“A riveting memoir that takes readers on a roller coaster ride from the depths of hell to triumphant success.”—Dave Pelzer, author of *A Child Called “It”* Michelle Stevens has a photo of the exact moment her childhood was stolen from her: She’s only eight years old, posing for her mother’s boyfriend, Gary Lundquist—an elementary school teacher, neighborhood stalwart, and brutal pedophile. Later that night, Gary locks Michelle in a cage, tortures her repeatedly, and uses her to quench his voracious and deviant sexual whims. Little does she know that this will become her new reality for the next six years. Michelle can also pinpoint the moment she reconstituted the splintered pieces of her life: She’s in cap and gown, receiving her PhD in psychology—and the university’s award for best dissertation. The distance between these two points is

the improbable journey from torture, loss, and mental illness to healing, recovery, and triumph that is Michelle’s powerful memoir, *Scared Selfless*. Michelle suffered from post-traumatic stress disorder, anxiety, and depression, and made multiple suicide attempts. She also developed multiple personalities. There was “Chelsey,” the rebellious teenager; “Viscous,” a tween with homicidal rage; and “Sarah,” a sweet little girl who brought her teddy bear on a first date. In this harrowing tale, Michelle, who was inspired to help others heal by becoming a psychotherapist, sheds light on the all-too-real threat of child sexual abuse, its subsequent psychological effects, and the best methods for victims to overcome their ordeals and, ultimately, thrive. *Scared Selfless* is both an examination of the extraordinary feats of the mind that

are possible in the face of horrific trauma as well as Michelle's courageous testament to their power.

Mother Dear, one day I'm going to turn this world upside down. Long before he became a world-famous dreamer, Martin Luther King Jr. was a little boy who played jokes and practiced the piano and made friends without considering race. Martin decided then and there that something had to be done. And so he began the journey that would change the course of American history.

Oceania has a rich and growing literary tradition. The imaginative literature that emerged in the 1960s often reflected the forms and structures of European literature, though the ideas expressed were typically anticolonial. After three decades, the literature of Oceania has become much more complex, in terms of style as well as content; and authors write in a multiplicity of styles and voices. While the written literature of Oceania is continuously gaining more critical

attention, questions about the imposition of European literary standards and values as a further extension of colonialism in the Pacific have become a central issue. This book is a detailed survey of the expanding amount of critical and interpretive material written about the imaginative literature of authors from Oceania. It focuses on commentary and scholarship concerned with the poetry, fiction, and drama written in English by indigenous peoples of the Pacific Islands, New Zealand, and Australia. The criticisms have appeared in academic books and journals since the mid-1960s. They have developed to the point at which critical issues, related to decolonization and the expression of ideas without having to first satisfy foreign expectations, often determine the direction of such discussions. Entries are grouped in topical chapters, and each entry includes an extensive annotation. An introductory essay summarizes the evolution of Pacific literature.
