Brian Keen outlines the process he uses to successfully franchise businesses today. His simple four step system is based on over 30 years experience as a franchisee, franchisor and as a consultant working with start ups and established franchises honing their business growth in Australia and overseas. He outlines some of the trickier aspects you need to know to franchise a business right and make the mistakes so many have made. There is more to it than just getting the franchise agreement and operations manuals in place.
