The shift to a neoliberal agenda has, for many academics, intensified the pressure and undermined the pleasure that their work can and does bring. This book

contains stories from a range of autoethnographers seeking to challenge traditional academic discourse by providing personal and evocative writings that detail moments of profound transformation and change. The book focuses on the experiences of one academic and the stories that her

dialogues with other autoethnographers generated in response to the neoliberal shift in higher education. Chapters use a variety of genres to provide an innovative text that identifies strategies to challenge neoliberal governance. Autoethnography is as a methodology that can be used as form of resistance to this cultural shift by exploring effects on individual academic and personal lives. The stories are necessarily emotional, personal, important. It is hoped that they will promote other ways of navigating higher education that do not align with neoliberalism and instead, offer more holistic and human ways of being an academic. This book

highlights the impact of neoliberalism on academics' freedom to teach and think freely. With 40% of academics in the UK considering other forms of employment, this book will be of interest to existing and future academics who want to survive the new environment and maintain their motivation and passion for academic life. Feminist Activists on Brexit Pan Macmillan Tweeting Brexit presents the most thorough examination of the role that the most political social network, Twitter, played in creating, negotiating, and challenging Brexit narratives during the process of UK's exiting of the European Union. Working with multiple methods, from digital

media analysis to interviews, and a wide variety of data, the book offers scrutiny of Brexit-related tweets and discourses they promote and gives voice to key actors – UK citizens, political and media actors – to explain why and how they've used Twitter to talk about Brexit and with what outcomes. In doing so, the author engages with, and enhances, a range of theoretical discussions central to our understanding of the role of social media in politics, from permanent campaigning on social media to social media journalism. With a reach far beyond the central Brexit case study, the book discusses new trends and practices in political

communication and contextualises them with references to empirical evidence. The book is key reading for all students and researchers in digital media and politics, digital methods, and related areas, as well as anyone interested in developing their understanding of the role that Twitter plays in political communications.

### **Capturing the Mood of Democracy**

Accademia University Press

UK's June 2016 Brexit Referendum shocked politicians. They did not expect this Continental-wide crisis. Why? Over the years politicians have abused Europe's unique experiment in Democracy. The innovative plan of

Robert Schuman, French Foreign Minister, brought an end to age-long warfare. Europe is now living in the longest period of peace in more than 2000 years. It brought unprecedented prosperity. Now Europe is in a crisis of trust. Its economics is in confusion. Instead of splitting Europe, the book reveals that this crisis will force politicians to reform and correct the abuse and corruption that began with France's General de Gaulle. Instead of today's secretive and closed Councils and Committees, politicians will be obliged to open them. This could lead to a new Age of Prosperity for Europe. This eye-opening book is based on decades of

research from a journalist based in Brussels and biographer of Robert Schuman. It is an essential guide to Europe's rich and satisfying future. In Little Stars Cambridge University Press  
When Rachel's baby is stillborn, she becomes obsessed with the idea that saving a stranger's life months earlier is to blame. An unforgettable, heart-wrenching, warm and funny debut...  
'Emotionally engaging, witty, clever and wonderfully satisfying'  
Daily Express 'A stunning debut ... a wise, moving, and thought-provoking novel'  
Susan Elliot Wright, author of *The Flight of Cornelia*  
Blackwood 'A heartbreaking, deeply

moving and wonderfully witty tale, which celebrates all it means to be human' Isabelle Broom, author of *The Getaway*

----- Mum-to-be Rachel did everything right, but it all went wrong. Her son, Luke, was stillborn and she finds herself on maternity leave without a baby, trying to make sense of her loss. When a misguided well-wisher tells her that "everything happens for a reason", she becomes obsessed with finding that reason, driven by grief and convinced that she is somehow to blame. She remembers that on the day she discovered her pregnancy, she'd stopped a man from jumping in front of a train, and she's now certain that saving his

life cost her the life of her son. Desperate to find him, she enlists an unlikely ally in Lola, an Underground worker, and Lola's seven-year-old daughter, Josephine, and eventually tracks him down, with completely unexpected results... Both a heart-wrenchingly poignant portrait of grief and a gloriously uplifting and disarmingly funny story of a young woman's determination, *Everything Happens for a Reason* is a bittersweet, life-affirming read and, quite simply, unforgettable.

----- 'A beautiful novel, bursting with raw emotional honesty and authenticity' Gill Paul, author of *The Secret Wife* 'So affecting. Profoundly sad. Funny.

I just loved it' Louise Beech, author of This Is How We Are Human 'Darkly funny, yet poignant and moving ... Rachel's quest to find out if everything happens for a reason is both heartbreaking and heartwarming' Anna Bell, author of In Case You Missed It 'Some books teach you, others touch your soul, then there are books like this one that bury deep and create a home in your heart' Emma-Claire Wilson, Glass House Magazine 'A triumph ... a book of hope and ambition and making sense of the world, a tale of acting spontaneously, living in the moment and throwing caution to the wind' Isabella May, author of Oh! What a Pavlova 'An incredibly important and beautifully written

book. Bittersweet and brave, it will keep you both laughing and crying until the last page' Kate Ford, actress, Coronation Street 'The perfect mix of clever, funny and intensely moving' Cari Rosen, author of Secret Diary of a New Mum Aged 43 1/4 'A heart-wrenching, soul-lifting read about loss and redemption in unlikely places' Eve Smith, author of The Waiting Rooms 'Read it and weep but also, incredibly, find moments to laugh and to know there is life after death' Julia Hobsbawm, author of The Simplicity Principle 'Simultaneously devastating and hilarious' Clare Allan, author of Poppy Shakespeare 'A memorable, poetic read ... The writing

reminded me of Eleanor Oliphant' Becky Fleetwood, author of the Chroma series 'Quirky yet insightful, bright yet wistful, amusing yet emotional ... full of contradictions that fuse into the most surprising, moving, and beautiful novel'

\_\_\_\_\_ Each week, Tom and Louise meet for a quick drink in the pub before they go to meet their marriage counsellor. Married for years and with two children, a recent incident has exposed the fault lines in their relationship in a way that Tom, for one, does not wish to think about. In the ten minutes in the pub they talk about the agenda for the session, what they talked about last week, what they will definitely not talk about with the counsellor, and how much better off they are than the couple whose counselling slot immediately precedes their own. Over the ten weeks that follow Tom and Louise begin to wonder: what if

marriage is like a computer? When you take it apart to see how it works you might just be left with a million pieces you can't put back together . . .

