Mediating Vulnerability
examines vulnerability
from a range of

connected
perspectives. It
responds to the
vulnerability of species,
their extinction but
also their
transformation. This
tension between
extreme danger and
creativity is played out

in literary studies through the pressures the discipline brings to bear on its own categories, particularly those of genre. Extinction and preservation on the one hand, transformation, adaptation and (re)mediation on the other. These two poles inform our comparative and interdisciplinary project. The volume is situated within the particular intercultural and intermedial context of contemporary cultural representation. Vulnerability is explored as a site of potential destruction, human as well as animal, but also as a site of potential openness. This is the first book to bring vulnerability studies into dialogue with

media and genre studies. It is organised in four sections: 'Human/Animal'; 'Violence/Resistance'; 'Image/Narrative'; and 'Medium/Genre'. Each chapter considers the intersection of vulnerability and genre from a comparative perspective, bringing together a team of international contributors and editors. The book is in dialogue with the reflections of Judith Butler and others on vulnerability, and it questions categories of genre through an interdisciplinary engagement with different representational forms, including digital culture, graphic novels, video games, photography and TV series, in addition to novels and short

stories. It offers new readings of high-profile contemporary authors of fiction including Margaret Atwood and Cormac McCarthy, as well as bringing lesser-known figures to the fore.

Gender Law and Policy IAP

A provocative, contemporary anthology examining the construction of boys' identity in modern cinema.

The Souls of Black Folk
UCL Press

Comprehensive in its coverage, *The Womanist Reader* is the first volume to anthologize the major works of womanist scholarship. Charting the course of womanist theory from its genesis as Alice Walker's African-American feminism, through Chikwenye Okonjo

Ogunyemi's African womanism and Clenora Hudson-Weems' *Africana* womanism, to its present-day expression as a global, anti-oppressionist perspective rooted in the praxis of everyday women of color, this interdisciplinary reader traces the rich and diverse history of a quarter century of womanist thought. Featuring selections from over a dozen disciplines by top womanist scholars from around the world, plus several critiques of womanism, an extensive bibliography of womanist sources, and the first ever systematic treatment of womanist thought on its own terms, Layli Phillips has assembled a unique and groundbreaking compilation.

Disarming the Nation

Springer

Much of the focus of anti-homophobic/anti-heterosexist educational theory, curriculum, and pedagogy has examined the impact of homophobia and heterosexism on gay, lesbian, bisexual, and transgender (GLBT) students and teachers. Such a focus has provided numerous theoretical and pedagogical insights, and has informed important changes in educational policy. *Queering Straight Teachers: Discourse and Identity in Education* remains deeply committed to the social justice project of improving the lives of GLBT students and teachers. However, in contrast with much of the

previous scholarship, *Queering Straight Teachers* shifts the focus from an analysis of the GLBT «Other» to a critical examination of what it might mean, in theory and in practice, to queer straight teachers, and the implications this has for challenging institutionalized heteronormativity in education. This book will be useful in courses on educational foundations, curriculum studies, multicultural education, queer theory, gay and lesbian studies, and critical theory.

Felipe Smith tracks the emergence of particular gender images--such as white witch, black madonna, mammy, and white lady--and their impact on early African American literature. Smith gives us a remarkable synthesis of historical readings combined with a highly original contribution to the comprehension of racial thought and literary writing.

Black Social Science and the Crisis of Manhood, 1890-1970 describes the young black male crisis, why we are largely unfamiliar with the story of the black superman, and why this matters to contemporary debates. It does so by returning to the work of those original black social scientists to explore the ways in which they understood the challenges of black manhood, offered substantive critiques of the nation's race, class, and gender systems, and worked

to construct a progression. The careful study of their work reveals the centrality of gender to discussions of race and class, and also new possibilities for understanding and discussing black men. This book offers a look at pioneering black social scientists as well as a history of the changing perceptions, ideals, and shifting depictions of black and white manhood over nearly a century.

There is no one method for doing culturally alert counseling. Instead, culturally alert counseling consists of intentionally adapting existing ways to help clients (1) understand their socially constructed worldviews through culture, (2) appreciate their

various cultures, (3) to make choices about adherence to cultural norms, and (4) to recognize and respond to external bias relating to their cultural group membership.

