This is the first English translation of the seminar Martin Heidegger gave during the Winter of 1934-35, which dealt with Hegel's Philosophy of Right. This remarkable text is the only one in which Heidegger interprets Hegel's masterpiece in the tradition of Continental political philosophy while offering a glimpse into Heidegger's own political thought following his engagement with Nazism. It also confronts the ideas of Carl Schmitt, allowing readers to reconstruct the relation between politics and ontology. The book is enriched by a collection of interpretations of the

seminar, written by select European and North American political thinkers and philosophers. Their essays aim to make the seminar accessible to students of political theory and philosophy, as well as to open new directions for debating the relation between the two disciplines. A unique contribution, this volume makes available key lectures by Heidegger that will interest a wide readership of students and scholars.

Although many studies are available on visitors to cultural

institutions, the infrequent or non-visitors are largely unexplored. However, they make up the majority of the population. Their motivation for not visiting is therefore the focus of this volume. This volume provides an in-depth overview of the international state of nonvisitor research. Building on this, extensive quantitative and qualitative analyses are conducted on reasons for non-visitation. This is followed by an empirically based, practice-oriented theory of visitor attraction. The authors thus present the first comprehensive work on non-visitor research in Germany. This book is a translation of the original German 1st edition Nicht-Besucherforschung by Martin Tröndle, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature in 2019. The translation was done with the help of artificial intelligence (machine translation by the service DeepL.com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation. Snohetta is a leading team of architects in Norway with offices in Oslo and New York. This first-ever publication to document their work presents and illustrates the most important current and completed projects of these architects, who have been active internationally for fifteen years, and contains texts by various authors. Projects include the Library of Alexandria (2002), the New Opera House in Oslo (2008), and the Gateway Project in Ras Al-Khaimah, Dubai. Snohetta (TM)'s works and projects revolve

around a collaboration and interchange between various disciplines. The architects attach great importance to connecting architecture with landscape architecture and interior design. In each of their projects, fundamental aspects of site, landscape, and context are freshly observed and discussed, which enables them to discover and develop a constant stream of new and varied solutions. As part of their effort to interweave multiple disciplines, the architects of Snoehetta always involve locally and internationally well-known artists in their important projects. For Snoehetta, working together with artists from the early conceptual phase of a project onward constitutes an important factor for later stages of the process.

“Reisz continues to surprise . . . her work is raising the bar for erotic fiction. This is not your mother’s Harlequin romance.”
—New York Journal of Books
No safe word can protect the heart . . . Infamous erotica author and accomplished dominatrix Nora Sutherlin is doing something utterly out of character: hiding. While her longtime lover, Søren—whose fetishes, if exposed, would be his ruin—is under scrutiny pending a major promotion, Nora’s lying low and away from temptation in the lap of luxury. Her host, the wealthy and uninhibited Griffin Fiske, is thrilled to have Nora stay at his country estate, especially once he meets her traveling companion. Young, inexperienced and angelically beautiful, Michael has become Nora’s protégé, and this summer with Griffin is going to be his training, where the hazing never ends. But while her flesh is willing, Nora’s mind is wandering. To thoughts of Søren, her master, under investigation by a journalist with an ax to grind. And to another man from Nora’s past, whose

hold on her is less bruising, but whose secrets are no less painful. It’s a summer that will prove the old adage: love hurts. “Tiffany Reisz’s *The Original Sinners* series is painful, prideful, brilliant, beautiful, hopeful, and heart-breaking. And that’s just the first hundred pages.” —Courtney Milan, New York Times–bestselling author

Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In *The 'Made in Germany' Champion Brands*, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has made them what they are today, and what might be transferable. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

* Special slipcased edition, limited to 314 copies The Porsche 911's little brother...In 1969 a very special sports car was born. The 914 rose from a marriage of convenience of Volkswagen and Porsche, because both companies wanted a small, modern and affordable sports car in their product range, but for little cost. Thus it was decided to combine the skills of both manufacturers. The result was a light mid-engine sports car with a lively road performance and even 50 years after its launch, it pleases the eye with a fresh design. Back then it was often ridiculed as a 'housewife Porsche' or 'Volks-Porsche', but now, the 914 has come out of the shadow of its big brother the 911 and has a huge fan base; today it lives on in the Boxster and Cayman models. This volume includes: the result of thorough research in the Porsche and VW archives; rich photography; all technical data; development, production, model history and racing appearances.

Modern German Grammar: A Practical Guide, Third Edition is an innovative reference guide to German, combining traditional and function-based grammar in a single volume. The Grammar is divided into two parts. Part A covers grammatical categories such as word order, nouns, verbs and adjectives. Part B is organised according to language functions and notions such as: making introductions asking for something to be done delivering a speech possibility satisfaction. The book addresses learners' practical needs and presents grammar in both a traditional and a communicative setting. New to this edition, and building on

feedback from the previous edition: The rules of the latest (and so far final) spelling reform have been implemented throughout. Examples of usage have been updated and consideration given to Swiss and Austrian variants. The chapter on register has been expanded and now includes youth language and frequently used Anglicisms in German. The Index now has even more key words; it has also been redesigned to differentiate between German words, grammar terms, and functions, thus making it more user-friendly. The Grammar assumes no previous grammatical training and is intended for all those who have a basic knowledge of German, from intermediate learners in schools and adult education to undergraduates taking German as a major or minor part of their studies. The Grammar is accompanied by a third edition of Modern German Grammar Workbook (ISBN 978-0-415-56725-1) which features exercises and activities directly linked to the Grammar. Ruth Whittle is Lecturer, John Klapper is Professor of Foreign Language Pedagogy, Katharina Glöckel is the Austrian Lektorin and Bill Dodd is Professor of Modern German Studies - all at the University of Birmingham. Christine Eckhard-Black is Tutor and Advisor in German at the Oxford University Language Centre.

"I hate to lose. And what I really hate about it is that it takes exactly the same effort to lose as it does to win. So, if you're going to make that effort, why not make the effort to win?" --Tom Whidden, three-time America's Cup winner, president of North Marine Group America's Cup winner Peter Isler shows how the skills and strategies used in professional sailing apply equally well to competition, teamwork, and success in the world of business. Some of the most prominent and successful CEOs and executives in America are sailors--and with good reason. In both business and sailing, only the best-led, best-trained, most highly motivated teams win. In *At the Helm*, two-time America's Cup winner Peter Isler translates the secrets of success in the fast-paced world of grand-prix sailboat racing into a series of specific lessons that managers and businesspeople can apply to their day-to-day jobs. In the world of business and sailing, building a successful "team" takes years of planning, training, practice, and cooperation, with an absolute commitment to winning. Liberally sprinkled with entertaining, insightful, and cautionary stories from the worlds of sailing and business, *At the Helm* shows why it is essential to be able to change course quickly; how to "stack the deck" in your favor; how to plan for the unexpected. In addition, Peter includes a section on assessing your strengths and weaknesses, and offers suggestions on how to become a better "sailor." The first book to apply the strategies required for putting together a world-class sailing crew to the world of business, *At the Helm* is the perfect mix of business and pleasure.
