 At the secondary stage of English  
 language learning the textual materials  
 and other resources should represent a  
 wide range of learning experience.  
 Literature has always played a  
 significant role in learning language.  
 However it is felt that pupils should be  
 apprised with contemporary issues, read  
 authentic literature and experiences of  
 people to reflect and build their  
 personality traits. While there is a trend  
 for inclusion of a wider range of  
 contemporary and authentic texts,  
 accessible and culturally appropriate  
 pieces of literature should play a pivotal  
 role at the secondary stage of education.  
 The English class is meant for reading  
 literature from different perspectives  
 and to engage in activities for  
 developing communicative competence,  
 creativity and enrichment of language  
 skills It should not be seen as a place  
 merely to read poems and stories in, but  
 an area of activities to develop the  
 learner's imagination as a major aim of  
 language study, and to equip the learner  
 with communicative skills to perform  
 various language functions through  
 speech and writing. This book is  
 primarily designed for students  
 preparing for various competitive ex-  
 aminations. It will also be helpful for  
 those preparing for midterm exams in  
 schools or universities. The aim of this  
 book is twofold: first, to help the  
 students preparing for competitive  
 examinations, seeking admission to  
 universities or schools, or pre- pare for  
 job interviews. Second, it will also be  
 helpful for those studying ENGLISH  
 LANGUAGE & LITERATURE. This book  
 contains more than 2903 questions from

the core areas of ENGLISH LANGUAGE &  
 LITERATURE. The questions are grouped  
 chapter-wise. There are total 3 chapters,  
 28 sections and 2903+ MCQ with  
 answers. This reference book provides a  
 single source for multiple choice  
 questions and answers in ENGLISH  
 LANGUAGE & LITERATURE. It is intended  
 for students as well as for developers  
 and researchers in the field. This book is  
 highly useful for faculties and students.  
 One can use this book as a study guide,  
 knowledge test questions bank, practice  
 test kit, quiz book, trivia questions . . .  
 etc. The strategy used in this book is the  
 same as that which mothers and  
 grandmothers have been using for ages  
 to induce kids in the family to sip more  
 soup (or some other nutritious drink).  
 The children are told that some cherries  
 (their favourite noo- dles or cherries )  
 are hidden somewhere in the bowl, and  
 that serves as an incentive for drinking  
 the soup. In joint families, by the time  
 the children are old enough to know the  
 trick played by their grandma, there is  
 usually another group of kids ready to  
 fall for it! They excite the kids, but the  
 real nutrition lies not in the noodles but  
 in the soup. The problems given in this  
 book are like those noodles/cherries  
 while solving all these problems are  
 nutritious soup. Now it is your choice to  
 drink the nutritious soups or not!!!.
