The Rainbow Troops Jakad Media Publishing

Published in Indonesia in 2005, *The Rainbow Troops*, Andrea Hirata's closely autobiographical debut novel, sold more

than five million copies, shattering records. Now it promises to captivate audiences around the globe. Ikal is a student at the poorest village school on the Indonesian island of Belitung, where graduating from sixth grade is considered a remarkable achievement. His school is under constant threat of closure. In fact, Ikal and his friends—a group nicknamed the Rainbow Troops—face threats from every angle: skeptical government officials, greedy corporations hardly distinguishable from the colonialism they've replaced, deepening poverty and crumbling infrastructure, and their own low self-confidence. But the students also have hope, which comes in the form of two extraordinary teachers, and Ikal's education in and out of the classroom is an uplifting one. We root for him and his friends as they defy the island's powerful tin mine officials. We meet his first love, the unseen girl who sells chalk from behind a shop screen, whose pretty hands capture Ikal's heart. We cheer for Lintang, the class's barefoot math genius, as he bests the students of the mining corporation's school in an academic challenge. Above all, we gain an intimate acquaintance with the customs and people of the world's largest Muslim society. This is classic storytelling in the spirit of Khaled Hosseini's *The Kite Runner*: an engrossing depiction of a milieu we have never encountered before, bursting with charm and verve.

Mitigasi Bencana Galangpress Publisher
 Illustrated by the Author. Contents: Preface; How to Be Happy Through Rich or Poor; Rocks You are Likely to Bump on; Rovering. 'To sum up in a few words, success does not consist so much in gaining money and power as in gaining happiness. Many young men drift along

with the rest of the crowd according to chance, and thus never reach happiness. From being passive be active. Don't drift. Take your own line. Paddle your own canoe. Only mind the rocks Avoid them by cultivating other qualities. Powell explains the 'rocks you are likely to bump on (Through herd temptation) Horses, betting and looking on at false sports. Wine, and other forms of self indulgence. Women, dangers of a wrong attitude and blessing of the right one. Extremists in politics, irreligion, etc. Powell elaborates on the antidotes to the 'rocks (through individual effort) active hobbies, earning money, self-control, character, chivalry, health of mind and body, service for your fellow-men and for God. 'If you aim for it by practicing these safeguards, instead of being stranded among the rocks, you will win success and happiness. These and dozens of other inspiring maxims make this extraordinary book a useful companion for Scouts and Scout Leaders.

The theme of the conference is "Reconstructing Morals, Education, and Social Sciences for Achieving Sustainable Development Goals". This theme was formulated due to several considerations. First, the symptoms of moral decline that have the potential to destroy the nation. Morals guide humanity towards truth and civilization. The phenomenon of the dehumanization process in the industrial era that pushed people to be part of abstract societies tends to ignore humanity. The education process as a humanitarian system is increasingly marginalized, especially during discussions about the industrial revolution 4.0 and Society 5.0. The conference placed six sub-themes for speakers and participants to share ideas, namely: Social Sciences and Laws,

History and Cultural Studies, Interdisciplinary Studies, Morals and Humanities, Policy, Politics, and Communication, Education. The committee has received 195 abstracts from prospective speakers. However, there are only 80 abstracts that are eligible to be presented at this conference.

Metode Pembelajaran Tuntas dalam Pendidikan Kepramukaan Perspektif Al-Qur'an dan Implementasinya di SMP IT Al-Husein Tigaraksa MEDIA PUSINDO Calls for renewed moral education in America's schools, offering dozens of programs schools can adopt to teach students respect, responsibility, hard work, and other values that should not be left to parents to teach.

In 1899 while serving in the 2nd Boer War, Robert Baden-Powell penned his sixth military book, *Aids To Scouting*. It was a non-typical training manual filled with personal stories of intrigue and even games. Its goal was to encourage the development of light reconnaissance scouting skills within the British Army. The book was well received by various armies of its time, including the French Army. His successful defense of Mafeking (1899-1900) in South Africa made Baden-Powell a well-known national hero in Britain. But what completely surprised Baden-Powell was that his book was eagerly taken up by teachers and youth groups to help organize outdoor activities and sport. He eventually embraced the idea of adapting his work into a new youth-oriented book, *Scouting for Boys* (1908) which went on to sell approx. 150 million copies to date. It was that follow-on book that firmly launched the international Boy Scouts movement. *Aids to Scouting* contains sections on the characters of a

scout, as well as practical advice on observation, stealth/camouflage, map reading, sketching, tracking, reporting and care of horses. It presents these topics in a simple conversational style that makes it easy to read, and is illustrated with personal anecdotes of military adventures by the author. It gives scholars clear insights into his mindset and beliefs that served him well in the siege of Mafeking and shows a clear lineage to the formation of the tenets of his formation of the Boy Scouts. Anyone interested in the history of Boy Scouting will definitely want to read this interesting and formative book. (NOTE - Appendix C contents is missing in this Kindle version - but we hope to update the ebook with it once a suitable facsimile can be referenced). Keywords: Boy Scout, scout, recon, cavalry, Boer War, british, scouting, reconnaissance, South Africa

Award-winning psychologist and educator Thomas Lickona offers more than one hundred practical strategies that parents and schools have used to help kids build strong personal character as the foundation for a purposeful, productive, and fulfilling life. Succeeding in life takes character, and Lickona shows how irresponsible and destructive behavior can invariably be traced to the absence of good character and its ten essential qualities: wisdom, justice, fortitude, self-control, love, a positive

attitude, hard work, integrity, gratitude, and humility. The culmination of a lifetime's work in character education from one the preeminent psychologists of our time, this landmark book gives us the tools we need to raise respectful and responsible children, create safe and effective schools, and build the caring and decent society in which we all want to live.

Hyperactivity and Attention Disorders of Childhood Hachette UK

Credit and credit risk permeates every corner of the financial world. Previously credit tended to be acknowledged only when dealing with counterparty credit risk, high-yield debt or credit-linked derivatives, now it affects all things, including such fundamental concepts as assessing the present value of a future cash flow. The purpose of this book is to analyze credit from the beginning—the point at which any borrowing entity (sovereign, corporate, etc.) decides to raise capital through its treasury operation. To describe the debt management activity, the book presents examples from the development banking world which not only presents a clearer banking structure but in addition sits at the intersection of many topical issues (multi-lateral agencies, quasi-governmental entities, Emerging Markets, shrinking pool of AAA borrowers, etc.). This book covers: Curve

construction (instruments, collateralization, discounting, bootstrapping) Credit and fair valuing of loans (modeling, development institutions) Emerging markets and liquidity (liquidity, credit, capital control, development) Bond pricing (credit, illiquid bonds, recovery pricing) Treasury (funding as an asset swap structure, benchmarks for borrowing/investing) Risk and asset liability management (leverage, hedging, funding risk)
