In the thrilling conclusion to Joe Hart's Dominion Trilogy, Zoey discovers who she truly is--and who she must become. Zoey has only ever known a world with few women and a society capable of unimaginable evil. Now she's about to learn she may be the only hope it has for salvation. After she and her companions flee a vicious attack, barely escaping with their lives, Zoey finds herself faced with a new threat: video evidence suggesting she is the mother of an unborn baby girl--and the key to mankind's survival. Knowing that her former captors will stop at nothing to control the power that lies within her, Zoey sets out on her own for the last American city, Seattle, in search of answers. But a new enemy awaits her there, and the truth she seeks may lead to her destruction as well as that of all humankind. This stunning finale, hailed by bestselling author Blake Crouch as a "rapturous, thought-provoking, [and] impossible-to-put-down thriller," begs us all to consider what we would do when asked to choose between humanity's survival--and our own.

His most ambitious novel to date, ACCELERANDO is a multi-generational saga following a brilliant clan of 21st-century posthumans. The year is some time between 2010 and 2015. The recession has ended, but populations are ageing and the rate of tech change is accelerating dizzyingly. Manfred makes his living from spreading ideas around, putting people in touch with one another and leaving a spray of technologies in his wake. He lives at the cutting edge of intelligence amplification technology, but even Manfred can take on too much. And when his pet robot cat picks up some interesting information from the SETI data, his world - and the world of his descendants - is turned on its head.

The year is 1939. Raybould Marsh and other members of British Intelligence have gathered to watch a damaged reel of film in a darkened room. It appears to show German troops walking through walls, bursting into flames and hurling tanks into the air from afar. If the British are to believe their eyes, a twisted Nazi scientist has been endowing German troops with unnatural, unstoppable powers. And Raybould will be forced to resort to dark methods to hold the impending invasion at bay. But dealing with the occult exacts a price. And that price must be paid in blood. Ian Tregillis' Bitter Seeds is a chilling masterpiece - a tale of a twentieth century like our own and also profoundly different.

In this "delightfully uncanny" collection of feminist retellings of traditional Japanese folktales (The New York Times Book Review), humans live side by side with spirits who provide a variety of useful services—from truth-telling to babysitting, from protecting castles to fighting crime. A busybody aunt who disapproves of hair removal; a pair of door-to-door saleswomen hawking portable lanterns; a cheerful lover who visits every night to take a luxurious bath; a silent house-caller who babysits and cleans while a single mother is out working. Where the Wild Ladies Are is populated by these and many other spirited women—who also happen to be ghosts. This is a realm in which jealousy, stubbornness, and other excessive “feminine” passions are not to be feared or suppressed, but rather cultivated; and, chances are, a man named Mr. Tei will notice your talents and recruit you, dead or alive (preferably dead), to join his mysterious company. With Where the Wild Ladies Are, Aoko Matsuda takes the rich, millenia-old tradition of Japanese folktales—shapeshifting wives and foxes, magical trees and wells—and wholly reinvents them, presenting a world in which humans are consoled, guided, challenged, and transformed by the only sometimes visible forces that surround them.

Surprising and compelling this powerfully written novel is a terrifyingly vivid rendering inside the mind of a serial killer. Meet Joe. He's a nice guy out to catch a copycat killer. The one copying himself. Joe is in control of everything in his simple life, including both his day job at the police department and his 'night work'. He remembers to feed his fish twice a day and visit his mother at least once a week, although he occasionally peppers her coffee with rat poison. He is not bothered by the reports of The Christchurch Carver, who - they say - murdered seven women. Joe knows the carver has killed only six. He knows that for a fact. And Joe is going to find that copy-cat killer, punish him for the one murder and then frame him for the rest. It's a perfect plan because he already knows he can outwit the police. All he has to do now is take care of all the women who keep getting in his way - his domineering mother for one. Then there is Sally, the maintenance worker who sees him as a replacement for her dead brother, and the mysterious Melissa, the only woman to have ever understood him, but whose fantasies of blackmail and torture no longer have any place in Joe's investigation... Hi, I'm Alexis Delaney. I'm your average 17-year-old girl. Except I can see the dead. And talk to the dead. And push them away and, well, help them move on. So..okay, I'm not your average 17-year-old girl. For years I've been struggling to survive the souls still roaming around. The shitheads always seem to find me. Moving from town to town every few months never helped either. More dead just always find me. But things are changing for me now. I'm moving in with my uncle Rory and cousin Tara. I'm finally going to be able to do normal teenage stuff I've been missing out on. Right? Well, if this one bitch of a ghost could leave me alone on campus that would be great. Especially since I haven't told my new friends about my abilities. Can you believe this? Five good looking guys practically adopt me on my first day of school, and I still think they're a bit nuts for it. Now if I can only just keep my life with the dead from mixing with my normal life, everything would be great. Yeah...I don't see that happening either. But I'm going to give it a shot. Who knows? It might work. *Accelerando* Hachette UK
