The 100 Westland

Why were urban women veiled in the early 1900s, unveiled from 1936 to 1979, and revealed after the 1979 revolution? This question forms the basis of Hamideh Sedghi's original and unprecedented contribution to politics and Middle Eastern studies. Using primary and secondary sources, Sedghi offers new knowledge on women's agency in relation to state power. In this rigorous analysis she places contention over women at the centre of the political struggle between secular and religious forces and demonstrates that control over women's identities, sexuality, and labor has been central to the consolidation of state power. Sedghi links politics and culture with economics to present an integrated analysis of the private and public lives of different classes of women and their modes of resistance to state power.

An Australian reimagining of Edward Lear's nonsense poem The Owl and the Pussycat. The croc and the platypus trundled off in a rusty old Holden ute. The book analyzes attitudes to people with various disabilities based on Muslim jurists' works in the Middle Ages and the modern era. Very little has been written so far on people with disabilities in a general Islamic context, much less in reference to Islamic law. The main contribution of the book is that it focuses on people with disabilities and depicts the place and status that Islamic law has assigned to them.

A People Magazine "Book of the Week." "Jessica Treadway draws her characters into an impossible knot and then expertly teases apart...kept me up half the night." -- Ann Patchett, New York Times bestselling author of Commonwealth Fans of Reconstructing Amelia will love this pulse-pounding novel of mystery, betrayal, and a small town's dark secrets. On a cold December day, the body of

high school senior Joy Enright is discovered in the woods at the edge of a frozen pond. Her death looks like a tragic drowning accident at first, but an autopsy reveals something sinister -- the teenager's body shows unmistakable signs of strangulation. The discovery upends an otherwise uneventful small town, as police grapple with a rare homicide case and those closest to Joy wonder how she could have been taken from them -- and by whom. Susanne, Joy's mother, tries to reconcile past betrayals with their wrenching consequences. Martin, an African-American graduate student, faces ostracism when blame is cast on him. Tom, a rescue diver and son-in-law of the town's police chief, doubts both the police's methods and his own perceptions. And Harper, Joy's best friend, tries to figure out why she disappeared from Harper's life months before she actually went missing. In a close-knit community where everyone knows someone else's secret, it's only a matter of time before the truth is exposed. In this gripping novel, author Jessica Treadway explore the ways in which families both thrive and falter, and how seemingly small bad choices can escalate - with fatal consequences.

Arguably his most famous book, *Moral Man and Immoral Society* is Reinhold Niebuhr's important early study (1932) in ethics and politics. Widely read and continually relevant, this book marked Niebuhr's decisive break from progressive religion and politics toward a more deeply tragic view of human nature and history. Forthright and realistic, *Moral Man and Immoral Society* argues that individual morality is intrinsically incompatible with collective life, thus making social and political conflict inevitable. Niebuhr further discusses our inability to imagine the realities of collective power; the brutal behavior of human collectives of every sort; and, ultimately, how individual morality can mitigate the persistence of social immorality. This new edition includes a foreword by Cornel West that explores the continued interest in Niebuhr's thought and its contemporary relevance.

About four years ago I received a letter from Mr. S. M. Sharif, Educational Adviser to the Government of Pakistan and now Secretary in the Ministry of Education, drawing my attention to the fact that there was no detailed History of Muslim Philosophy in the English language and inviting me to draw up a scheme for the preparation of such a History. The scheme prepared by me envisaged the collaboration of eighty scholars from all over the world. The blue-prints of the plan were placed by Mr. S. M. Sharif before the Government of Pakistan for approval and provision of funds. The Cabinet by a special ordinance deputed me to edit the History, and appointed a Committee consisting of the following to steer the scheme through:

This is the first major response to the challenge of neuroscience to religion. It considers eastern forms of religious experience as well as Christian viewpoints and challenges the idea of a mind identical to, or a by-product of, brain activity. It explores religion as inner experience of the Transcendent, and suggests a modern spirituality.

The concept of style is central to our understanding and construction of texts. But how do translators take style into account in reading the source text and in creating a target text? This book attempts to bring some coherence to a highly interdisciplinary area of translation studies, situating different views and approaches to style within general trends in linguistics and literary criticism and assessing their place in translation studies itself. Some of the issues addressed are the link between style and meaning, the interpretation of stylistic clues in the text, the difference between literary and non-literary texts, and more practical questions about the recreation of stylistic effects. These various trends, approaches and issues are brought together in a consideration of the most recent cognitive views of style, which see it as essentially a reflection of mind. Underlying the book is the notion that knowledge of theory can affect the way we translate.

