PHELPS KLEIN

Briefing Taylor & Francis

This is the second in a must-have series of step-by-step guides to using the new RIBA Plan of Work 2013 on your project. Drawing together stages 2 and 3 this book explains the importance of the Concept Design and Developed Design, how to achieve a balance of creativity and method and how it should interact with the briefing and construction phases. Providing a practical tool to running an efficient project each guide follows the same format leading you through the core tasks at each stage supported by tips, definitions, templates and useful techniques. Five theoretical scenarios are used throughout the guides to illustrate how the Plan of Work can be applied on various project types and sizes including an extension to a house, a new library and a large office building. These guides will provide unrivalled support for practices on all projects - large and small - and across all types of procurement.

A Practical Guide to Working in Theatre Routledge

Annotation In the first edition of *A Practical Guide to Stage Lighting*, Steve Shelley cracked the production book and showed how to prepare a lighting design and create the paperwork needed to mount a production. In the second edition, he pulled back the curtain and showed the methods and

processes that go on before the light plot is finalized and ready to go to into the shop, even dealing with cutting the plot in half. In this third edition, Shelley throws the door wide open and shows step-by-step how to construct every lighting system in the light plot. Combining his diacritical analysis, killer drafting, and analytic use of the Slinky Method and Slinky Calculations, he presents the Periodic Table of Fundamental Lighting Systems and shows the basic recipes used to create multi-instrument lighting systems. Highlights include: Over 100 new topics and forums, including analysis and application of the three categories of collaboration; a detailed examination of production meetings and one-on-one meetings; and meeting checklists with management and the creative team. Over 50 new illustrations, including Shelley's Periodic Table of Fundamental Lighting Systems; groundplans, sections, and front elevations that illustrate basic system wash configurations for each direction of light. Analysis, calculation, and step-by-step technical construction of each lighting system in the Hokey light plot. Explanation of a manufacturer's cut sheet, and how to apply basic formulas to determine the beam size, footcandles, and gel transmission for lighting instruments. Updated process of pre-programming computer lighting consoles prior to the load-in. Comprehensive overview of archiving paperwork and softcopy for a production.

Design Routledge

Prop makers everywhere now have available to them a broader range of products and processes than ever before. *Making Stage Props* is a book for anyone involved in prop making who wishes to explore the wealth of materials and techniques open to them. This highly illustrated guide covers planning, costing, and scheduling; tools and safety; working with wood, steel, and clay; making and repairing furniture; painting and finishing; and

more. Andy Wilson has worked with theatrical companies throughout Britain, including the Royal Shakespeare Company. He currently teaches propmaking at the Guildhall School of Music and Drama.

Autism in the Early Years Crowood Press (UK)

Would you like to offer constructive, creative and exciting new dramatic learning experiences to the children in your setting? The importance of using drama to promote active and creative learning in the early years is widely recognised, and this fully updated second edition of Drama 3-5 will guide and inspire practitioners in all settings, allowing them to lead drama with confidence and enthusiasm. Young children participating in well planned drama activities learn to express themselves clearly and develop strong social skills, more self-confidence and a greater understanding of co-operation and team-work. Drama 3-5 contains a wide range of accessible activities and sample session plans, drawn from the author's many years of extensive experience, which have all been fully and successfully tried and tested with children from 3-5 years. The book also explains the theory and value of all of the activities, as well as possible extensions and the ways in which they contribute to the learning objectives and goals of the Early Years Foundation Stage, allowing practitioners to encourage and assess children's progress. Key chapters include: Building confidence Encouraging social interaction Mime and expression Speech and language Co-operation and teamwork Performance skills This book offers the tools and understanding needed for confident dramatic play and learning, making it an ideal companion to support every practitioner who wants to explore, develop and enjoy drama and have fun with their children.

Performing Shakespeare Unrehearsed Routledge

First Published in 2010. Routledge is an imprint of Taylor & Francis, an informa company.

Stage Writing Crowood Press (UK)

Playwriting offers a practical guide to the creation of text for live performance. It contains a wealth of exercises for amateur and professional playwrights. Usable in a range of contexts, the book works as: * a step-by-step guide to the creation of an individual play * a handy resource for a teacher or workshop leader * a stimulus for the group-devised play. The result of Noël Greig's thirty years' experience as a playwright, actor, director and teacher, Playwriting is the ideal handbook for anyone who engages with playwriting and is ultimately concerned with creating a story and bringing it to life on the stage.

