 13 Jokes That Every Math Geek Will Find ... - Business Insider
 Students learn to subtract numbers with two or more digits, such as $985 - 47$. The first step is to line up the numbers vertically so that the units digits are in the same column. Next, subtract the units digits, the tens digits, and the hundreds digits. When subtracting the units digits, notice that it is not possible to subtract 7 ones from 5 ones, so 1 ten must be borrowed

from the tens ...
