Das Grab am Fjord New Directions Publishing

Unformed Landscape begins in a small village on a fjord in the Finnmark, on the northeastern coast of Norway, where the borders between Norway, Sweden, Finland, and Russia lie covered in snow and darkness, where the real borders are between day and night, summer and winter, and between people. Here, a sensitive young woman like Kathrine finds few outlets for her desires. Half Norwegian, half Sami (an indigenous people), Kathrine works for the customs office inspecting the fishing boats arriving regularly in the harbor. She is in her late 20s, has a son from an early marriage, and has drifted into a second loveless marriage to a man whose cold and dominating conventionality forms a bold stroke through the unformed landscape of her life. After she makes a

discovery about her husband that deeply wounds her, Kathrine cuts loose from her moorings and her confusion and sets off in search of herself. Her journey begins aboard a ship headed south, taking her below the Arctic Circle for the first time in her life. Kathrine makes her way to France and has the bittersweet experience of a love affair that flares and dies quickly, her starved senses rewarded by the shimmering beauty of Paris. Through a series of poignant encounters, Kathrine is led to the richer life she was meant to have and is brave enough to claim. Using simple words strung together in a melodic alphabet, Peter Stamm introduces us, through a series of intimate sketches, to the heart of an unforgettable woman. Her story speaks eloquently about solitude, the fragility of love, lost illusions, and self-discovery.

A thrilling, eye-popping look at true crime in the billion-dollar art world. The art world is one of the most secretive of global businesses, and the list of its crimes runs long and deep. Today, with prices in the hundreds of millions for individual artworks, and billionaires' collections among the most conspicuous and liquid of their assets, crime is more rampant than ever in this largely unregulated universe. Increased prices and globalization have introduced new levels of fraud and malfeasance into the art world--everything from "artnapping," in which an artwork is held hostage and only returned for a ransom, to forgery and tax fraud. However, the extent of the economic and cultural damage that results from criminality in the global art scene rarely comes to light. The stories of high-stakes, brazen art crimes told by art experts Stefan Koldehoff and Tobias Timm are

by turns thrilling, disturbing, and unbelievable (the imagination for using art to commit crimes seems boundless). The authors also provide a well-founded analysis of what needs to change in the art market and at museums. From the authors of *False Pictures*, *Real Money* (about the Beltracchi art forgery case), *Art and Crime* includes a chapter on art owned by Donald Trump. It is a thoroughly researched, explosive, and highly topical book that uncovers the extraordinary and multifarious thefts of art and cultural objects around the world.
