A glimpse into a beloved novelist's inner world, shaped by family, art, and literature. In her fiction, Claire Messud "has specialized in creating unusual female characters with ferocious, imaginative inner lives" (Ruth Franklin, New York Times Magazine). *Kant's Little Prussian Head and Other Reasons Why I Write* opens a window on Messud's own life: a peripatetic upbringing; a warm, complicated family; and, throughout it all, her devotion to art and literature. In twenty-six intimate, brilliant, and funny essays, Messud reflects on a childhood move from her Connecticut home to Australia; the complex relationship between her modern Canadian mother and a fiercely single

French Catholic aunt; and a trip to Beirut, where her pied-noir father had once lived, while he was dying. She meditates on contemporary classics from Kazuo Ishiguro, Teju Cole, Rachel Cusk, and Valeria Luiselli; examines three facets of Albert Camus and *The Stranger*; and tours her favorite paintings at Boston's Museum of Fine Arts. In the luminous title essay, she explores her drive to write, born of the magic of sharing language and the transformative powers of "a single successful sentence." Together, these essays show the inner workings of a dazzling literary mind. Crafting a vivid portrait of a life in celebration of the power of literature, Messud proves once again "an absolute master storyteller" (Rebecca Carroll, Los Angeles Times).

"Not only an education but a joy. This is a book for the ages." --Rivka

Galchen A monumental, canon-defining anthology of three centuries of American essays, from Cotton Mather and Benjamin Franklin to David Foster Wallace and Zadie Smith. The essay form is an especially democratic one, and many of the essays Phillip Lopate has gathered here address themselves--sometimes critically--to American values. Even in those that don't, one can detect a subtext about being American. The Founding Fathers and early American writers self-consciously struggle to establish a recognizable national culture. The shining stars of the mid-nineteenth-century American Renaissance no longer lack confidence but face new reckonings with the oppression of blacks and women. The New World tradition of nature writing runs from Audubon, Thoreau, and John Muir to Rachel Carson and Annie Dillard. Marginalized groups in all periods use the essay to assert or to

complicate notions of identity. Lopate has cast his net intentionally wide, embracing critical, personal, political, philosophical, humorous, literary, polemical, and autobiographical essays, and making room for sermons, letters, speeches, and columns dealing with a wide variety of subjects. Americans by birth as well as immigrants appear here, famous essayists alongside writers more celebrated for fiction or poetry. The result is an extensive overview of the endless riches of the American essay.

Based on the historic New York Times series, About Us features intimate, firsthand accounts on what it means, and how it feels, to live with a disability. Boldly claiming a space where people with disabilities tell the stories of their own lives—not other’s stories about them—About Us captures the voices of a community that has for too long been stereotyped

and misrepresented. Speaking not only to people with disabilities and their support networks, but to all of us, the authors in About Us offer intimate stories of how they navigate a world not built for them. Echoing the refrain of the disability rights movement, “nothing about us without us,” this collection, with a foreword by Andrew Solomon, is a landmark publication of the disability movement for readers of all backgrounds, communities, and abilities.

Disability Politics in a Global Economy Christian Faith Publishing, Inc.
George Orwell set out ‘to make political writing into an art’, and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell’s essays seeks to bring a wider selection of his writing on politics and literature to a new

readership. In Why I Write, the first in the Orwell’s Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the ‘four great motives for writing’ – ‘sheer egoism’, ‘aesthetic enthusiasm’, ‘historical impulse’ and ‘political purpose’ – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell’s mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer’s oeuvre. ‘A writer who can – and must – be rediscovered with every age.’ — Irish Times

A collection of the year’s best essays, selected by award-winning journalist and New Yorker staff writer Kathryn Schulz “The world is abundant even in bad times,” guest editor Kathryn Schulz writes in her introduction, “it is lush with interestingness, and always, somewhere, offering up consolation or

beauty or humor or happiness, or at least the hope of future happiness."The essays Schulz selected are a powerful time capsule of 2020, showcasing that even if our lives as we knew them stopped, the beauty to be found in them flourished. From an intimate account of nursing a loved one in the early days of the pandemic, to a masterful portrait of grieving the loss of a husband as the country grieved the loss of George Floyd, this collection brilliantly shapes the grief, hardship, and hope of a singular year. The Glorious American Essay New History of the Essay