Queering Elementary Education is not about teaching kids to be gay, lesbian, bisexual, or straight. It's not part of a sinister stratagem in the Ogay agenda. Instead, these provocative and thoughtful essays advocate the creation of classrooms that challenge categorical thinking, promote interpersonal intelligence, and foster critical consciousness. Queer elementary classrooms are those where parents and

educators care enough about their children to trust the human capacity for understanding and their educative abilities to foster insight into the human condition. Those who teach queerly refuse to participate in the great sexual sorting machine called schooling where diminutive GI Joes and Barbies become star quarterbacks and prom queens, while the Linuses and Tinky Winkies become wallflowers or human doormats. Queering education means bracketing our simplest classroom activities in which we routinely equate sexual identities with sexual acts, privilege the heterosexual condition, and presume sexual destinies. Queer teachers are those who

develop curriculum and pedagogy that afford every child dignity rooted in self-worth and esteem for others. In short, queering education happens when we look at schooling upside down and view childhood from the inside out. This groundbreaking volume demands we explore taken-for-granted assumptions about diversity, identities, childhood, and prejudice.

Race for Citizenship

Duke University Press
The Routledge History of American Sport provides the first comprehensive overview of historical research in American sport from the early Colonial period to the present day. Considering sport through innovative themes and topics

such as the business of sport, material culture and sport, the political uses of sport, and gender and sport, this text offers an interdisciplinary analysis of American leisure. Rather than moving chronologically through American history or considering the historical origins of each sport, these topics are dealt with organically within thematic chapters, emphasizing the influence of sport on American society. The volume is divided into eight thematic sections that include detailed original essays on particular facets of each theme. Focusing on how sport has influenced the history of women, minorities, politics, the media, and culture, these thematic chapters survey the

major areas of debate and discussion. The volume offers a comprehensive view of the history of sport in America, pushing the field to consider new themes and approaches as well. Including a roster of contributors renowned in their fields of expertise, this groundbreaking collection is essential reading for all those interested in the history of American sport.

Black Men Teaching in Urban Schools

Frontiers Media SA

This book traces the powerful discourses and embodied practices through which Black Caribbean women have been imagined and produced as subjects of British liberal rule and modern freedom. It argues that in

seeking to escape liberalism's gendered and racialised governmentalities, Black women's everyday self-making practices construct decolonising and feminising epistemologies of freedom. These, in turn, repeatedly interrogate the colonial logics of liberalism and Britishness. Genealogically structured, the book begins with the narratives of freedom and identity presented by Black British Caribbean women. It then analyses critical moments of crisis in British racial rule at home and abroad in which gender and Caribbean women figure as points of concern. Post-war Caribbean immigration to the UK,

decolonisation of the British Caribbean and the post-emancipation reconstruction of the British Caribbean loom large in these considerations. In doing all of this, the author unravels the colonial legacies that continue to underwrite contemporary British multicultural anxieties. This thought-provoking work will appeal to students and scholars of social and cultural history, politics, feminism, race and postcoloniality.

Beyond Acting White
Rowman & Littlefield
Publishers

This book provides an illuminating account of teachers' own reflections on their experiences of teaching in urban schools. It was conceived as a direct response to policy-

related and media-generated concerns about male teacher shortage and offers a critique of the call for more male role models in elementary schools to address important issues regarding gender, race and the politics of representation. By including the perspectives of minority teachers and students, and by drawing on feminist, queer and anti-racist frameworks, this book rejects the familiar tendency to resort to role modelling as a basis for explaining or addressing boys' disaffection with schooling. Indeed, the authors argue, on the basis of their research in urban schools in Canada and Australia, that educational policy concerned with male

teacher shortage and the plight of disadvantaged minority boys would benefit from engaging with analytic perspectives and empirical literature that takes readers beyond hegemonic discourses of role modelling. A compelling case is presented for the need to disarticulate discourses about role modelling from a politics of representation that is committed to addressing the reality of the impact of racial and structural inequalities on both minority teachers and students' participation in the education system. The book also provides insight into the persistence of gender inequality as it relates to the status of

elementary school teaching as women's work. *Searching for the New Black Man* Harmony Published in 1903, *The Souls of Black Folk* by W. E. B. Du Bois was an immediate achievement. More than a hundred years later, the influence of Du Bois's critique of the political, social, and economic encumbrances imposed upon blacks in Reconstruction and post-Reconstruction America can still be felt. "The Souls of Black Folk" One Hundred Years Later is the first collection of essays to examine Du Bois's work from a variety of academic perspectives, including aesthetics, art history, communications, music, political science, psychology,

history, and the classics. Scholars, teachers, and students of American studies and African American studies will find this collection an essential overview of a book that changed the course of American intellectual history.

