Based on a short story by Alistair MacLean, *Rendezvous* conjures up the darkest days of the war in the Mediterranean, and the nail-biting drama of a secret life haunted by

the fear of betrayal and capture. Early in 1942 the Special Operations Executive and American Military Intelligence must put together a carefully selected team to send on a daring mission which could ultimately change the course of the war in the Mediterranean. James McIndoe, one of the most experienced operatives in the SOE, forms an uneasy team with two members of

the AMI- the beautiful Stella di Mauro and the brash Nicky Ravallo. When it becomes clear that the operation has become compromised the tension mounts, but there can be no turning back, not until the mission has been completed. But with the Germans closing in, there may be no way out "