A collection of the year's best essays selected by Robert Atwan and guest editor Rebecca Solnit. "Essays are restless literature, trying to find out how things fit together, how we can think about two things at once, how the personal and the public can inform

each other, how two overtly dissimilar things share a secret kinship," contends Rebecca Solnit in her introduction. From lost languages and extinct species to life-affirming cosmologies and literary myths that offer cold comfort, the personal and the public collide in *The Best American Essays 2019*. This searching, necessary collection grapples with what has preoccupied us in the past year--sexual politics, race, violence, invasive technologies--and yet, in reading for the book, Solnit also found "how discovery can be a deep pleasure." *The Best American Essays 2019* includes Michelle Alexander, Jabari Asim, Alexander Chee, Masha Gessen, Jean Guerrero, Elizabeth Kolbert, Terese Marie Mailhot, Jia Tolentino, and others. The first-ever collection of 50+ writings from the 20th-century critic who "redefined the possibilities of the literary essay"—including works not seen in print for decades (*The New Yorker*) Elizabeth Hardwick wrote during the golden age of

the American literary essay. For Hardwick, the essay was an imaginative endeavor, a serious form, criticism worthy of the literature in question. In the essays collected here, she covers civil rights demonstrations in the 1960s, describes places where she lived and locations she visited, and writes about the foundations of American literature—Melville, James, Wharton—and the changes in American fiction. She contemplates writers' lives—women writers, rebels, Americans abroad—and the literary afterlife of biographies, letters, and diaries. Selected and with an introduction by Darryl Pinckney, *the Collected Essays* gathers more than 50 essays for a 50-year retrospective of Hardwick's work from 1953 to 2003. "For Hardwick," writes Pinckney, "the poetry and novels of America hold the nation's history." Here is an exhilarating chronicle of that history. "An authoritative immersion in American writing . . . These are Americans who had something important to say—and said it in powerful, convincing ways. A compendium of commentary, criticism, and oratory excellence from throughout the nation’s history, *The Signet Book of American Essays* is a perfect resource for those searching for the most timeless essays ever conceived by America’s notable scientists, philosophers, politicians, and writers. From the wisdom of Benjamin Franklin to the outspoken empowerment of Gloria Steinem, from the biting satire of Mark Twain to the grave seriousness of Franklin D. Roosevelt, this collection offers the opportunity to learn the

subtle arts of persuasion and rational argument as exemplified in these great American dissertations crafted by some of the country’s most brilliant and intriguing citizens. *Essays on the Active Powers of the Human Mind* Renard Press Ltd In modern culture, the essay is often considered an old-fashioned, unoriginal form of literary styling. The word essay brings to mind the uninspired five-paragraph theme taught in schools around the country or the antiquated, Edwardian meanderings of English gentlemen rattling on about art and old books. These connotations exist despite the fact that Americans have been reading and enjoying personal essays in popular magazines for decades, engaging with a multitude of ideas through this short-form means of expression. To defend the essay—that misunderstood staple of first-year composition courses—Ned Stuckey-French has written *The American Essay in the American Century*. This book uncovers the buried history of the American personal essay and reveals how it played a significant role in twentieth-century cultural

history. In the early 1900s, writers and critics debated the “death of the essay,” claiming it was too traditional to survive the era’s growing commercialism, labeling it a bastion of British upper-class conventions. Yet in that period, the essay blossomed into a cultural force as a new group of writers composed essays that responded to the concerns of America’s expanding cosmopolitan readership. These essays would spark the “magazine revolution,” giving a fresh voice to the ascendant middle class of the young century. With extensive research and a cultural context, Stuckey-French describes the many reasons essays grew in appeal and importance for Americans. He also explores the rise of E. B. White, considered by many the greatest American essayist of the first half of the twentieth century whose prowess was overshadowed by his success in other fields of writing. White’s work introduced a new voice, creating an American essay that melded seriousness and political resolve with humor and self-deprecation. This book is one of the first to consider and reflect on the contributions of E. B.