Making Stage Costumes CRC Press

Protecting the environment should be a priority of every theatrical production, but it can be challenging to mount an environmentally-friendly show with limited time, resources, and information. A Practical Guide to Greener Theatre: Introduce Sustainability Into Your Productions not only gives you the information you need to make greener decisions, but provides you with practical, workable solutions. You will learn how to assess and improve every production area – from costuming and painting, lighting and technical direction, to administrative offices and the rehearsal process. Checklists, examples of successful strategies, and step-by-step instructions will show you how to identify areas where manageable, sustainable changes can make your productions greener, and advice from working professionals, with experience greening their own productions, will leave you confident that your processes are environmentally sound. Even non-technical people who find themselves responsible for supervising productions will find green solutions that can be instituted with a staff of volunteers or students. Remember: every step toward sustainability is a step forward. Discover small fixes that will make your theatre productions greener. Examine ways to introduce greener practices in the design, execution, and strike process. Explore how introducing sustainability into your theatre productions can save your company time and money. Learn how sustainability and safety intersect to help protect your workers and volunteers.

Stage Fighting Crowood Press (UK)

Revised, updated and expanded, this classic primer on theatrical lighting design features the latest technological advances as well as photos and diagrams from the author's newest productions. A virtuoso in the field, Max Keller has set new standards of technical and artistic excellence. In this book he divulges his extensive knowledge of every aspect of stage lighting, from natural phenomena and the history of light in the theater, to Goethe and Runge's theories of color, to the fundamentals of optics and projection. This revised edition of Light Fantastic includes new images from Keller's most recent productions as well as completely updated information on optics, lamps, lanterns, projection and lighting consoles. In more than 600 stunning photographs and illustrations, the power of Keller's expertise shines through, making this a visually exciting and highly informative work for those involved in theater technology. Max Keller is an internationally acclaimed designer and consultant for productions on some of the world's most celebrated stages, including the Metropolitan Opera House, the Royal Opera House, the Salzburg Festival and The Munchner Kammerspiele.

Stage Lighting Design The Hanen Centre

Acting.

A Practical Guide to Stage Lighting The Crowood Press

The Stage Lighting Handbook is well established as the classic practical lighting guide. The book explains the process of designing lighting for all forms of stage production and describes the equipment used. This new edition includes up-to-date information on new equipment and discusses its impact on working methods.

Stage Management Theory as a Guide to Practice Crowood Press (UK)

A practical guide to the art and technique of lighting for the stage, this book explains the complex mixture of craft, collaboration and creativity behind successful lighting design. The designer paints with light - revealing form and composing a living picture from collections of objects and bodies in a given space. This handbook for professional practice walks you through how to achieve this, from first concept to development of design ideas, planning to realisation and, finally, public performance. Now fully revised, this second edition of Nick Moran's Performance Lighting Design has been brought up to date to consider advances made in the technology used for lighting design for live performance. Alongside this, Moran introduces new concepts and ways of working; includes a section on analysing the finished design; and discusses recent research into contemporary lighting practice, addressing emerging trends, particularly for drama. Combining practical information with aesthetic considerations, Performance Lighting Design is the ideal book for students and practitioners of stage lighting working on the contemporary stage.

The Really Useful ICT Book Taylor & Francis

This is the third in a must-have series of step-by-step guides to using the new RIBA Plan of Work 2013 on your project. Drawing together stages 4, 5 and 6 this book explains what needs to have been achieved for Technical Design to begin, how to achieve success in the construction phase as well as the importance of a comprehensive Handover Strategy. Providing a practical tool to running an efficient project each guide follows the same format leading you through the core tasks at each stage supported by tips, definitions, templates and useful techniques. Five theoretical scenarios are used throughout the guides to illustrate how the Plan of Work can be applied on various project types and sizes including an extension to a house, a new library and a large office building. These guides will provide unrivalled support for practices on all projects – large and small – and across all types of procurement.

Safety and Health for the Stage Routledge

Can you really write a play that lasts a minute? The one minute play offers a unique challenge to actors, directors and writers: how do you create a whole world, where actors have room to perform and where audiences have a true experience all in 60 seconds? One Minute Plays: A Practical Guide to Tiny Theatre demystifies the super-short-form play, demonstrating that this rich, accessible format offers great energy and variety not only to audiences but to everyone involved in its creation and performance. This handbook includes: An anthology of 200 one-minute plays selected from the annual Gone in 60 Seconds festival. A toolbox of exercises, methodologies and techniques for educators, practitioners and workshop leaders at all levels. Tips and advice on the demands of storytelling, inclusivity and creative challenges. Detailed practical information about creating your own minute festival, including play selection, running order, staging and marketing. Drawing on a wealth of experience, Steve Ansell and Rose Burnett Bonczek present an invaluable guide for anyone intrigued by the art of creating, producing and performing a one minute play.