American Body Politics
University Press of Kentucky

This dynamic new text for ethics and philosophy of race courses brings together subjects philosophers have

generally kept separate—ethics and race. But every issue concerning race is an ethical issue, and it's time we studied them as such. Naomi Zack introduces students to historical and contemporary issues of race and racism and provides an ethical foundation for students to critically engage with these issues in the classroom and in their lives. The chapters discuss affirmative action and diversity, current protests from across the political spectrum, police killings, the relevance of race to the effects of disasters and climate change, white privilege as a cause for political impasse, racial identity (including mixed race identities), race and gender, and media representations of

race. While treating issues of race as moral subjects with suggested moral foundations, Zack does not lead the student to specific conclusions. Rather, through thought, discussion, and writing questions, students learn to construct their own chains of reasonings based on explicit moral foundations. The book features:

- Up-to-date social and biological scientific findings
- Hot-button current issues
- discussion questions and writing prompts
- further reading lists and video resources
- a comprehensive glossary
- international examples to supplement US-based discussion

The Extinction Coefficient Wayne State University Press

Between Beats: The Jazz Tradition and Black Vernacular Dance offers a new look at the complex intersections between jazz music and popular dance over the last hundred-plus years. Author Christi Jay Wells shows how popular entertainment and cultures of social

dancing were crucial to jazz music's formation and development even as jazz music came to earn a reputation as a "legitimate" art form better suited for still, seated listening. Through the concept of choreographies of listening, the book explores amateur and professional jazz dancers' relationships with jazz music and musicians as jazz's soundscapes and choreoscapes were forged through close contact and mutual creative exchange. It also unpacks the aesthetic and political negotiations through which jazz music supposedly distanced itself from dancing bodies. Fusing little-discussed material from diverse historical and contemporary sources with the

author's own years of experience as a social jazz dancer, it advances participatory dance and embodied practice as central topics of analysis in jazz studies. As it explores the fascinating history of jazz as popular dance music, it exposes how American anxieties about bodies and a broad cultural privileging of the cerebral over the corporeal have shaped efforts to "elevate" expressive forms such as jazz to elite status.

The Womanist

Reader Rowman & Littlefield Publishers
Androgynous Democracy examines how the notions of gender equality propounded by transcendentalists and other nineteenth-century writers were

further developed and complicated by the rise of literary modernism. Aaron Shaheen specifically investigates the ways in which intellectual discussions of androgyny, once detached from earlier gonadal-based models, were used by various American authors to formulate their own paradigms of democratic national cohesion. Indeed, Henry James, Frank Norris, Charlotte Perkins Gilman, John Crowe Ransom, Grace Lumpkin, W. E. B. Du Bois, and Marita Bonner all expressed a deep fascination with androgyny—an interest that bore directly on their thoughts about some of the most prominent issues America confronted as it moved into the first

decades of the twentieth century. Shaheen not only considers the work of each of these seven writers individually, but he also reveals the interconnectedness of their ideas. He shows that Henry James used the concept of androgyny to make sense of the discord between the North and the South in the years immediately following the Civil War, while Norris and Gilman used it to formulate a new model of citizenship in the wake of America's industrial ascendancy. The author next explores the uses Ransom and Lumpkin made of androgyny in assessing the threat of radicalism once the Great Depression had weakened the country's faith in both capitalism and

religious fundamentalism. Finally, he looks at how androgyny was instrumental in the discussions of racial uplift and urban migration generated by Du Bois and Bonner. Thoroughly documented, this engrossing volume will be a valuable resource in the fields of American literary

criticism, feminism and gender theory, queer theory, and politics and nationalism. Aaron Shaheen is UC Foundation Assistant Professor of English at the University of Tennessee at Chattanooga. He has published articles in the *Southern Literary Journal*, *American Literary Realism*, and the *Henry James Review*.
