Recent years have seen an explosion in research on tourism volunteering.

Volunteers are an essential part of tourism, whether they are volunteering in their local museum, at a sporting mega-event, as an airport ambassador, or travelling the global as

a volunteer tourist. *Managing Volunteers in Tourism* reviews the latest research to highlight the key management issues and relate them to the tourism volunteering context. It includes previously under-researched forms of tourism volunteering such as meet-and-greeters, surf life-savers, conservation, festival, and information centre volunteers and volunTourists. The book develops through three distinct sections, the first of which begins by introducing the concept of volunteering and considering the variety of volunteer forms and settings within tourism. The next part picks up the organisational approach and examines volunteer

program design and planning, volunteer motivation, recruitment and selection, training and development, reward and retention, and diversity management. The final part consists of ten case studies from leading international researchers and practitioners identifying best practice and key management challenges. Real-life examples and case studies throughout this book provide an in-depth examination of the challenges facing those managing tourism volunteers, making this book indispensable for current and future managers in the tourism industry.

Australia is the custodian of a diverse range of continental and oceanic islands. From Heard and Macquarie in the sub-Antarctic, to temperate Lord Howe and Norfolk, to the tropical Cocos (Keeling) Islands and the islands of the Great Barrier Reef, Australia's islands contain some of the nation's most iconic fauna, flora and ecosystems. They are a refuge for over 35% of Australia's threatened species and for many others declining on mainland Australia. They also have significant cultural value, especially for Indigenous communities, and economic value as

centres for tourism. Australian Island Arks presents a compelling case for restoring and managing islands to conserve our natural heritage. With contributions from island practitioners, researchers and policy-makers, it reviews current island management practices and discusses the need and options for future conservation work. Chapters focus on the management of invasive species, threatened species recovery, conservation planning, Indigenous cultural values and partnerships, tourism enterprises, visitor management, and policy and legislature. Case studies show how island restoration and conservation approaches are working in Australia

and what the emerging themes are for the future. Australian Island Arks will help island communities, managers, visitors and decision-makers to understand the current status of Australia's islands, their management challenges, and the opportunities that exist to make best use of these iconic landscapes.

In 1998, the Council of Europe and the European Commission decided to take common action in the field of youth. Both institutions initiated a partnership agreement with the aim "to promote active European citizenship and civil society by giving impetus to the training of youth leaders and youth workers working within a European dimension". In 2003,

additional agreements were signed in the fields of "youth research" and "Euro-Mediterranean youth co-operation". Since 2005, the partnership between the European Commission and the Council of Europe in the field of youth activities has focused on the following topics: European citizenship, human rights education and intercultural dialogue, quality and recognition of youth work and training, better understanding and knowledge of youth and youth policy development. THE ESSENTIAL GUIDE TO MANNERS, REVISED AND UPDATED TO ACCOMMODATE

TODAY'S HIGH-SPEED LIFESTYLES, SHIFTING VALUES, AND EVER-EVOLVING DEFINITION

OF FAMILY. Letitia Baldrige is universally recognized as the country's leading authority on executive, domestic, and social manners. She began writing on manners and protocol during her diplomatic service in 1949, and she has

been hailed on the cover of Time magazine as "America's leading arbiter of manners." Originally published in 1989, her Complete Guide to New Manners has now been thoroughly revised and updated to incorporate the changing social conventions and enormous technological advances of the past fifteen years. Baldrige was the first etiquette writer to advise extensively on the subject of manners in the workplace. With her legendary background in both the government and business worlds, she remains the prime authority on the integration of goals that often seem at odds with one another -- namely, family, work, and pleasure. Baldrige

provides fresh guidelines on etiquette at work and in every form of communication, from letters to emails to cell phone calls. She also updates the way we approach the traditional rites of passage -- weddings, funerals, religious ceremonies, gatherings large and small. Here are authoritative answers to the etiquette questions and issues involved in nontraditional family relationships -- stepfamilies, adult children returning home, elderly parents moving in, gays and lesbians in the family, dating for the newly single, and the myriad complications that spring from divorce. Through it all, Baldrige does not forget the essence of manners:

they are an expression of love and care, and they are under our control. *New Manners for New Times* is a comprehensive encyclopedia that will lead readers confidently and correctly through the maze of lifestyles, customs, business, and ways of relating to others in this new, complex millennium. But it is, above all, a very personal statement.

Now in Paperback! As institutional budgets become tighter and information sources wider and more complex, archivists, manuscript curators and staff of special collections seek ways to broaden the use of

their materials, bringing their services and their story to wider publics. *Advocating Archives: An Introduction to Public Relations for Archivists* presents practical advice on how to find and relate to these publics: how to better serve the client in person, launch a fund-raising campaign, work with the media, market programs, organize programs around historical events, train and successfully use volunteers, and avoid the most common public relations errors by planning. Written by archivists with previous professional or practical experience in these fields, *Advocating Archives* offers simply written, practical guidelines for the professional or manager who either

develops their own public relations program or works with public relations professional in their institution. Three studies in archival public relations, taken from the daily experience of their writers, provide material for the instructors in archival management courses. Part of a long-term public relations initiative undertaken by the Society of American Archivists, the book aims to make public relations skills an integral part of archival management, and to help the archivist, curator, or special collections professional direct the public's response to their work.
