## KENDAL HANA

### NSSC Physical Science Module 3 Scottforesman

Spend less time planning for science and more time actually doing science. This program provides inquiry-rich content with Scaffolded Inquiry(TM) activities; cross-curricular connections that link reading and science skills in every chapter; hundreds of Leveled Readers for differentiated instruction; and time-saving strategies that create extra time in your day to do science. Hardbound Student Edition is organized into four units: Life, Earth, Physical, and Space and Technology. Each unit contains a balance between key science content and hands-on activities that support each lesson.

**PhD Science** Oxford University Press, USA

Natural Science Matters brings this Learning Area to life with plenty of practical activities that can be carried out in the learners' natural environment. The series is structured to ensure progression as set out in the Revised National Curriculum Statement. The Learner's Book contains \* a section at the beginning of each module reviewing learners' prior knowledge \* Learning Outcomes introduced in an integrated way, both within the Natural Sciences Learning Area and across other Learning Areas \* well-structured activities \* bold 'Skill' boxes that tell learners about a skill they will be using

Twenty First Century Science\* is a suite of complementary specifications offering flexible and exciting options for science at GCSE\* is unique in having been extensively trialled over three years with more than 6,000 students in each year\* is motivating, stimulating and relevant.The specifications and resources are the products of close collaboration between the University of York Science Education Group, the Nuffield Curriculum Centre, OCR, and Oxford University Press.The GCSE Additional Applied Science course contains six modules, and students choose three of these:\* A1 Life Care\* A2 Agriculture and food\* A3 Scientific detection\* A4 Harnessing chemicals\* A5 Communications\* A6 Materials and performanceA comprehensive set of trialled resources is available:For each module:A Textbook which conveys science content in a fresh, engaging way.A Workbook which can be used for homework and provides the student with a set of summary notes to help with revision.A Teacher and Technician Guide with schemes of work covering the whole course, including assessments, homeworks, cover lessons, and activity sheets.Covering all six modules:iPack CD-ROM which includes the schemes of work in interactive form, along with video clips and PowerPoint presentations. Remember the CD-ROMs are eligible for e-learning credits.For more information, visit:[www.twentyfirstcenturyscience.org](http://www.twentyfirstcenturyscience.org)

*PhD Science*

NSSC Physical Science Second Edition is a course consisting of three Modules, an Answer Book and a Teacher's Guide. The course has been written and designed to prepare students for the Namibia Senior Secondary Certificate (NSSC) Ordinary Levels. NSSC Physical Science Second Edition is high-quality support material. Features of the books include: • modules divided into units, each focusing on a different theme • stimulating and thought-provoking activities, designed to encourage critical thinking • 'Did you know?', rule and note boxes, providing supplementary information and

explanations of physical science concepts and terminology • step-by-step guidelines aimed towards achieving the learning outcomes • self-evaluation to facilitate learning and assess skills and knowledge • an outcomes-based approach encouraging student-centred learning • detailed feedback in the Answer Book promoting a thorough understanding of content through recognising errors and correcting them • ample diagrams and illustrations supporting and clarifying the text.
