 Phaldeepika by Gopesh Kumar Ojha
 Published by Motilal Banarsidass, Delhi (www.mlbd.co.in) Mantreswar was the greatest astrologer of the 12th century from the South of India. He compiled in Sanskrit the principles of Predictive Astrology propagated by Maharshi Parashar, Jaimini and various other great astrologers in his famous work Phaldeepika. This is one of the best books on Predictive Astrology. It includes the essence of Parashar, Jaimini and many more masters. Four hundred and fifty Yogas of Bhavartha Ratnakar of Shri Ramanuja have been added to befit the title Phaldeepika; Bhavartha Bodhini. The 28 chapters in the book cover various topics: the characteristics, house

divisions, strength of planets, career, various yogas, raja yogas, marriage, children, longevity, periodic influence of planets, the effect of transits and ashtakvargas. The 11th chapter exclusively deals with the nativity of women; the 22nd chapter gives the interpretations and calculation of the Kalachakra dashas. This English edition also includes many horoscopes, tables and a glossary of Sanskrit and Hindi words. The language is easy to understand and even beginners after studying this book for a few months will be able to arrive at the right interpretations and timing of events.

Tens of thousands of mechanical engineers are engaged in the design,

building, upgrading, and optimization of various material handling facilities. The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer's personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as:

- physical principles of various material handling systems;
- considerations in selecting technically efficient and environmentally friendly equipment;
- best practices in upgrading and optimizing existing bulk material handling facilities;
- strategies to select proper equipment in the early phases of

a new project. Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems.

Was king Ashoka fond of chewing paan? Mulligatawny was a soup, but what was pish-pash? Did they design jewellery in Harappa? Who played pachisi, chaupar and lam turki? Find the answers to all these weird, impossible question in this fascinating book about how people lived in the past. Go time travelling through the alleys of history and take a tour through the various ages—from Harappa to the Mauryan, Mughal to the British. Through short snapshots and wacky

trivia, this book gives you a glimpse into the vibrant culture of India, as you learn about the life and times of kings, queens, viceroys and even ordinary children! Spend a day with Urpi as she tries selling pottery in exchange for a few beads at Mohen-jo-daro; step back into King Ashoka's kingdom where Madhura prepares to be a warrior; watch Adil harbour hopes of becoming a khansama in British India.

Prayogic Sanskrit Vyakaran IX New Saraswati House India Pvt Ltd

Fusing medicine and astrology together, the astrological physician is one of the strangest works of the 17th century. A precursor to later, more lasting attempts at mixing the spiritual and the scientific, a rudimentary observation of stars and planets is all that is needed, according to this work, to diagnose and treat illness.

Using the theory of the humors, it also proclaims the ability to determine whether a malady is caused by demons or witches.