Performance Lighting Design Routledge

A guide for grad students and academics who want to find fulfilling careers outside higher education. With the academic job market in crisis, 'Leaving Academia' helps grad students and academics in any scholarly field find satisfying careers beyond higher education. The book offers invaluable advice to visiting and adjunct instructors ready to seek new opportunities, to scholars caught in "tenure-trap" jobs, to grad students interested in nonacademic work, and to committed academics who want to support their students and contingent colleagues more effectively. Providing clear, concrete ways to move forward at each stage of your career change, even when the going gets tough, 'Leaving Academia' is both realistic and hopeful.

Playwriting Bloomsbury Publishing

Live theatre is an exciting, challenging profession - but how is professional theatre actually made? What are the roles and what does each person do? Which pathways lead into the profession? What skills are necessary to each role and how does the job differ according to the size of theatre or company? Written by the Acting Head of the Young People's Programme at the Royal Shakespeare Co. and former Director of Education at the Bristol Old Vic, this is a book for new entrants in the theatre industry needing a behind-the-scenes glimpse into how theatre is made. It covers each role including director, designer, sound and lighting, front of house, playwright and many more. Each chapter looks in detail at what each role entails, the main people who it involves working alongside and the skills required. Interviews with a number of key practitioners for each role provide authoritative and clear advice and insight for the reader. The book features interviews with all of the following and many more besides: Nick Hytner (National Theatre), Simon Reade (Bristol Old Vic), Mike Shepperd (founder and performer, Kneehigh), Emma Rice (Artistic Director, Kneehigh), Rachel Kavanaugh (Birmingham Rep), Tim Crouch (Writer/Director/Performer), Anne Tipton (Director), Stephen Jeffries (Playwright), David Edgar (Playwright) and Jack Bradley (Literary Manager).

Drama 3-5 Princeton University Press

Written by a well-known costume designer, this book is for anyone who would like to create costumes for the theater, whatever their experience or their budget. Topics include understanding the structure and work of a theater company; making the best use of production meetings; coping with budgets; decoding the costume clues in a script; setting up and equipping a workroom; finding costumes at thrift shops and flea markets; altering modern clothes for period productions; using and adapting commercial patterns; and developing simple sewing skills. Tina Bicât has worked as a costume designer for The Royal National Theatre, The New York City Ballet, The English National Opera, as well as for fringe theater groups, television, and film.

Stage Lighting Design Crowood

This title delves deep into the mysteries of theatre illumination: not just what works and how to achieve success in this complex area, but why it works.

Stage Management Nick Hern Books

This is the first in a must-have series of step-by-step guides to using the new RIBA Plan of Work 2013 on your project. Drawing together Stages 7, 0 and 1 this book is about much more than briefing; it guides you through the brand new Stage 0 – Strategic Definition – as well as how Stage 7 – In Use – can feed into the definition process reflecting the circular principles of the new Plan of Work. Providing a practical tool to running an efficient project each guide follows the same format leading you through the core tasks at each stage supported by tips, definitions, templates and useful techniques. Five theoretical scenarios are used throughout the guides to illustrate how the Plan of Work can be applied on various project types and sizes including an extension to a house, a new library and a large office building. These guides will provide unrivalled support for practices on all projects – large and small – and across all types of procurement.

Introduction to the Art of Stage Management CRC Press

Revered as the authoritative resource for stage management, this text offers students a practical manual on how to stage manage in all theater environments. Rich with practical resources — checklists, diagrams, examples, forms and step-by-step directions — Stage Management eschews excessive discussion of philosophy and gets right to the essential materials and processes of putting on a production. In addition to sharing his own expertise, Stern has gathered practical advice from working stage managers of Broadway, off-Broadway, touring companies, regional, community,

and 99-seat Equity waiver theaters.

[A Practical Guide to Greener Theatre](#) Taylor & Francis

"Stage technicians or 'techies' don't read books, they seek information on the basis of the need to know." This is a practical guide to stage lighting covering equipment, lighting a performance space, special effects and lighting design. It can be read cover-to-cover, but also used as reference manual which provides easy access to the content through the use of tabulated sections and keywords. The information in each chapter is presented

at three levels: - A quick start - basic information providing enough to get started - More info - more detailed knowledge - Extras! - extended technical information and data The three strands run visually throughout the guide enabling students to mix and match their own personal level of study or to fast track through to the information they need on stage. This handy, accessible guide is packed with illustrations, pictures, diagrams, plans and technical data. In addition a DVD is included using unique video clips to illustrate the text, show the practical use of equipment, and examples of different lighting techniques and effects. The differentiated format makes it equally suitable as a quick start for school students or at an extended level for aspiring theatre technicians, teachers, amateur dramatic enthusiasts or anyone needing a quick on-the-job reference.
