 Building on the success of her prior book, *Practice Makes Perfect: Spanish Verb Tenses*, author Dorothy Devney Richmond helps learners attain a strong working vocabulary, no matter if they are absolute beginners or intermediate students of the language. She combines her proven instruction techniques and clear explanations with a plethora of engaging exercises, so students are motivated and hardly notice that they are absorbing so much Spanish. *Practice Makes Perfect: Spanish Vocabulary* also includes basic grammar and structures of the language

to complement learners' newly acquired words. "Vocabulary Builders" help students add to their Spanish repertoire by using cognates, roots, suffixes, prefixes, and other "word-building" tools.

 The Argentine folk singer, Mercedes Sosa, was a world-class performer, whose influence went far beyond the borders of music. Nicknamed, "The Voice of the Voiceless", Sosa was a dynamic force in shaping Latin America by transmitting the strength and fire needed for cultural and personal change. Today, Sosa's life stands as a testimony to the heroic power of one's individual voice to make a meaningful difference in human affairs. She was an artist who transformed personal suffering into art and activism for a more emphatic and compassionate

world. Her life is an inspiration to us all in the stormy times we live. Mercedes Sosa - More than a Song explores the secret behind Sosa's remarkable impact and reveals how her upbringing, political circumstances and personal tragedies formed her life and her career. If you like courageous women and untold stories of heroism, solidarity, and compassion, then you'll love this powerful biography. "In her voice, life becomes a song with a scent of hope as sweet and beautiful as the flower that grows in the paths of those who looks forward." Endorsements: "In this work, you will find a new and touching perspective on our beloved Mercedes. It is a heartfelt and affectionate tribute honoring the life of my mother. Thank you, Anette, for all your efforts in the name of the Mercedes Sosa Foundation." -Fabián Matus, son of Mercedes Sosa and president of The

Mercedes Sosa Foundation. "Mercedes Sosa - More than a Song chronicles Sosa's spiritual, political and artistic journey in the first half of the book. Christensen writes in the present-tense, which gives it an immediacy that's not only powerful and gripping, but it helps to bring this remarkable woman to life. The writing itself is clear, unpretentious and often eloquent, much like Sosa's music. There are times when the author's voice and creativity blends with the material, which is often the case in good historical writing. It's impossible for a biographer to know for sure what a subject is thinking, for example, but in using good research together with a well-honed instinct and empathy, delivering those thoughts to the reader can be a transcendent as well as informative experience. Christensen manages this beautifully, and paints a portrait that incorporates the colors of despair, triumph, love, fear, and all the other human emotions that define a life--in this case, the life of one of the greatest contemporary artistic revolutionaries in Latin America." Charles Musser, film historian, documentary maker, author and professor of Film and Media Studies. This edition is published to mark the 10th anniversary of Mercedes Sosa's death and contains the biographical part of the original title, Mercedes Sosa - The Voice of Hope.

Mayor for Life Amnesty International Brilliant and engagingly written, *Why Nations Fail* answers the question that has stumped the experts for centuries: Why are some nations rich and others poor, divided by wealth and poverty, health and sickness, food and famine? Is it culture, the weather, geography? Perhaps ignorance of what the right policies are? Simply, no. None of these factors is either definitive or destiny. Otherwise, how to explain why Botswana has become one of the fastest growing countries in the world, while other African nations, such as Zimbabwe, the Congo, and Sierra Leone, are mired in poverty and violence? Daron Acemoglu and James Robinson conclusively show that it is man-made political and economic institutions that underlie economic success (or lack of it). Korea, to take just one of their fascinating examples, is a remarkably homogeneous nation, yet the people of North Korea are among the poorest on earth while their brothers and sisters in South Korea are among the richest. The south forged a society that created incentives, rewarded innovation, and allowed everyone to participate in economic opportunities. The economic success thus spurred was sustained because the government became accountable and responsive to citizens and the great mass of people. Sadly, the people of the north have endured decades of famine, political repression, and very different economic institutions—with no end in sight. The differences between the Koreas is due to the politics that created these completely different institutional trajectories. Based on fifteen years of original research Acemoglu and Robinson marshal extraordinary historical evidence from the Roman Empire, the Mayan city-states, medieval Venice, the Soviet Union, Latin America, England, Europe, the United States, and Africa to build a new theory of political economy with great relevance for the big questions of today, including: - China has built an authoritarian growth machine. Will it continue to grow at such high speed and overwhelm the West? - Are America's best days behind it? Are we moving from a virtuous circle in which efforts by elites to aggrandize power are resisted to a vicious one that enriches and empowers a small minority? - What is the most effective way to help move billions of people from the rut of poverty to prosperity? More philanthropy from the

wealthy nations of the West? Or learning the hard-won lessons of Acemoglu and Robinson's breakthrough ideas on the interplay between inclusive political and economic institutions? *Why Nations Fail* will change the way you look at—and understand—the world.

