The Pulp Era's strangest superhero returns in two more epic adventures of Justice, Inc. by Paul Ernst writing as "Kenneth Robeson." First, Chicago skyscrapers collapse after "The Sky Walker" is seen striding above the skyline, sparking fears of an alien invasion in the pulp epic that was later adapted to comics by Jack Kirby. Then, "The Devil's Horns," a cryptic message traced in a dying man's own blood provides the clue that helps The Avenger clean up a corrupt city. This instant collector's item showcases H. W. Scott's classic color pulp covers in the same format as Sanctum's popular Doc Savage reprints, along with all the original interior illustrations by Paul Orban.

BONUS: "Boulevard of Death," a Whisperer thriller by Lawrence Donovan from the back pages of The Shadow Magazine, plus historical commentary by pulp historian Will Murray and Anthony Tollin.

Returning home late one night, bachelor Herbert Wrayson discovers a young woman searching his flat. After

interrogating her it becomes apparent that she thought she was in the flat of his upstairs neighbour, Morris Barnes. Wrayson soon finds himself caught up in a murder mystery, all the while falling for the lovely young woman. But who is she, what did she want with Barnes? And does she have anything to hide? A classic whodunnit from the skilful mystery author E. Phillips Oppenheim. E. Phillips Oppenheim (1866-1946) was a hugely prolific and highly popular British author of novels and short stories. Born in Tottenham, London, Oppenheim left school as a teenager and worked for his leather-merchant father for 20 years prior to launching his literary career. Oppenheim published five novels under the pseudonym 'Anthony Partridge' before establishing his reputation as a

writer under his own name. An internationally successful author, Oppenheim's stories revolved mainly around glamorous characters, luxurious settings, and themes of espionage, suspense, and crime. He is widely regarded as one of the earliest pioneers of the thriller and spy-fiction genre as it is recognised today. Oppenheim's incredible literary success meant that his own life soon began to mirror that of his opulent characters. He held lavish, Gatsby-style parties at his French Villa and was rumoured to have had frequent love affairs aboard his luxury yacht. Oppenheim's success earned him the cover of Time magazine in 1927. Some of his most well-known novels include 'The Great Impersonation', 'The Long Arm of Mannister' and 'The Moving

Finger'.
