 A MEMOIR BY THE YOUNGEST RECIPIENT OF THE NOBEL PEACE PRIZE As seen on Netflix with David Letterman "I come from a country that was created at midnight. When I almost died it was just after midday." When the Taliban took control of the Swat Valley in Pakistan, one girl spoke out. Malala Yousafzai refused to be silenced and fought for her right to an education. On Tuesday, October 9, 2012, when she was fifteen, she almost paid the ultimate price. She was shot in the head at point-blank range while riding the bus home from school, and few expected her to survive. Instead, Malala's miraculous recovery has taken her on an extraordinary journey from a remote valley in northern Pakistan to the halls of the United Nations in New York. At sixteen, she became a global symbol of peaceful protest and the youngest nominee ever for the Nobel Peace Prize. I AM MALALA is the remarkable tale of a family uprooted by global terrorism, of the fight for girls' education, of a father who, himself a school owner, championed and encouraged his daughter to write and attend school, and of brave parents who have a fierce love for their daughter in a society that prizes sons. I AM MALALA will make you believe in the power of one person's voice to inspire change in the world.

THE NO.1 SUNDAY TIMES BESTSELLER 'A beautiful little book by a brilliant mind' DAILY TELEGRAPH 'Effortlessly instructive, absorbing, up to the minute and - where it matters - witty' GUARDIAN The world-famous cosmologist and #1 bestselling author of A Brief History of Time leaves us with his final thoughts on the universe's biggest questions in this brilliant posthumous

work. Is there a God? How did it all begin? Can we predict the future? What is inside a black hole? Is there other intelligent life in the universe? Will artificial intelligence outsmart us? How do we shape the future? Will we survive on Earth? Should we colonise space? Is time travel possible? Throughout his extraordinary career, Stephen Hawking expanded our understanding of the universe and unravelled some of its greatest mysteries. But even as his theoretical work on black holes, imaginary time and multiple histories took his mind to the furthest reaches of space, Hawking always believed that science could also be used to fix the problems on our planet. And now, as we face potentially catastrophic changes here on Earth - from climate change to dwindling natural resources to the threat of artificial super-intelligence - Stephen Hawking turns his attention to the most urgent issues for humankind. Wide-ranging, intellectually stimulating, passionately argued, and infused with his characteristic humour, *Brief Answers to the Big Questions*, the final book from one of the greatest minds in history, is a personal view on the challenges we face as a human race, and where we, as a planet, are heading next. Exploring America Editorial ACES

"A theory in the flesh means one where the physical realities of our lives all fuse to create a politic born of necessity," writes activist Cherríe L. Moraga. This volume of new essays stages an intergenerational dialogue among philosophers to introduce and deepen engagement with U.S. Latinx and Latin American feminist philosophy, and to explore their "theories in the flesh." It explores specific intellectual contributions in various topics in U.S. Latinx and Latin American feminisms that stand alone and are unique and valuable; analyzes critical contributions that U.S. Latinx and Latin American interventions have made in feminist thought more generally over the last several decades; and shows the intellectual and transformative value of reading U.S. Latinx and Latin American feminist theorizing. The collection features a series of essays analyzing decolonial approaches within U. S. Latinx and Latin American feminist philosophy, including studies of the functions of gender within feminist theory, everyday modes of resistance, and methodological questions regarding the scope and breadth of decolonization as a critical praxis. Additionally, essays examine theoretical contributions to feminist discussions of selfhood, narrativity, and genealogy, as well as novel epistemic and hermeneutical approaches within the field. A number of contributors in the book address themes of aesthetics and embodiment, including issues of visual representation, queer desire, and disability within U. S. Latinx and Latin American feminisms. Together, the essays in this volume are groundbreaking and powerful contributions in the fields of U.S.

Latinx and Latin American feminist philosophy.

THE NUMBER ONE INTERNATIONAL BESTSELLER From one of our greatest voices in modern philosophy, author of *The Course of Love* and *The School of Life*, this book explores the fascinating hidden links between the buildings we live in and our long-term wellbeing. 'Engaging and intelligent . . . Full of splendid ideas, happily and beautifully expressed' Independent What makes a house truly beautiful? Why are many new houses so ugly? Why do we argue so bitterly about sofas and pictures - and can differences of taste ever be satisfactorily resolved? To answer these questions and many more, de Botton looks at buildings across the world, from medieval wooden huts to modern skyscrapers; he examines sofas and cathedrals, tea sets and office complexes, and teases out a host of often surprising philosophical insights. *The Architecture of Happiness* will take you on a beguiling tour through the history and psychology of architecture and interior design, and will change the way you look at your home. 'Alain de Botton takes big, complex subjects and writes about them with thoughtful and deceptive innocence' Observer 'Clever, provocative and fresh as a daisy' Literary Review

Movies are meant to be entertaining, but they can also be educational. People are naturally curious to know how much of what they see on their screens might be historically true. In *Latin American History at the Movies*, experts on Latin America focus on five centuries of history as portrayed in feature films. An introduction on the visual presentation of the past in movies sets the stage for essays that explore sixteen of the best feature films on Latin America made from the 1980s to the present.