The Picture of Dorian Gray Houghton Mifflin Harcourt

When handsome young Dorian Gray sees a painter's stunning portrait of him, he is transfixed by its reflection of his own beauty. He is also troubled by the knowledge that the image in the painting will remain forever youthful and handsome while he himself will grow older and less desirable. He wishes aloud that the roles were reversed, saying that he would give his soul if only the painting would suffer the ravages of time and he were to remain forever young. From that point on, Dorian lives a life of hedonistic indulgence, knowing that only the painting will show his moral corruption.

Pop's Bridge Routledge

In a society where people are unequal, how do the less powerful try to make democracy work? Richard Harris attempts to answer this question by looking in detail at the development of a movement for democratic social change in Kingston, Ontario in the 1960s.

The New Urban Frontier Amsterdam University Press

Suburban Fantastic Cinema is a study of American movies in which preteen and teenage boys living in the suburbs are called upon to combat a disruptive force that takes the form of popular cultural figures of the fantastic—aliens, ghosts, vampires, demons, and more. Beginning in the 1980s with *Poltergeist* and *E.T.* (both 1982) and a cycle of films made by Amblin Entertainment, the suburban fantastic established itself as a popular commercial model combining coming-of-age melodramas with elements drawn from science fiction, fantasy, and horror. The films that exemplify the subgenre generally focus on a young male protagonist who, at the outset, chafes at his stifling suburban milieu, wherein power is invested in whiteness, maleness, and heterosexuality. A fantastic occurrence intervenes - the arrival of an alien, a ghost, or some other magical or otherworldly force - threatening this familiar order, thrusting the young man - at first unwittingly - into the role of defender and upholder of the social order. He is able to rescue the suburban social order, and in doing so normalizes (for himself and for the primarily white, male, adolescent audience) its values. This study discusses some of the key instances of

this subgenre, such as *Gremlins* (1984), *Back to the Future* (1985), *Jumanji* (1995), and *Small Soldiers* (1998), as well as its more recent resurgence in *Stranger Things* (2016-) and *IT* (2017). Exploring the importance of suburbia as a setting and the questionable ideological blindness of its heroes, this book reveals these underappreciated Hollywood films as the primary cinematic representation of late-twentieth-century American childhood. *Meditaciones de cine* Union Square & Co. Why have so many central and inner cities in Europe, North America and Australia been so radically revamped in the last three decades, converting urban decay into new chic? Will the process continue in the twenty-first century or has it ended? What does this mean for the people who live there? Can they do anything about it? This book challenges conventional wisdom, which holds gentrification to be the simple outcome of new middle-class tastes and a demand for urban living. It reveals gentrification as part of a much larger shift in the political economy and culture of the late twentieth century. Documenting in gritty detail the conflicts that gentrification brings to the new urban 'frontiers', the author explores the interconnections of urban policy, patterns of investment, eviction, and homelessness. The failure of liberal urban policy and the end of the 1980s financial boom have made the end-of-the-century city a darker and more dangerous place. Public policy and the private market are conspiring against minorities, working people, the poor, and the homeless as never before. In the emerging revanchist city, gentrification has become part of this policy of revenge.

Historia de lo fantástico en la cultura española contemporánea (1900-2015) Berkley Publishing Group

From the visionary rebellion of *Easy Rider* to the reinvention of home in *The Straight Story*, the road movie has emerged as a significant film genre since the late 1960s, able to cut across a wide variety of film styles and contexts. Yet, within the variety, a certain generic core remains constant: the journey as cultural critique, as exploration beyond society and within oneself. This book traces the generic evolution of the road movie with respect to its diverse presentations, emphasizing it as an "independent genre" that attempts to incorporate marginality and subversion on many levels. David Laderman begins by identifying the road movie's defining features and by establishing the literary, classical Hollywood, and 1950s highway culture antecedents that formatively influenced it. He then traces the historical and aesthetic evolution of the road movie decade by decade through detailed and lively discussions of key films. Laderman concludes with a look at the European road movie, from the late 1950s auteurs through Godard and Wenders, and at compelling feminist road movies of the 1980s and 1990s.