White to the personal essay tradition and American culture more generally. The American Essay in the American Century is a compelling, highly readable book that illuminates the history of a secretly beloved literary genre. A work that will appeal to fiction readers, scholars, and students alike, this book offers fundamental insight into modern American literary history and the intersections of literature, culture, and class through the personal essay. This thoroughly researched volume dismisses, once and for all, the "death of the essay," proving that the essay will remain relevant for a very long time to come.

Women with disabilities are women first, sharing the dreams and disappointments common to women in a male-dominated society. But because society persists in viewing disability as an emblem of passivity and incompetence, disabled women occupy a devalued status in the social hierarchy. This book represents the intersection of the feminist and disability rights perspectives; it analyzes the forces that push disabled women towards the margins of social life, and it considers the resources that enable these women to resist the stereotype. Drawing on law, social science, folklore, literature, psychoanalytic theory, and political activism, this book describes the experience of women with disabilities. The essays consider the impact of social class, race, the age at which disability occurs,

and sexual orientation on the disabled woman's self esteem as well as on her life options. The contributors focus their inquiry on the self perceptions of disabled women and ask: From what sources do these women draw positive self images? How do they resist the culture's power to label them as deviant? The essays describe the ways in which disabled women face discrimination in the workplace and the failure of the mainstream women's movement to address their concerns. In the series Health, Society, and Policy, edited by Sheryl Ruzek and Irving Kenneth Zola.

Award-nominated actress and 2023 SeeHer award recipient America Ferrera comes a vibrant and varied collection of first-person accounts from prominent figures about the experience of growing up between cultures. America Ferrera has always felt wholly American, and yet, her identity is inextricably linked to her parents' homeland and Honduran culture. Speaking Spanish

at home, having Saturday-morning-salsa-dance-parties in the kitchen, and eating tamales alongside apple pie at Christmas never seemed at odds with her American identity. Still, she yearned to see that identity reflected in the larger American narrative. Now, in *American Like Me*, America invites thirty-one of her friends, peers, and heroes to share their stories about life between cultures. We know them as actors, comedians, athletes, politicians, artists, and writers. However, they are also immigrants, children or grandchildren of immigrants, indigenous people, or people who otherwise grew up with deep and personal connections to more than one culture. Each of them struggled to establish a sense of self, find belonging, and feel seen. And they call themselves American enthusiastically, reluctantly, or not at all. Ranging from the heartfelt to the hilarious, their stories shine a light on a quintessentially American experience and will appeal to anyone with a complicated relationship to family, culture, and growing up.

One of Stephen T. Zamora's former students entered law school with little idea about his future direction. He was fortunate to have a class on contracts with Zamora, Sten Gustafson writes, because "after that first year with him, my path became clear." The professor made a topic intriguing that could easily be esoteric and tedious, and "opened my eyes to a career path that I could not have imagined otherwise." This collection of 19 academic essays honors the memory of Dr. Stephen T. Zamora, the Leonard B. Rosenberg Professor of Law at the University of Houston Law Center, who died unexpectedly in 2016. An international authority in the field, Zamora's areas of expertise were international trade and investments, international banking, conflicts of laws, international economic relations, Mexican law and US-Mexico relations. In addition, he was the driving force behind the establishment of the Center for U.S. and Mexican Law, the only one of its kind at a US law school. Written by colleagues and friends, the scholarly articles included in this volume

