Kids will enjoy hours of fun exploring these vibrantly detailed drawings that celebrate the joys of summer in a busy town. It's summer and that means flowers, picnics, thunderstorms, and bike rides. It's a busy time for construction workers, farmers, and house painters. Playgrounds are filled with kids and vacationers are boarding trains in droves. In the sky a pair of balloons drifts through every scene, while on the street people of all ages make their way to an outdoor birthday party. There's even a big storm that turns umbrellas inside out, sends hats flying, but ends in a lovely rainbow. As kids pore over these oversized spreads, they will delight in identifying the same characters on each page as they walk, play, jog, and roller skate--from homes to parks and office buildings to rail stations. In the tradition of Richard Scarry and *Where's Waldo*, this book encourages kids to return again and again to these charming spreads, following along with the characters and inventing their own stories. All kinds of summer activities come alive in these endearing drawings that provide endless entertainment and spark engaging conversations.

The stunning bestseller by Benji Davies, winner of the inaugural Oscar's First Book Prize. Noi and his father live in a house by the sea, his father works hard as a fisherman and Noi often has only their six cats for company. So when, one day, he finds a baby whale washed up on the beach after a storm, Noi is excited and takes it home to care for it. He tries to keep his new friend a secret, but there's only so long you can keep a whale in the bath without your dad finding out. Noi is eventually persuaded that the whale has to go back to the sea where it belongs. For Noi, even though he can't keep it, the arrival of the whale changes his life for the better - the perfect gift from one friend to another. 'A future classic and a must have for the discerning picture book fan' *The Booksniffer* 'The Storm Whale is an evocative portrayal of a child's need for friendship, told through the sparest of text and imagery in this beautiful picture book' *The ReadingZone* 'The Storm Whale is one of those rare picture books that evokes loneliness with such fragility, and that conveys such feeling and beauty that it

cannot fail to move its readers... an absolute gem, do not miss out' *Library Mice* 'I have to admit that I was fighting back tears by the end. It's just so incredibly sweet and really pulls the heart strings!' *Being Mrs C* 'Charming and engaging this book gives lots of scope for child to adult discussion about feeling lonely and saying goodbye to something loved' *Love All Blogs* 'Poignant, sensitive and understated [...] this is a not to be missed tale where the narrative thrust and emotional span transcends the simplicity of its words' *Droplets of Ink* Other books from the *World of the Storm Whale*: *The Storm Whale in Winter* *Grandma Bird* *NEW* *The Great Storm Whale* Also by Benji Davies: *Grandad's Island* *On Sudden Hill*, written by Linda Sarah *When the Dragons Came*, written by Naomi Kefford and Lynne Moore *Jump on Board the Animal Train*, written by Naomi Kefford and Lynne Moore *Waiting For Monsieur Bellivier* *Vintage* The legendary autobiography of Jacques Mesrine, France's most infamous criminal *France's Public Enemy Number One* from the late 1960s to the end of the 1970s-- when he was killed by police in a

sensational traffic shootout--Jacques Mesrine (1936-1979) is the best-known criminal in French history. Mesrine was notorious both for his violent exploits and for the media attention he attracted, and he remains very much a public media figure in France and Europe. In 2008 there were two feature-length films based on his life, one of them starring Vincent Cassel in the lead role. Mesrine wrote *The Death Instinct* while serving time in the high-security prison La Santé; the manuscript was smuggled out of the prison and was later published by Guy Debord's publisher Gérard Lebovici (who briefly adopted Mesrine's daughter, Sabrina, before being assassinated, a few years after Mesrine). *The Death Instinct* deals with the early years of Mesrine's criminal life, including a horrifically graphic description of a murder he committed early on in his career and a highly detailed account of the workings of the French criminal underworld--making this book perhaps one of the most intriguing and detailed anthropological studies of a criminal culture ever written. *The Little War Cat* I Have the Right Like all children, Little Brown Bear is playful, inquisitive, sometimes naughty,

and always cherished by his Mama and Papa. Imaginative illustrations and simple text invite very young readers into Little Brown Bear's cozy home and loving family, while each book's smaller size fits just right in little hands. Young children just beginning to learn how to read will love this series because of its familiar subjects, thus encouraging them to want to read more on their own. The gentle world of Little Brown Bear will prove to be a wonderful reading experience for every child.

Reddit horror sensation Dathan Auerbach delivers a devilishly dark novel about a young boy who goes missing, and the brother who won't stop looking for him. Eric disappeared when he was three years old. Ben looked away for only a second at the grocery store, but that was all it took. His brother was gone. Vanished right into the sticky air of the Florida Panhandle. They say you've got only a couple days to find a missing person. Forty-eight hours to conduct searches, knock on doors, and talk to witnesses. Two days to tear the world apart if there's any chance of putting yours back together. That's your window. That window closed five years ago, leaving Ben's life in ruins. He still looks for his brother. Still searches, while his stepmother sits and waits and whispers for Eric, refusing to leave the house that Ben's father can no longer afford. Now twenty and desperate for work, Ben takes a night stock job at the only place that will have him: the store that blinked Eric out of existence. Ben can feel that there's something wrong there. With the people. With his boss. With the graffitied baler that shudders and moans and beckons. There's

something wrong with the air itself. He knows he's in the right place now. That the store has much to tell him. So he keeps searching. Keeps looking for his baby brother, while missing the most important message of all. That he should have stopped looking.

