It is 1861, and Angel Woolsack is a Confederate about to breathe his last, as the Union forces make their inexorable approach. Rejected by his wife, his wealth no longer useful to him, he sets about recording his testament. His story is that of a preacher's son, who flees the hardscrabble life of his itinerant father and falls in with a charismatic highwayman. The novel moves from the bordellos of Natchez to the Mississippi plantations, and finally to the back rooms of New Orleans where would-be revolutionaries are plotting to break away from the young United States. The Blood of Heaven is a remarkable portrait of a young man seizing his place in a violent new world.

This compelling book offers a unique glimpse into the motivations of suicide bombers, especially women and children, and those who recruit and dispatch them. As a woman and a mother, Anat Berko was able to win the trust of imprisoned bombers and speak with them intimately. Entering Israel's most heavily secured cells, she met with female and adolescent would-be suicide bombers and their dispatchers, lawyers, and interrogators. The personal stories are greatly enriched by the inclusion of the sketches and letters many prisoners gave to the author. She explores vital questions: What leads individuals to place explosives on their bodies, kill and injure scores of civilians, and take their own lives? Do men really believe that death will transport them to paradise, where Allah, virgins, and wine await them? Are women victims of unbearable pressure to commit this act of terror? Can a woman be "good" according to the criteria of Arab/Palestinian society and a terrorist at the same time? Is involvement in terrorism a sign of the liberation of Palestinian women or another way of preserving their social inferiority, thus explaining their low status and the inferior rewards the families of female suicide bombers receive? Who are the dispatchers, and how do they manipulate and convince women and youngsters to go calmly to their death? The answers to these questions offer a rare and candid portrayal that will be essential reading for all those wanting to understand the interior world of suicide bombers and how to communicate with terrorists.

An adrenaline-fueled read that will stay with you long after you turn the final page, *Bad Call* is a "compulsively readable, totally unforgettable" memoir about working on a New York City ambulance in the 1960s (James Patterson). *Bad Call* is Mike Scardino's visceral, fast-moving, and mordantly funny account of the summers he spent working as an "ambulance attendant" on the mean streets of late-1960s New York. Fueled by adrenaline and Sabrett's hot dogs, young Mike spends his days speeding from one chaotic emergency to another. His adventures take him into the middle of incipient race riots, to the scene of a plane crash at JFK airport and into private lives all over Queens, where New Yorkers are suffering, and dying, in unimaginable ways. Learning on the job, Mike encounters all manner of freakish accidents (the man who drank Drano, the woman attacked by rats, the man who inflated like a balloon), meets countless unforgettable New York characters, falls in love, is nearly murdered, and gets an early and indelible education in the impermanence of life and the cruelty of chance. Action-packed, poignant, and rich with details that bring Mike's world to technicolor life, *Bad Call* is a gritty portrait of a bygone era as well as a bracing reminder that, though "life itself is a fatal condition," it's worth pausing to notice the moments of beauty, hope, and everyday heroism along the way.

The award-winning writer returns with a major, absorbing, atmospheric novel that takes on the most dramatic and profoundly personal subject matter San Francisco in the 1970s. Free love has given way to radical feminism, psychedelic ecstasy to hard-edged gloom. The Zodiac Killer stalks the streets. A disgraced professor takes an office in a downtown tower to plot his return. But the walls are thin and he's distracted by voices from next door—his neighbor is a psychologist, and one of her patients dislikes the hum of the white-noise machine. And so he begins to hear about the patient's troubles with her female lover,

her conflicts with her adoptive, avowedly WASP family, and her quest to track down her birth mother. The professor is not just absorbed but enraptured. And the further he is pulled into the patient's recounting of her dramas—and the most profound questions of her own identity—the more he needs the story to move forward. The patient's questions about her birth family have led her to a Catholic charity that trafficked freshly baptized orphans out of Germany after World War II. But confronted with this new self—"I have no idea what it means to say 'I'm a Jew'"—the patient finds her search stalled. Armed with the few details he's gleaned, the professor takes up the quest and quickly finds the patient's mother in records from a German displaced-persons camp. But he can't let on that he's been eavesdropping, so he mocks up a reply from an adoption agency the patient has contacted and drops it in the mail. Through the wall, he hears how his dear patient is energized by the news, and so is he. He unearths more clues and invests more and more in this secret, fraught, triangular relationship: himself, the patient, and her therapist, who is herself German. His research leads them deep into the history of displaced-persons camps, of postwar Zionism, and—most troubling of all—of the Nazi Lebensborn program. With ferocious intelligence and an enthralling, magnetic prose, Ellen Ullman weaves a dark and brilliant, intensely personal novel that feels as big and timeless as it is sharp and timely. It is an ambitious work that establishes her as a major writer.