El cumplimiento de la misión que le fue encomendada por Cristo a la iglesia depende en buena medida de nuestra hermenéutica. En "Entender las Sagradas Escrituras" encontramos las respuestas a cuestiones tan importantes e interesantes como estas: ¿Cuáles son las raíces de la interpretación bíblica? ¿Cómo saber si un pasaje de la Biblia es aplicable a nuestro tiempo? ¿Puede la Biblia guiarnos cuando la ética está de por medio? ¿Cuáles son los pasos necesarios para realizar una correcta interpretación del texto sagrado? Los tipos, las alegorías y las parábolas, ¿cómo hemos de interpretarlas? ¿Los Salmos deben ser analizados y aplicados igual que los Evangelios? ¿Cuál es el papel del don profético en el proceso hermenéutico? La interpretación sólida lleva a la adecuada comprensión, y lo que comprendemos controla nuestras acciones. Por eso, "Entender las Sagradas Escrituras" aborda los cimientos mismos desde los que la Biblia se alza hasta la posición predominante que ha de tener en la vida de todo creyente.

Music is a mobile art. When people move to faraway places, whether by choice or by force, they bring their music along. Music creates a meaningful point of contact for individuals and for groups; it can encourage curiosity and foster understanding; and it can preserve a sense of identity and comfort in an unfamiliar or hostile environment. As music crosses cultural, linguistic, and political boundaries, it continually changes. While human mobility and mediation have always shaped music-making, our current era of digital connectedness introduces new creative opportunities and inspiration even as it extends concerns about issues such as copyright infringement and cultural appropriation. With its innovative multimodal approach, *Music on the Move* invites readers to listen and engage with many different types of music as they read. The text introduces a variety of concepts related to music's travels—with or without its makers—including

colonialism, migration, diaspora, mediation, propaganda, copyright, and hybridity. The case studies represent a variety of musical genres and styles, Western and non-Western, concert music, traditional music, and popular music. Highly accessible, jargon-free, and media-rich, *Music on the Move* is suitable for students as well as general-interest readers.

A New York Times bestseller! A visit to Washington, DC's National Portrait Gallery forever alters Parker Curry's young life when she views First Lady Michelle Obama's portrait. When Parker Curry came face-to-face with Amy Sberald's transcendent portrait of First Lady Michelle Obama at the National Portrait Gallery, she didn't just see the First Lady of the United States. She saw a queen—one with dynamic self-assurance, regality, beauty, and truth who captured this young girl's imagination. When a nearby museum-goer snapped a photo of a mesmerized Parker, it became an internet sensation. Inspired by this visit, Parker, and her mother, Jessica Curry, tell the story of a young girl and her family, whose trip to a museum becomes an extraordinary moment, in a moving picture book. *Parker Looks Up* follows Parker, along with her baby sister and her mother, and her best friend Gia and Gia's mother, as they walk the halls of a museum, seeing paintings of everyone and everything from George Washington Carver to Frida Kahlo, exotic flowers to graceful ballerinas. Then, Parker walks by Sberald's portrait of Michelle Obama...and almost passes it. But she stops...and looks up! Parker saw the possibility and promise, the hopes and dreams of herself in this powerful painting of Michelle Obama. An everyday moment became an extraordinary one...that continues to resonate its power, inspiration, and indelible impact. Because, as Jessica Curry said, "anything is possible regardless of race, class, or gender." **FOREWORD BY ARTIST AMY SBERALD**

John Banville's stunning powers of mimicry are brilliantly on display in this engrossing novel, the darkly compelling confession of an improbable murderer. Freddie Montgomery is a highly cultured man, a husband and father living the life of a dissolute exile on a Mediterranean island. When a debt comes due and his wife and child are held as collateral, he returns to Ireland to secure funds. That pursuit leads to murder. And here is his attempt to present evidence, not of his innocence, but of his life, of the events that lead to the murder he committed because he could. Like a hero out of Nabokov or Camus, Montgomery is a chillingly articulate, self-aware, and amoral being, whose humanity is painfully on display.

Every year, readers send in thousands of questions to *New Scientist*, the world's best-selling science weekly, in the hope that the answers to them will be given in the 'Last Word' column - regularly voted the most popular section of the magazine. Does Anything Eat Wasps? is a collection of the best that have appeared, including: Why can't we eat green potatoes? Why do airliners suddenly plummet? Does a compass work in space? Why do all the local dogs howl at emergency sirens? How can a tree grow out of a chimney stack? Why do bruises go through a range of colours? Why is the sea blue inside caves? Many seemingly simple questions are actually very complex to answer. And some that seem difficult have a very simple explanation. *New Scientist's 'Last Word'* celebrates all questions - the trivial, the idiosyncratic, the baffling and the strange. This selection of the best is popular science at its most entertaining and enlightening.
