Artemisia Gentileschi,

born in 1598, the

daughter of an esteemed
painter, taught art in

Naples and painted the
great women of Roman
and biblical history:

Esther, Judith, Cleopatra,
Bathsheba. She also
painted the rich and royal,
but her wealthy male
patrons wanted
admiration while her
women models wanted
disguise. This woman,
who had been violated in

her youth and reviled as a
rap victim in a public trial
before going off to
heretical England, who
was rejected by her father
and later abandoned by
her husband and
misunderstood by her
daughter, who could not
read or write but who
could only paint—this
woman was one of the

first modern times to uphold through her work and deeds the right of women to pursue careers compatible with their talents and on an equal footing with men. Artemisia lives again in Anna Banti's novel, which was first published to critical acclaim in Italy in 1947 (Banti was the pseudonym of Lucia Lopresti, 1895-1978). Recognized as a consummate stylist, she was one of the most successful women writers in Italy before the resurgence of the feminist

movement. Although Artemisia describes life in seventeenth-century Rome, Florence, and Naples, the time setting of the novel is, in a deeper sense, a historical, merging as it does the experience of a woman dead for three centuries with the terrors of World War II experienced by the author. Shirley D'Ardia Caracciolo's English translation of Banti's novel skillfully renders its complexity and poignancy as a study of courage. *Interacción entre gramática, didáctica y*

lexicografía Walter de Gruyter GmbH & Co KG When ten-year-old Enaiatollah Akbari's small village in Afghanistan falls prey to Taliban rule in early 2000, his mother shepherds the boy across the border into Pakistan but has to leave him there all alone to fend for himself. Thus begins Enaiat's remarkable and often punishing five-year ordeal, which takes him through Iran, Turkey, and Greece before he seeks political asylum in Italy at the age of fifteen. Along the way, Enaiat endures

the crippling physical and emotional agony of dangerous border crossings, trekking across bitterly cold mountain pathways for days on end or being stuffed into the false bottom of a truck. But not everyone is as resourceful, resilient, or lucky as Enaiat, and there are many heart-wrenching casualties along the way. Based on Enaiat's close collaboration with Italian novelist Fabio Geda and expertly rendered in English by an award-winning translator, this novel reconstructs the

young boy's memories, perfectly preserving the childlike perspective and rhythms of an intimate oral history. Told with humor and humanity, *In the Sea There Are Crocodiles* brilliantly captures Enaiat's moving and engaging voice and lends urgency to an epic story of hope and survival.

 Saleem, fed up with all

the violence, religiosity, and strict family hierarchies of his Iraqi village, flees to Spain to establish a new life for himself. But his lonely exile is turned upside down when he encounters his father, Noah, in a Madrid nightclub after not seeing him in more than a decade. Noah looks and acts like a new man, and Saleem sets out to discover the mystery of his father's presence in Spain and his altered life. In doing so, he recalls formative moments in Iraq of familial love, war,

and the haunting accidental death of his cousin Aliya, Saleem's partner in the hesitant, tender exploration of sexuality. When the renewed relationship with his father erupts in a violent conflict, Saleem is forced to rediscover his sense of self and the hard-won stability of his life. Through Saleem's experiences and reflections, the fast-paced narrative carries the reader between Spain and Iraq to a surprising resolution.

Giusto, sbagliato, dipende

The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an

exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar

mentality or disposition toward the world, language and the work of the poet. Economy of the Unlost begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language.

Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides'

style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences-- Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and

her poetic sensibility.

The European Portfolio for Student Teachers of Languages is a tool for reflection and self-assessment of the didactic knowledge and skills necessary to teach languages. It builds on insights from the Common European Framework of Reference and the European Language Portfolio as well as the European Profile for

Language Teacher Education. Four years after its initial publication it has been translated into twelve European and Asian languages. To meet widespread demand this ECML publication provides materials which support its implementation in teacher education. The book entitled Using the European Portfolio for Student Teachers of Languages presents examples, discussions and research findings of how the EPOSTL is used in initial teacher education courses, in bi-lateral

teacher education programs and in teaching practice. The accompanying folder and flyer feature, amongst other things, guidelines for strategic measures for introducing the EPOSTL in a particular institution. Grammar and Vocabulary for the Real World. Demonstratives Olschki

All languages have demonstratives, but their form, meaning and use vary tremendously across the languages of the world. This book presents the first large-scale analysis of

demonstratives from a cross-linguistic and diachronic perspective. It is based on a representative sample of 85 languages. The first part of the book analyzes demonstratives from a synchronic point of view, examining their morphological structures, semantic features, syntactic functions, and pragmatic uses in spoken and written discourse. The second part concentrates on diachronic issues, in particular on the development of demonstratives into

grammatical markers.

Across languages demonstratives provide a frequent historical source for definite articles, relative and third person pronouns, nonverbal copulas, sentence connectives, directional preverbs, focus markers, expletives, and many other grammatical markers. The book describes the different mechanisms by which demonstratives grammaticalize and argues that the evolution of grammatical markers from demonstratives is

crucially distinct from other cases of grammaticalization.

How Languages Work
Routledge

This collection of texts deals with lexicographical and grammatical issues of Spanish from a contrastive and didactic perspective. It aims at identifying the phenomena which are most interesting for compiling contrastive grammars and dictionaries for the Spanish language by focussing on the latest developments in the field

of foreign language teaching. In its first part, the volume presents discussions of the contrastive method in linguistics as well as in foreign language teaching and of the theoretical issues concerning the nature of the tertium comparationis for comparative linguistic analysis. In the second part, it provides case studies on grammatical, lexical and lexicographical issues comparing Spanish with German, Galician, French, and Italian. The volume is laid out as a

compendium of a number of key issues for future research in the field.

We think we know what healers do: they build on patients' irrational beliefs and treat them in a 'symbolic' way. If they get results, it's thanks to their capacity to listen, rather than any influence on a clinical level. At the same time, we also think we know what modern medicine is: a highly technical and rational process, but one that

scarcely listens to patients at all. In this book, ethnopsychiatrist Tobie Nathan and philosopher Isabelle Stengers argue that this commonly posed opposition between traditional and modern medicine is misleading. They show instead that healers are interesting precisely because they don't listen to patients, using techniques of 'divination' rather than 'diagnosis'. Healers construct genuine therapeutic strategies by identifying the origins of

symptoms in external forces, outside of the mind of the sufferer. Modern medicine, for its part, is characterized by empiricism rather than rationality. What appears to be the pursuit of rationality is ultimately only a means to dismiss and exclude other forms of treatment. Blurring the distinctions between traditional and modern practices and drawing on perspectives from across the globe, this ethnopsychiatric manifesto encourages us to think in radically new

ways about illness, challenging accepted notions on the relationship between sufferer and symptom. *In the Sea There are Crocodiles* Anchor This Italian reference grammar provides students, teachers and others interested in the Italian language with a comprehensive, accessible and jargon-free guide to the forms and structure of Italian. Whatever their level of knowledge of the language, learners of Italian will find this book

indispensable: it gives clear and detailed explanations of everything from the most elementary facts such as the relation between spelling and pronunciation, or the forms of the article, to

more advanced points such as the various nuances of the subjunctive. Formal or archaic discourse is distinguished from informal, everyday usage, and regionalisms are also indicated where appropriate. The authors

have taken care to make it an easy and illuminating reference tool: extensive cross-referencing enables readers to quickly find the information they require, and also stimulates them to discover new, related facts.
