The Book of Squares by  
Fibonacci is a gem in

the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful

translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

 In September of 1893, Norwegian zoologist Fridtjof Nansen and a crew manned the schooner Fram, intending to drift, frozen in the Arctic pack-ice, to the North Pole. When it became clear that they would miss the pole, Nansen and his companion Hjalmar Johansen struck off by themselves. Racing the shrinking pack-ice, they attempted, by dog-sled, to go "farthest north." They survived a winter in a moss hut eating walrus and polar bears, and the public assumed they were dead. In the spring of 1896, after three years of trekking, and having

made it to within four degrees of the pole, they returned to safety. Nansen's narrative stands with the best writing on polar exploration.

Frankie is mal oor skaatsplank ry en kunsfliks. Sy wonder oor Milan, die geheimsinnige, stil ou

Milan neem kitaarlesse, hou van fliks, old school-musiek soos Pink Floyd en Led Zeppelin en maak snags stensils. Hy wonder wat deesdae met hom aangaan - is hy siek of verlief? The SALRM 2011 provides a rich source

of information on a range of language-related subjects. A prominent issue remains the changing of street and place names, including the Pretoria/Tshwane and Louis Trichardt/Makhado sagas. Language in education remains a thorny issue; as medium of instruction at school and tertiary level, and the proposal that passing an African language should be a requirement in order to obtain a tertiary degree in South Africa. In terms of language legislation, the draft version of the National Language Act was proposed. The language of record in courts also received attention in the media. Destructive forces

have been eroding the University of Cape Town, Africa's leading university. This book tells the sad, true tale of what has been transpiring. It is a saga of lunacy, criminality, pandering, and identity politics. The mad and the bad - the deranged, deluded, the depraved - have been granted endless latitude in bullying and abusing others. The decline began in 2015 with the Rhodes Must Fall protest that resulted in the offending statue's removal within a month, and which spawned similar protests abroad. Emboldened by their local success, the protestors issued new and ever-increasing demands later that year and then again in 2016 and 2017. Their

methods also became criminal - including intimidation, assault, and arson. The university leadership capitulated to this behaviour, and this fostered a broader and now pervasive toxic environment within the institution. These developments offer important lessons for universities around the world that are yielding to the forces of a faux "progressivism".

It is 1871 and Nthebolang and her mother must flee their home: her father has been accused of witchcraft and

sentenced to death. For months they walk, sleeping in the open, living off the veld, until they are offered shelter in Ntsweng in the kingdom of Kgosi Sechele I. It is there, years later, that Nthebolang meets Beatrice, the wife of a cruel English missionary, and a woman who has had her share of perilous escapes. As a young girl, this light-skinned Koranna woman was mistaken for a kidnapped white child and bundled off to a mission station. After all this time, Beatrice still carries her father's gift, a hunting knife, concealed under her clothing. But things are not settled in Ntsweng, where traditional beliefs and Christianity clash. The turmoil of Nthebolang's childhood

repeats itself when her beloved Motsumi is suspected of witchcraft. Will she be able to save him, or will he meet the same fate as her father? And is Beatrice a friend in whom she should place her trust? Lauri Kubuitsile's *But Deliver Us from Evil* is at once a sensitive human drama and a chilling tale of evil power plays. Bringing to life a little-known yet fascinating pocket of Botswana's colonial history, it is a story of struggle and belief, hatred and love. *Economic and Management Sciences, Grade 8* Penguin UK This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different

tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy

development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education. *X-kit FET Graad 11 Wiskundige Geletterdheid* Penguin Random House South Africa Study & Master Physical Sciences Grade 10 has been
