Ancient double-entry bookkeeping

Kodansha America LLC

Like most good educational interventions, problem-based learning (PBL) did not grow out of theory, but out of a practical problem. Medical students were bored, dropping out, and unable to apply what they had learned in lectures to their practical experiences a couple of years later. Neurologist Howard S. Barrows reversed the sequence, presenting students with patient problems to solve in small groups and requiring them to seek relevant knowledge in an effort to solve those problems. Out of his work, PBL was born. The application of PBL approaches has now spread far beyond medical education. Today, PBL is used at levels from elementary school to adult education, in disciplines ranging across the humanities and sciences, and in both academic and corporate settings. This book aims to take stock of developments in the field and to bridge the gap between practice and the theoretical tradition, originated by Barrows, that underlies PBL techniques.

Department of Linguistics

"As experts in treating anxiety disorders, Wehrenberg (a psychotherapist in private practice, Naperville, Illinois) and Prinz (psychiatrist, Linden Oaks Hospital, Naperville) discuss generalized, panic, and other anxiety disorders and the implications of recent brain research for treating them by integrating pharmacological and psychotherapeutic approaches. They note that clients' Internet-obtained information about their condition has both positive and negative aspects. The book includes charts summarizing etiologies, symptoms,

cognitive errors, and medications; relaxation and worry management techniques; clinical pearls of wisdom; and suggested reading." -- Publisher's description.

The Little Ghost Who Was a Quilt

Cambridge University Press

A modern and unified treatment of the mechanics, planning, and control of robots, suitable for a first course in robotics.

Essential Readings in Problem-Based Learning Springer Science & Business Media

This second edition updates a course which has proven to be a perfect fit for classes the world over. Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 4 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in the units.

Memoirs of the Forty-five First Years of the Life of James Lackington ...

Routledge

A FATEFUL MEETING Hara Manabu is a gay man who feels somewhat adrift in the world. He spends his days teaching at an all-boys school, his nights out on the town. While at a gay bar, he meets a young man named Sorano and feels an instant connection. But things become complicated when he sees Sorano again—as it turns out, the young man is a new student at Hara's school. Can

Hara navigate the feelings he has for a student?

The World's Last Night Johns Hopkins University Press

Will Kaguya and Miyuki share the shelter of an umbrella in a storm? Is carrying a knife dripping with blood proof that Kaguya is trying to kill a member of the student council? How will Kaguya react when Chika introduces her to potty humor? Then, Chika must intervene when Miyuki dispenses bad advice on a topic he knows nothing about, Miyuki tries to develop his kinesthetic intelligence, and Kaguya and her personal assistant play a practical joke on Miyuki that has dire consequences. Caffeine is required drinking. -- VIZ Media

Philosophy and Memory Traces

Cambridge University Press

First published in 1875 and read by more than eight million people, this nondenominational book has a 119-year history of healing and inspiration. To attract a new audience, this time-honored message of healing has a powerful new cover, easy-to-read page layout, and word index. Named one of "75 Books by Women Whose Words Have Changed the World".

Anxious Brain Tundra Books

A repackaged edition of the revered author's anthology of satirical yet serious essays on evil. In these spirited essays, C. S. Lewis—the great British writer, scholar, lay theologian, broadcaster, Christian apologist, and bestselling author of *Mere Christianity*, *The Screwtape Letters*, *The Great Divorce*, *The Chronicles of Narnia*, and many other beloved classics—discusses evil in the world. Blending irony, humor, and paradox, he tackles religion's most difficult and intriguing questions regarding immorality, belief, and the

meaning of prayer. Best of all, the infamous *Screwtape* makes a special cameo appearance in this funny and poignant collection.

Using and programming the Epson HX-20 portable computer National Geographic Books

When you're a quilt instead of a sheet, being a ghost is hard! An adorable picture book for fans of *Stumpkin* and *How to Make Friends with a Ghost*. Ghosts are supposed to be sheets, light as air and able to whirl and twirl and float and soar. But the little ghost who is a quilt can't whirl or twirl at all, and when he flies, he gets very hot. He doesn't know why he's a quilt. His parents are both sheets, and so are all of his friends. (His great-grandmother was a lace curtain, but that doesn't really help cheer him up.) He feels sad and left out when his friends are zooming around and he can't keep up. But one Halloween, everything changes. The little ghost who was a quilt has an experience that no other ghost could have, an experience that only happens because he's a quilt . . . and he realizes that it's OK to be different.

