1994 when South Africans were finally seeing the light of freedom and independence, three well-respected businesswomen – Talullah Ntuli, Edna Whithead and Nkosazana Dlamini – formed the Black Widow Society, a secret organisation aimed at liberating women trapped in emotionally and physically abusive relationships by assisting in ‘eliminating’ their errant husbands. For fifteen years the Black Widow Society operated undetected, impeccably run by The Triumvirate with the help of their suave and mysterious hired gun, Mzwakhe Khuzwayo, a slick ex-convict meticulous in his responsibilities. But as the secret organisation recruits more members, the wheels of this well-oiled machine threaten to fall off. Will Talullah’s controlling streak

or Nkosazana’s unfettered material aspirations jeopardise the future of the Black Widow Society? Or perhaps one of the new recruits, unsettled by the reality of the elimination of her former husband, will lose her nerve and expose the workings of the group after all this time? As the tension mounts, Black Widow Society builds to a chilling and bloody climax that will keep you guessing and riveted until the very last page.

The time is ripe, more than fifty years after the publication of the magnum opus by Perls, Hefferline & Goodman, to publish a book on the topic of creativity in Gestalt therapy. The idea for this book was conceived in March 2001, on the island of Sicily, at the very first European Conference of Gestalt Therapy Writers of the European Association [or Gestalt Therapy]. Our starting point was an article on art and creativity in Gestalt therapy, which was presented there by one of the editors, and illuminated by a vision, held by the other editor, of bringing together colleagues from around the world to contribute to a qualified volume on the

subject of creativity within the realm of Gestalt therapy. We wanted to continue the professional discourse internationally and capture the synergetic effects of experienced colleagues' reflections on various aspects of our chosen subject. Moreover, we intended to explore how the theoretical reflection of one's practice can inspire effective interventions and, vice versa, how the discussion of practical experiences can shape new theoretical directions. Hence, our aim in this book is to create a forum on the concept of creativity in Gestalt therapy.

“Until the lion has its own storyteller, tales of the lion hunt will always glorify the hunter.” —Zimbabwean proverb
In 2015, an American hunter named Walter Palmer shot and killed a lion named Cecil. The lion was one of dozens slain each year in Zimbabwe, which legally licenses the hunting of big cats. But Cecil’s death sparked unprecedented global outrage, igniting thousands of media reports about the peculiar circumstances surrounding this hunt. At the center of the controversy was Dr. Andrew Loveridge, the zoologist who had studied Cecil for eight years. In

Lion Hearted, Loveridge pieces together, for the first time, the fascinating life and murky details of this beloved lion's slaying. In the tradition of *Born Free and Gorillas in the Mist*, *Lion Hearted* chronicles Loveridge's long acquaintance with a host of charismatic lions that his team has tracked, often from birth to death. Born and raised in Zimbabwe, Loveridge learned to love predators at the knee of his father, an eminent herpetologist who stored baby crocodiles in the family bathtub. After earning his doctorate at Oxford, he seized an invitation to study the lions of Zimbabwe's Hwange National Park. There he meets Stumpy Tail, who, despite her name, has the dignity of the Queen of the Animal Kingdom; Dynamite, a venerable coalition leader who, muscled out by younger males, sets off on an incredible thirty-seven-day, 137-mile journey to find a new home; and Kataza, who escapes another lion's claws, and whom Loveridge twice saves from death at the hands of humans. And, of course, there is Cecil. Dethroned in an epic battle, he forms an alliance with a former rival. He also becomes a favorite of photographers and tourists—until the

fateful night when a Minnesota dentist and his hunting guide entice the trusting cat with a free meal. Loveridge unravels the complexities of lion society and the dangers the cats face both within their ranks and from the outside world. Despite their ruthless reputation, lions can form deep emotional bonds—females live in prides, a sisterhood of mothers, daughters, sisters, and aunts that can exhibit military precision when hunting in formation; males band together in coalitions to vie for control of territory and the female prides. They also display a wide range of emotional behavior, including mourning the loss of their mates, partners, and cubs. Africa's lion population is estimated to have shrunk by 43 percent in the last twenty years. There may now be as few as 20,000 wild lions across the entire continent—far fewer than the number of elephants. While deploring the killing of lions for sport, Loveridge does not believe that banning trophy hunting, by itself, will halt the decline of Africa's lion populations. He sees greater threats in human population growth, the loss of habitat to agriculture, and the illegal trade in lion body parts for use in traditional

medicines. And he offers concrete proposals for averting the lion's extinction. More than a gripping detective story, *Lion Hearted* is an exploration of humanity's relationship with the natural world and an attempt to keep this majestic species from disappearing. "Lions are one of the most beloved animals on the planet," Loveridge observes. "They are the national symbol of no fewer than fifteen countries. . . . Surely, we can think of a better way to save the wild animals we love besides killing them." **To Die But Once** Random House Family Secrets and the Psychoanalysis of Narrative is the first book to explore the implications of the psychoanalytic theory of the phantom for the study of narrative literature. A phantom is formed when a shameful, unspeakable secret is unwittingly transmitted, through cryptic language and behavior, transgenerationally from one family member to another. The "haunted" individual to whom the "encrypted" secret is communicated becomes the unwitting medium for someone else's voice--and the result is speech and conduct that appear incongruous or obsessive in a variety of ways. Through close readings of texts by

Conrad, Villiers de l'Isle-Adam, Balzac, James, and Poe, Esther Rashkin reveals how shameful secrets, concealed within the unspoken family histories of fictive characters, can be reconstructed from their linguistic traces and can be shown not only to drive the characters' speech and behavior but also to generate their narratives. First articulated by the French psychoanalysts Nicolas Abraham and Maria Torok, the theory of the phantom here represents a radical departure from Freudian, Lacanian, and other psychoanalytic approaches to literary interpretation. In Rashkin's hands, it also provides a response to structuralist and poststructuralist critiques of character analysis, an alternative to deconstructive strategies of reading, and a new vantage point from which to consider problems of intertextuality, "authorship," and the formation and origins of narrative.