Sometimes there are little things you didn't know about that can change everything, and that's why I decided to write this guide. It is a compilation of things that have taken me sixteen years to learn, and I am going to give you the chance to learn it all in sixty minutes! Yay! Talk about a return in time investment! Hmmm... That's a great tag line. I think I'm going to put it on the back cover. The insights collected throughout this book are all things I wish I could have had in a book, in my hand, the day I decided I was finally going to put my butt in the chair and write a novel. Having this would have moved my learning curve up by years. Literally. So many of these were mistakes I made over and over again until some kind soul finally pointed it out, or until I had seen it (and hated it) in enough other authors' stories to finally recognize it in my own. Before you pay an editor to bleed red all over your manuscript with their pen, grab hold of as many of these rules as you can and squeeze them until the metaphorical blood drips from your imaginary fist. Use it to fill your own red pen and then go bleed red on your story first. You will get more benefit, and learn more, from an editor who doesn't have to correct these kinds of mistakes for you. And it will cost you less in the long run. You will never find anyone else in the writing world whose blood is less precious or expensive than your own.

This investigation into the Nazi leader's mindset is "an inherently fascinating study . . . a work of meticulously presented and seminal scholarship"(Midwest Book Review). Adolf Hitler's virulent anti-Semitism is often attributed to external cultural and environmental factors. But as historian Peter den Hertog notes in this book, most of Hitler's contemporaries experienced the same culture and environment and didn't turn into rabid Jew-haters, let alone perpetrators of genocide. In this study, the author investigates what we do know about the roots of the German leader's anti-Semitism. He also takes the significant step of mapping out what we do not know in detail, opening pathways to further research. Focusing not only on history but on psychology, forensic psychiatry, and related fields, he reveals how Hitler was a man with highly paranoid traits, and clarifies the causes behind this paranoia while explaining its connection to his anti-Semitism. The author also explores, and answers, whether the Führer gave one specific instruction ordering the elimination of Europe's Jews, and, if so, when this took place. Peter den Hertog is able to provide an all-encompassing explanation for Hitler's anti-Semitism by combining insights from many different disciplines—and makes clearer how Hitler's own particular brand of anti-Semitism could lead the way to the Holocaust.

Focusing on Mary Sidney Herbert and Mary Sidney Wroth's use of the figures of origin, descent, and inheritance in their poetry and prose, this book examines how these central women writers situated themselves in terms of early modern England's rich ancestral cultures, employing these and other genealogical

concepts to talk about authorship, family, selfhood, and memory. In turn, both Sidney Herbert and Sidney Wroth also shaped their works in relation to the ways in which writers within their familial communities and literary coteries constructed them as Sidneys, heirs, descendants, and future ancestors, in genres ranging from the patronage dedication and pastoral eclogue to mythographic genealogia and georgic poetry. In the intersection of ancestry, death, sexuality, and reproduction, the book contends that Sidney Herbert and Sidney Wroth develop their authorship within the simultaneous rigidity and flexibility of their world's genealogical discourses.

So far, everything I'd put together went something like this: 1) There was a freaky paranormal organization I've never heard of sending people to protect me from ruthlessly lethal demons bent on murdering me for absolutely no reason I could think of. 2) A dangerous duo of charismatic twin brothers one of which is somehow related to me had been sent to do the job. 3) A sparky (and sparkly) and daring new teen girl that takes bipolar to a whole new level and just maybe needs to check into an insane asylum, was acting like we had been friends forever were going to be. Which, though the thought was definitely interesting, scared me slightly. 4) All these things added up to a wonderful sitcom made specially by God for me, called: *The End of My Normal Life as I Knew It*. God.

A revolutionary memoir about domestic abuse by the award-winning author of *Her Body and Other Parties* In the Dream House is Carmen Maria Machado's engrossing and wildly innovative account of a relationship gone bad, and a bold dissection of the mechanisms and cultural representations of psychological abuse. Tracing the full arc of a harrowing relationship with a charismatic but volatile woman, Machado struggles to make sense of how what happened to her shaped the person she was becoming. And it's that struggle that gives the book its original structure: each chapter is driven by its own narrative trope—the haunted house, erotica, the bildungsroman—through which Machado holds the events up to the light and examines them from different angles. She looks back at her religious adolescence, unpacks the stereotype of lesbian relationships as safe and utopian, and widens the view with essayistic explorations of the history and reality of abuse in queer relationships. Machado's dire narrative is leavened with her characteristic wit, playfulness, and openness to inquiry. She casts a critical eye over legal proceedings, fairy tales, *Star Trek*, and Disney villains, as well as iconic works of film and fiction. The result is a wrenching, riveting book that explodes our ideas about what a memoir can do and be.