Leading philosopher  
Quassim Cassam  
introduces epistemic  
vices, drawing on

recent political  
phenomena including  
Brexit and Trump to  
explore such 'vices of  
the mind'. Manifesting  
as character traits,  
attitudes, or thinking  
styles, epistemic vices  
prevent us from having  
or sharing knowledge.  
Cassam gives an  
account of the nature  
and importance of  
these vices, which  
include closed-  
mindedness,  
intellectual arrogance,  
wishful thinking, and  
prejudice. In providing  
the first extensive  
coverage of vice  
epistemology, an  
exciting new area of  
philosophical research,  
Vices of the Mind uses  
real examples drawn  
primarily from the  
world of politics to  
develop a compelling  
theory of epistemic  
vice. Key events such  
as the 2003 Iraq War

and the 2016 Brexit vote, and notable figures including Donald Trump and Boris Johnson are analysed in detail to illustrate what epistemic vice looks like in the modern world. The traits covered in this landmark work include a hitherto unrecognised epistemic vice called 'epistemic insouciance'. Cassam examines both the extent to which we are responsible for our failings and the factors that make it difficult to know our own vices. If we are able to overcome self-ignorance and recognise our epistemic vices, then is there is anything we can do about them? *Vices of the Mind* picks up on this concern in

its conclusion by detailing possible self-improvement strategies and closing with a discussion of what makes some epistemic vices resistant to change. [The Bad Boys of Brexit](#) Atlantic Books FULLY UPDATED Arron Banks enjoyed a life of happy anonymity flogging car insurance in Bristol until he dipped his toes into the sharkinfested waters of politics and decided to plunge right in. Charging into battle for Brexit, he tore up the political rule book, sinking £8 million of his personal fortune into a mad-cap campaign targeting ordinary voters up and down the country. His anti-establishment crusade upset everyone from Victoria Beckham to NASA and left MPs

open-mouthed. Lurching from comedy to crisis (often several times a day), he found himself in the glare of the media spotlight, fending off daily bollockings from Nigel Farage and po-faced MPs. From talking Brexit with Trump and trying not to embarrass the Queen, to courting communists and wasting a fortune on a pop concert that descended into farce, this is his honest, uncensored and highly entertaining diary of the campaign that changed the course of history.

David Cameron was elected Conservative leader in 2005, promising to modernize the party following its three successive electoral defeats. He became Prime Minister in 2010, forming Britain's first coalition government in 70 years, at a moment of economic crisis, and went on to win the first outright Conservative majority for 23 years at the 2015 general election. In *For the Record*, he will explain how the governments he led transformed the UK economy while implementing a modern,

compassionate agenda that included reforming education and welfare, legalizing gay marriage, honoring the UK's commitment to overseas aid and spearheading environmental policies. He will shed light on the seminal world events of his premiership—the Arab Spring; the rise of ISIS; the invasion of Ukraine; the conflicts in Libya, Iraq and Syria—as well as events at home, from the Olympic Games in 2012 to the Scottish referendum. He will provide, for the first time, his perspective on the EU referendum and his views on the future of Britain's place in the world following Brexit. Revealing the battles and achievements of his life and career in

intimate and frank detail, For the Record will be an important assessment of the significant political events of the last decade, the nature of power and the role of leadership at a time of profound global change.

Biteback Publishing  
International migration, particularly to Europe, has increased in the last few decades, making research on aspects of this phenomenon, including numbers, challenges, and successes, particularly vital. This Special Issue highlights this necessary and relevant area of research. It presents 37 articles including studies on diverse topics relating to the health of refugees and migrants. Most articles (28) present studies focusing on European host countries. The

focus on Europe is justified if we take into consideration the increased number of refugees and migrants who have come to Europe in recent years. However, there are also articles which present studies from countries in other continents. The topics discussed in the Issue include healthcare utilization, infectious diseases, mother and child health, mental health, and chronic diseases. Finding from the included articles indicate that further development of guidelines and policies at both local and international levels is needed. Priorities must be set by encouraging and funding in-depth research that aims to evaluate the impact of existing policies and interventions. Such

research will help us formulate recommendations for the development of strategies and approaches that improve and strengthen the integration of migrants and refugees into the host countries.

**The Sophie Drew Trilogy** Hachette UK

This book is about what it means to speak of a political mood. Can the electorate be in a mood? How do they express it? How can moods be captured in a meaningful way? This book attempts to answer those questions by looking at one city during the December 2019 British general election. This is not a book about campaign strategies, target voters, turnouts and poll swings. It is about how people feel. The

research approach is ethnographic. The telling of the story is lyrical. It may not be hard political science but it contributes significantly to an understanding of the health of contemporary democracy. Focusing upon the ways that voters and non-voters

perform their enthusiasm or indifference, the stories that they tell, and photographic images of Bradford in what is supposed to be a vital democratic moment, this book invites readers to engage with the affective texture of an election.
