When a pet dog injures a human or another dog, the owner is left in a state of fear and confusion. If a dog wreaks havoc and destruction on a home, the owner is left feeling helpless. If an owner finds a dog uncontrollable, or if a dog becomes aggressive and a threat to the community, the dog becomes the one that is at risk for injury or death. Families living with these behaviorally challenged dogs may become isolated and wonder if there is help for their dog. The reality is there are thousands of families facing these issues. This book explains the process for helping dogs with behavior problems in plain language. Calling on her years of experience as a certified canine behavior consultant, the author highlights the journeys of past clients through a series of vignettes broken up by chapters that contain informative and researched guidance. While it is not meant to be a how-to training guide, the book lets people with reactive or anxious dogs know they are not

alone. And for those that lose the battle, it walks with them through that final journey.

Do you feel like your partner has become your child? Do you find yourself being his maid, his cook, his manager? Have romance, respect, fun—and sex—been drained out of your relationship? In *How Can I Be Your Lover When I'm Too Busy Being Your Mother?* Sara Dimerman and J.M. Kearns lay bare an essential problem: the woman who finds she's turned into a mother to her man instead of the equal and intimate partner she once was. She has a day job just like he does, yet at home she

finds herself doing most of the housework, running the home, and being in charge of the child-rearing, which makes her his boss in the one place they spend most of their time together. This leaves her feeling angry and resentful—hardly conducive to being lovers. Dimerman and Kearns boldly confront the issues, allowing both sexes to vent in a no-holds-barred exchange that ranges from hostile to hilarious. They deconstruct the problem using real-life examples and lay out a step-by-step path that will enable any couple to get back to being equal partners again.

In the age of globalization, some claim that where you live doesn't matter: Alaska, Idaho, and Alabama are interchangeable. The world is, after all, flat. Not so fast. Place, argues the great urbanist Richard Florida, is not only important, it's more important than ever. In fact, choosing a place to live is as important to your happiness as choosing a spouse or career. And some regions, recent surveys show, really are happier than others. In *Who's Your City*, Creative Class guru Richard Florida reports on this growing body of research that tells us what qualities of cities and towns actually make people happy -- and he explains how to use these ideas to make your own choices. This indispensable guide to how people can choose where to live and what those choices mean to their lives and their communities is essential reading for everyone from urban planners and mayors to recent graduates.

The Final Conclusion to Ren and Della's Story. "What do you do when you write down all your secrets? No...that's not enough. What do you do when you write down all your secrets and the one person who should never read them does? I'll tell you what you do. You hope." REN Ren didn't know the meaning of love until he took Della for his own. To begin with, he hated her, but as the months bled into years, he learned the opposite of hate, dedicating his life to giving her everything. Every sacrifice, every gift, he gave wholeheartedly. But then love turned to lust and ruined everything. DELLA I was stupid to write down my secrets, but I'd been stupid before, so it was nothing new. I couldn't blame him, hate him, fix him. I tried to move on without him. But no matter what I did, I couldn't seem to delete the secrets I'd written. Until something happened. Until he came back and read my stupid secrets. And nothing was the same after that.

From the pages of forgotten journals and literary magazines Michael O'Brien assembles fourteen pieces that effectively challenge the long-prevailing notion that the mind of the Old South was superficial, unintellectual, and obsessed with race and slavery. In this book are discourses on subjects ranging from English empirical thought to neoclassical aesthetics, from the enfranchisement of women to transcendental theology, from the works of Hawthorne and Emerson to the social system of Virginia.