reflect Zamora's commitment to Mexican law, education and the promotion of US-Mexico cooperation. Topics such as regulating lawyers and legal education, environmental issues and dispute settlement are covered, and articles include "Economic Sovereignty and Oil and Gas Law," "What Should Immigration Law Become?" and "Freer Trade between the United States and the European Union?" Through this collection, Zamora's contemporaries aim to expand his legacy and continue his life-long work as an educator, attorney and uniter of peoples. *The Collected Essays of Elizabeth Hardwick* Temple University Press A BARACK OBAMA TOP BOOK OF 2021 'A heartfelt and witty collection of essays on everything from marriage and knitting to the inevitability of death' Guardian 'A pitch-perfect collection ... Patchett ponders this as she explores family, friendship, marriage, failure, success, and what it all means. Ranging from the personal - her portrait of the three men she called her fathers; how a chance encounter with Tom Hanks led to one of the most important friendships of her life; how to answer when someone asks why you don't have children - to the sublime - the unexpected influence of Snoopy; the importance of knitting; the pleasure to be found in children's books - each essay transforms the particular into the universal, letting us all see our own worlds anew. friend' Sadie Jones *Two Essays: the One on the Origin of Evil*; Oxford University Press, USA
The essays in this book began simply as tools I incorporated to enhance my understanding of *A Course in Miracles* and how it blends with the literature I have read and classes and seminars I have taken. Our friends and teachers, Unity minister Patty and her husband Jack Morales introduced my wife, Pati, and I to *A Course in Miracles* fifteen or so years after we had begun our spiritual journey(s). Each of us are in pursuit of our own respective spiritual paths, in our own individual ways as part of a life-long search for our "purpose" in life; trying to discover who we "truly" are, not the persona we've made up. It just takes some of us longer to realize it. We began with a small core group of people committed to their spiritual paths and it has grown steadily since. As the group expanded in numbers, so did the questions and people began to look to my wife and I for clarification. I realized then, that for myself, I needed to put more effort into my understanding of *A Course in Miracles* and how it

coincided with what I had studied previously, beginning with my lineage, *The Science of Mind*. I began with notes for comparison, which grew into paragraphs and eventually ended up as the essays in this book. They (the essays) became, for me, a bridge between *A Course in Miracles*, *The Science of Mind*, the Gnostic Gospels, and various other religions and teachings. I am a perennial student and will probably be as long as I continue to breathe. My search for understanding, for clarification, may not be insatiable, but I cannot remember a time when I wasn't studying something, so when my wife introduced me to metaphysics, I knew that this was what I would make the topic of all my studying in the future. These essays are the essence of the information I've extracted from this process. My purpose with these essays is not to provide you with what I think to be the "only" or "right" answers to any questions, but as an explanation, understanding or clarification that resonates for me and hopefully for you. We are all unique in our individual

perceptions, so my perception of some subjects may not mirror yours, but if one, or some, of my essays bring a light of understanding or help to you, or assist you in seeing an old truth in a new way, then we are both blessed. It is my belief that all gifts are meant to be shared, be it the gift our friendships, our love or our knowledge, because if we keep them to ourselves, they are of no value to anyone. If these essays provide for you a better understanding or just simplify your path, in any manner, please share them, because as St. Francis said, in his beautiful prayer, "It is in the giving that we receive." In the preceding pages, I have tried to show how a historical-critical view of the Book of Mormon illuminates some of its more interesting problems. Many questions remain, and many problems have yet to be discovered and analyzed. I myself have questions about the Book of Mormon's origins that I cannot yet answer. However, that fact does not diminish the certainty of my conclusion that the Book of Mormon is a modern text.

From bestselling author of *The Book of Delights* and award-winning poet, a book of lyrical mini-essays

celebrating the everyday that will inspire readers to rediscover the joys in the world around us. In Ross Gay's new collection of small, daily wonders, again written over the course of a year, one of America's most original voices continues his ongoing investigation of delight. For Gay, what delights us is what connects us, what gives us meaning, from the joy of hearing a nostalgic song blasting from a passing car to the pleasure of refusing the "nefarious" scannable QR code menus, from the tiny dog he fell hard for to his mother baking a dozen kinds of cookies for her grandchildren. As always, Gay revels in the natural world—sweet potatoes being harvested, a hummingbird carousing in the beebalm, a sunflower growing out of a wall around the cemetery, the shared bounty from a neighbor's fig tree—and the trillion mysterious ways this glorious earth delights us. *The Book of (More) Delights* is a volume to savor and share.