Far from being prescriptive, theories which describe what we know in a general sense can become part of what an individual translator knows, thus opening the way for greater awareness and also greater creativity in the act of translation. Throughout the discussion, the book considers how insights into the nature and importance of style might affect the actual translation of literary and non-literary texts.

This book tells a story of a Yemeni hereditary elite that was overthrown in the 1962 revolution in North Yemen, after enjoying exclusive rights to the leadership of the Imamate, the religiously sanctioned state for over a millennium. Rather than concentrating on recent political history, this book highlights the personal predicament of those targeted by the revolution. What is their sense of "past" and "self" in a transformed political setting where in some respects the mark of distinction has become a mark of disrepute? Focusing on the cultural politics of memory, the book explores how--in making sense of their current lives and formulating responses to adversity--members of the elite remember.

Supported by over 30 years of research, from over seventy countries, and with examples from real-world leaders, *Learning Leadership* is a clarion call to unleash the leadership potential that is already present in society today. *Learning Leadership* provides readers with evidence-based strategies to ignite the habit of continuous improvement and the mindset of becoming the best leaders they can be. Emerging leaders, as well as leadership developers, internal and external coaches and trainers, and other human resource professionals will learn from first-hand stories and practical examples so that they can deeply understand and apply the fundamentals for becoming the best leaders they can be.

Learning Leadership: The Five Fundamentals of Becoming an Exemplary Leader is divided into digestible bite-sized chapters that encourage daily actions to becoming a better leader. Key takeaways from the book include: Believe in Yourself. Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make and difference and learn to be a better leader than they are right now. Aspire to Excel. To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. Challenge Yourself. Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way

that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. Engage Support. One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. Practice Deliberately. No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.

One of the greatest scholars and geniuses produced by Muslim Spain - indeed, the whole Islamic world - was Imam Ibn Hazm (May Allah have mercy upon him). He has huge and diverse literary works that makes him a Polymath. He was Faqeeh (jurist), Muhaddith (Hadith scholar), Mufassir (exegete of Quran), Adeeb (litterateur), theologian, thinker, psychologist, poet, historian, philosopher, politician and debator. He authored around 400 works in the cities of Islamic Spain like Cordoba, Jativa, Almeria, Majorca, Valencia, Seville and Niebla. A reader of his books will come to realize the smartness of Ibn Hazm and will be impressed by his intellectual voracity, deep knowledge in various sciences, razor-sharp critical analysis, eloquent language and originality of his research. In his outstanding work, "Ibn Hazm Khilaf Alif Aam", Abu Abdul Rahman bin Aqeel al-Zahiri listed the works, including published books and manuscripts, from the 5th century A.H. till 1400 A.H. - a span of a thousand years - which discuss Imam Ibn Hazm. In this book, I have written concisely about his life, ideas, contributions and I have addressed few issues which were wrongly ascribed to him.

Over the past decade, the political ground beneath the Middle East has shifted. Arab nationalism the political orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation. At the same time, Islam as an ideology has spread across the region, and "Islamists" bid to capture the center of politics. Most Western scholars and experts once hailed the redemptive power of Arabism. *Arab Awakening and Islamic Revival* is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism, and the misrepresentation of both in the West. The first part of the book argues that Arab nationalism--the so-called Arab awakening--bore within it the seeds of its own failure. Arabism as an idea drew upon foreign sources and resources. Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West's own romanticism and radicalism. Ultimately, Arab nationalism became a force of oppression rather than liberation, and a mirror image of the imperialism it defied. Kramer's essays together form the only chronological telling and the at fully documented postmortem of Arabism. The second part of the book examines the similar failings of Islamism, whose ideas are Islamic reworkings of Western ideological radicalism. Its effect has been to give new life to old rationales for oppression, authoritarianism, and sectarian division. *Arab Awakening and Islamic Revival* provides an alternative view of a century of Middle Eastern history. As the region moves fitfully past ideology, Kramer's perspective is more compelling than at any time in the past--in Western academe no less than among many in the Middle. This book will be of interest to sociologists, political scientists, economists, and Middle East specialists.