Le 7e tome de la série Jana Berzelius par la reine du polar suédois. Un homme est retrouvé sauvagement assassiné dans la banlieue de Norrköping. À l'intérieur de son corps mutilé, un ours en peluche. Ce mode opératoire retient l'attention des

enquêteurs Henrik Levin et Mia Bolander, qui remontent jusqu'à une certaine Filippa Falk. Ancienne policière, elle semble être la seule à détenir les clés pour comprendre ce meurtre et, surtout, identifier le coupable. Mais souhaite-t-elle seulement aider la police ? Quant à la procureure Jana Berzelius, elle cherche par tous les moyens possibles – usant de violence s'il le faut – à traquer le tueur. Mais l'ombre de son passé est de plus en plus menaçante, et les chances de protéger l'homme qu'elle aime de lui, de plus en plus ténues. Traduit du suédois par Rémi Cassaigne À propos de l'auteur Emelie Schepp a auto-publié son premier roman en 2013, qui a connu un succès retentissant. Depuis, sa série avec pour héroïne la procureure Jana Berzelius s'est vendue à plus de 3 millions d'exemplaires dans le monde et est traduite dans une vingtaine de pays. Elle a également remporté de nombreux prix, dont celui de Gotland trois années de suite en tant qu'auteurice de l'année (2016, 2017 et 2018).

Sunny-Side Up Simon and Schuster
An international literary phenomenon, *The Elementary Particles* is a frighteningly

original novel-part Marguerite Duras and part Bret Easton Ellis-that leaps headlong into the malaise of contemporary existence. Bruno and Michel are half-brothers abandoned by their mother, an unabashed devotee of the drugged-out free-love world of the sixties. Bruno, the older, has become a raucously promiscuous hedonist himself, while Michel is an emotionally dead molecular biologist wholly immersed in the solitude of his work. Each is ultimately offered a final chance at genuine love, and what unfolds is a brilliantly caustic and unpredictable tale. Translated from the French by Frank Wynne.

'The best new writer of fiction in America. The best.' – John Irving 'The best thing a reviewer can do when faced with a novel of this calibre and breadth is to urge you to read it for yourselves.' – The Guardian Nathan Hill's brilliant debut, *The Nix*, journeys from the rural Midwest of the 1960s, to New York City during Occupy Wall Street; from Chicago in 1968, to wartime Norway: home of the mysterious Nix. Meet Samuel: stalled writer, bored teacher at a local college, obsessive player

of online video games. He hasn't seen his mother, Faye, in decades, not since she abandoned her family when he was a boy. Now she has suddenly reappeared, having committed an absurd politically motivated crime that electrifies the nightly news, beguiles the Internet, and inflames a divided America. The media paints Faye as a radical hippie with a sordid past, but as far as Samuel knows, his mother was an ordinary girl who married her high-school sweetheart. Which version of his mother is true? Two facts are certain: she's facing some serious charges, and she needs Samuel's help. As Samuel begins to excavate his mother's, and his country's, history, he will unexpectedly find that he has to rethink everything he ever knew about her - a woman with an epic story of her own, a story she has kept hidden from the world. 'Outstanding' – John Boyne, *The Irish Times*

The Mouse Mansion Children's Press Media Talk provides an accessible introduction to the analysis of the spoken word by examining linguistic and discursive aspects of broadcast media. Beginning with the observation that talk is central to all genres of radio and television, Ian Hutchby examines the forms of speech used by broadcasters as their primary means of communicating with audiences. He looks at a range of media forms and genres, including televised audience debates, confrontational TV talk shows such as Oprah Winfrey and Ricki Lake, open-line

talk radio shows, advice-giving broadcasts, news interviews and political panel discussions. Hutchby argues that the study of talk provides insights into the very nature of mass communication, and invites the reader into further consideration of a range of important issues, such as the relationship between broadcasters and audiences, and the public role of media output. The book not only describes the role of media talk but also provides detailed examples of analytical tools. It is key reading for students on courses in language and the media, media discourse, communication and cultural studies.

This is an essential aid in the initial design and planning of a project. The relevant building type is located by a comprehensive index and cross reference system, a condensed commentary covers

user requirements, planning criteria, basic dimensions and other considerations of function, siting aspect etc. A system of references based on an extensive bibliography supports the text. In every section plans, sections, site layouts, design details and graphs illustrated key aspects of a building type's design. Most illustrations are dimensioned or scaled - the metric system of measurement is used throughout, and the equivalent in feet/inches can easily be read either off a graphic scale on the page or from the built-in conversion table. The illustrations are international in origin and include both well know and less famous designers. Architects Data is primarily a handbook of building types rather than of construction techniques and details. However its treatment of components (such as doors and windows) and of spaces for building services is extremely thorough, since consideration of this data is an essential element of the planning process. The opening pages of basic data on man and his buildings cover critical subjects such as scale, drawing practice, noise, light and space for the same reason. Particular

attention has also been paid to the implications of energy conservation, means of escape from fire and the needs of the elderly and the disabled.