Becoming a Barbarian is a follow-up to Donovan's cult hit, *The Way of Men*. Good, modern, "civilized" Western men today are expected to think like "citizens of the world" - obligated to everyone and no one. Natural, meaningful tribal connections have been substituted with synthetic, disposable consumer identities. Without a sense of who they are and what group they have a place in, modern men are becoming increasingly detached, disoriented, vulnerable, and ever more easily manipulated. *Becoming a Barbarian* attacks the emasculated emptiness of life in the modern West - "The Empire of Nothing" -and shows men how to think tribally again. It reveals the weaknesses of universalistic thinking, and challenges readers to become the kind of men who could go "all-in" and devote their lives to one group of people above all others. *Becoming a Barbarian* is about finding a tribe, finding a purpose, and choosing to live the kind of life that undermines the narrative of the Empire.

"The landmark book that argued that psychiatry consistently expands its definition of mental illness to impose its authority over moral and cultural conflict."

— New York Times The 50th anniversary edition of the most influential critique of psychiatry ever written, with a new preface on the age of Prozac and Ritalin and the rise of designer drugs, plus two bonus essays. Thomas Szasz's classic book revolutionized thinking about the nature of the psychiatric profession and the moral implications of its practices. By diagnosing unwanted behavior as mental illness, psychiatrists, Szasz argues, absolve individuals of responsibility for their actions and instead blame their alleged illness. He also critiques Freudian psychology as a pseudoscience and warns against the dangerous overreach of psychiatry into all aspects of modern life. Llega el esperado y ansiado primer libro de no ficción de Quentin Tarantino. Su libro más personal: un viaje íntimo por sus películas favoritas, relatado con una voz inconfundible. «La crítica cinematográfica de Tarantino [es] tan rotunda, inteligente y asombrosa como sus películas». The New York Times «Se antoja difícil que haya un mejor libro de cine en 2023 que este arrebatado *Meditaciones de cine*. A no ser que Quentin publique una segunda parte». Gregorio Belinchón, El País

Probablemente, Quentin Tarantino sea uno de los mayores cineastas de la historia, pero de lo que no hay atisbo de duda es de que estamos hablando del espectador que mejor puede contagiar su pasión entusiasta por las películas que ha visto. Ahora, por fin llega el libro con el que tantos años soñaron él y sus seguidores.

En *Meditaciones de cine*, Tarantino analiza desde los puntos de vista más insólitos y con su particular conocimiento enciclopédico varias películas clave del cine norteamericano de los setenta, todas ellas vistas en su más tierna infancia (de las más violentas a las más tórridas), así como revisitadas compulsivamente. El resultado es una obra tan rigurosa y reflexiva como juguetona y entretenida. *Meditaciones de cine* es, a la vez, crítica cinematográfica, teoría del cine, reportaje literario y unas memorias formidables, a la altura de clásicos del género como los de Hitchcock y Truffaut o Luis Buñuel. La crítica ha dicho: «Un libro sagrado». La Razón (Libro del día) «Apasionante y revelador». Xavi Serra, Diari Ara «En la distancia corta, Quentin Tarantino no huele a pólvora. Si tuviera que oler a algo olería a triunfo». Jacinto Antón, El País «Es un verdadero placer leerle, ajeno a todo tópico y siempre dispuesto a relecturas originales de viejas películas». Daniel Serrano, Público «Una pasarela vivaz por la que desfilan películas, repartos y directores, unas veces muy conocidos y otras mucho menos. Los rescata del olvido y contagia las ganas por revisar sus trabajos. En fin: un festín». Tino Pertierra, La Nueva España «Se disfruta mucho su lectura, nos contagia su pasión hasta la obligación de revisar esos filmes, y a su vez invita a recorrer un periodo en el que el cine en salas ejercía una influencia política y social real en la población. Pero sobre todo este testimonio apasionado es una evidencia del talento que germinó como espectador

y desarrolló como cineasta para centrifugar en su propia voz las ramificaciones de su desatada cinefilia. Y así este libro bien podría ser su Santo Grial». Carlos Reviriego, El Cultural «Tarantino especula, reflexiona, y le sale de Oscar. [...] Inesperado, ingenioso, genial, divertido, iluminador». Rodrigo Fresán, ABC Cultural (Cinco estrellas) «Un manual fabuloso en el que habla mucho de sí mismo para hablar de todo lo demás». Rubén Amón, El Confidencial «Muere un cineasta y nace un escritor. [...] Sin duda, uno de los libros de cine más divertidos, ingeniosos y contagiosamente entusiastas publicados en mucho tiempo». Joric, Jenesaispop (**Los Mejores Libros de 2023**)

Face to face with his own limitations, Frigerio confronts the strange way society around him handles Paolo's handicaps and observes his surprising gifts. In spare, deeply affecting episodes, the professor of language explores the nuanced boundaries between "normal" and "disabled" worlds. A remarkable memoir of fathering, winner of the 2001 Strega Prize, Italy's most prestigious literary honor, *Born Twice* is noted Italian author Giuseppe Pontiggia's American debut.
