 Nouns and verbs are the essential building blocks of language study. This modified basic skills book introduces the concept of nouns and verbs in an easy-to-understand format. Each concept is introduced in multiple ways, presenting strategies to support children with different learning styles. Visual learners will be helped by pictures to illustrate each concept and each story. Auditory learners will be aided by listening to the stories, by reading matching parts of sentences out loud, and by enjoying rhymes. Kinesthetic learners will find the tracing, circling, coloring, and underlining exercises helpful. Page

designs in this book are clean and uncluttered, minimizing distractions and helping students focus on the lessons at hand. The activities are created specifically to address learning challenges and differing abilities. Students will delight in solving the crossword puzzles, filling in blanks to complete stories, and answering comprehension questions, all in the context of mastering these important language concepts. There are also extension activities, such as the creation of a storybook, to keep students focused on and engaged in learning.

 What is Music? Music is rhythm. Music is melody. Music is feeling... and oh, so much

more. In this richly layered compendium, Alike shares her keen insight about music and all its themes and variations. Ah, Music! is about composers and instruments. It's about artists and performers. It's about history -- from the earliest music through classical, modern, jazz, and popular times. It's about diversity and pleasure.
