## STRICKLAND LORELAI

Bibliotheca Lindesiana... Oxford University Press, USA  
 Reprint of the original, first published in 1874. The publishing  
 house Anatiposi publishes historical books as reprints. Due to  
 their age, these books may have missing pages or inferior  
 quality. Our aim is to preserve these books and make them  
 available to the public so that they do not get lost.  
*Catalogue d'une belle collection de livres, ... délaissés par  
 plusieurs défunts* BRILL  
 A collection of thirteen essays by leading scholars in the field, In

God's Empire examines the complex ways in which the spread of  
 Christianity by French men and women shaped local  
 communities, French national prowess, and global politics in the  
 two centuries following the French Revolution. More than a story  
 of religious proselytism, missionary activity was an essential  
 feature of French contact and interaction with local populations.  
 In many parts of the world, missionaries were the first French  
 men and women to work and live among indigenous societies.  
 For all the celebration of France's secular "civilizing mission," it  
 was more often than not religious workers who actually fulfilled  
 the daily tasks of running schools, hospitals, and orphanages.  
 While their work was often tied to small villages, missionaries'  
 interactions had geopolitical implications. Focusing on many

regions--from the Ottoman Empire and the United States to Indochina and the Pacific Ocean--this book explores how France used missionaries' long connections with local communities as a means of political influence and justification for colonial expansion. *In God's Empire* offers readers both an overview of the major historical dimensions of the French evangelical enterprise, as well as an introduction to the theoretical and methodological challenges of placing French missionary work within the context of European, colonial, and religious history. I "Sonetti lussuriosi" sono per eccellenza il libro maledetto di Pietro Aretino. Oggetto di una distruzione sistematica dopo che tutta l'opera dell'autore era stata messa all'indice dei libri proibiti, si diffusero in edizioni clandestine sempre più corrotte e contaminate di testi spurii, tanto che ancora oggi si continuano a stampare repliche indegne. La nuova edizione critica riveduta e corretta tiene conto di un manoscritto finora inedito e di una nuova datazione dell'editio princeps (non 1527 ma 1537). Ricostruisce la storia del testo, liberandola da tutti i cascami leggendari che si sono accumulati nel tempo, a partire dalla prima idea, che nasce nel 1525 da una sorta di commento poetico a 16 incisioni erotiche di Marcantonio Raimondi (su disegni di Giulio Romano), alla prima edizione del 1537, interamente perduta, fino alla sola cinquantina di cui ci sia pervenuto un esemplare, purtroppo corrotto e mutilato, che si cerca di sanare e integrare sulla scorta della tradizione ulteriore. [Bulletin des sciences historiques, antiquités, philologie](#) Springer Nature

Catalog of an exhibition which opened at The Metropolitan Museum of Art on Dec. 20, 1988. This first comprehensive study in English devoted to Sieneese painting to be published in four decades centers on the fifteenth century, a fascinating but frequently neglected period when Sieneese artists confronted the innovations of Renaissance painting in Florence. Two introductory essays survey fifteenth-century Sieneese painting, and individual entries examine 139 key works in exhaustive detail, presenting new insights into long-debated issues of interpretation and attribution, and often utilizing previously unpublished material. Most of the major paintings are reproduced in color and supplemented with illustrations of related comparative works. [Catalogue of the Library of the Boston Athenæum](#) BoD - Books on Demand

The late eighteenth century and subsequent Napoleonic Era witnessed a turning point in the establishment of agricultural science as a well-defined discipline in northern Italy. In this book, Martino Lorenzo Fagnani traces these developments by reviewing the correspondence of naturalists and agriculturists as well as the research plans of universities, academies, societies, institutes,

and governments. He explores the establishment of a broad knowledge network encompassing all of Europe while also investigating the reasons behind the exchange of seeds, the establishment of spaces for experimentation such as scientific gardens and experimental fields, and the organization of specialized journals and monographs. This work represents an important contribution to the historiography of Italian agricultural science, filling a significant gap in our knowledge of related developments.

[The British Library General Catalogue of Printed Books to 1975](#) Metropolitan Museum of Art

Major new study of secular-religious boundaries and the role of the clergy in the administration of Italy's late medieval city-states.

**Sonetti lussuriosi** Cambridge University Press

A study of the reception of Greek and Latin culture in France in the 16th and 17th centuries. There are surveys on topics as diverse as the role of French travellers to classical lands in transforming perceptible reality into narrative textuality, and the influence of ancient law in France.