Linear Algebra Рипол Классик

Why this book? Other than the fact that I like writing about computers more than just about anything else, this book fills several real needs. No matter how many manuals a computer manufacturer puts out to accompany a syste- and some of Epson America's are very good - not everything can be covered. This book fills in the gaps. This book is unbiased, having been written independently of Epson. So, I won't be telling you to drop everything and run out to buy an HX-20. The HX-20 is good for some uses, not so good for some others. This book is a guide to out of the machine and/or pointing you towards a different getting

the most machine that might better suit your needs. At the start of this project I had to decide who was my target audience: novices, experts, or those in between? Because HX-20 owners and prospective owners don't fall into neat categories, I tried to 'cover all the bases'. Or at least as many as possible. As with any attempt to do everything, I didn't always succeed. But I did succeed in providing at least something for everyone. For those who haven't yet bought a portable - or are unsure if buying an HX-20 was the right move - there are descriptions of 20 other portables on the market. For those who have used other computers before, there's information on how Epson BASIC differs from other BASICs, with tips on converting programs.

Educational Technology Beyond Content
Simon and Schuster

Nurse Nanase has striven to once again meet the prince of her dreams, so how is it he's become such an aggravating doctor?! After witnessing a handsome and charming young doctor save a stranger's life five years ago, Nanase Sakura trained to become a nurse. But when she meets the doctor again and they start working together, she finds Kairi Tendo to be nothing like the man she imagined him to be! The Dark Lord Kairi finally falls for Nanase, the Valiant One! Regardless, they face another trial! Nanase became a nurse to chase after Dr. Kairi Tendo. Now the feelings are mutual, and they've become a couple. It seems their love should only deepen from here on out, but when Nanase tries to help a certain someone, it leads to a disruption in their romance!

'Black Mirror is hands down the most relevant program of our time, if for no

other reason than how often it can make you wonder if we're all living in an episode of it.' - New York Times What becomes of humanity when it's fed into the jaws of a hungry new digital machine? Discover the world of Black Mirror in this immersive, illustrated, oral history. This first official book logs the entire Black Mirror journey, from its origins in creator Charlie Brooker's mind to its current status as one of the biggest cult TV shows to emerge from the UK. Alongside a collection of astonishing behind-the-scenes imagery and ephemera, Brooker and producer Annabel Jones will detail the creative genesis, inspiration and thought process behind each film for the first time, while key actors, directors and other creative talents relive their own involvement.

'Brooker continues to solidify himself as one of the most creative writers in the medium. Even when the unfair creep of expectations rears up, Black Mirror and Brooker deliver.' - The Hollywood Reporter 'Black Mirror: the future is already here, and it's terrifying' - Telegraph

Challenge and inspire your teenage learners to think beyond language. Think is a fresh, vibrant and upbeat course designed to engage teenage learners

and make them think. As well as building students' language skills, it offers a holistic approach to learning: developing their thinking skills, encouraging them to reflect on values and building their self-confidence. Topics are chosen to appeal to and challenge teenagers, firing their imagination and ensuring effective learning. Exam-style exercises and tips help students prepare for Cambridge English Key, Preliminary and First. Informed by the Cambridge English Corpus, the course reflects real language usage and 'Get it right' sections help students avoid common mistakes.

Billboard JHU Press

American English in Mind is an integrated, four-skills course for beginner to advanced teenage learners of American English. The American English in Mind Level 3 Teacher's Edition provides an overview of course pedagogy, teaching tips from Mario Rinvolucri, interleaved step-by-step lesson plans, audio scripts, Workbook answer keys, supplementary grammar practice exercises, communication activities, entry tests, and other useful resources.

An Incurable Case of Love, Vol. 5

Cambridge University Press

This volume offers a critical examination of the construction of the Spoken British National Corpus 2014 (Spoken BNC2014) and points the way forward toward a more informed understanding of corpus linguistic methodology more broadly. The book begins by situating the creation of this second corpus, a compilation of new, publicly-accessible Spoken British English from the 2010s, within the context of the first, created in 1994, talking through the need to balance backward capability and optimal practice for today's users. Chapters subsequently use the Spoken BNC2014

as a focal point around which to discuss the various considerations taken into account in corpus construction, including design, data collection, transcription, and annotation. The volume concludes by reflecting on the successes and limitations of the project, as well as the broader utility of the corpus in linguistic research, both in current examples and future possibilities. This exciting new contribution to the literature on linguistic methodology is a valuable resource for students and researchers in corpus linguistics, applied linguistics, and English language teaching.

What Does It Mean To Be Grateful? VIZ Media LLC

STJEPAN SEJIC continues the critically acclaimed SUNSTONE series with volume three. A classy, sexy, fun, and emotional look at two women and the alternative lifestyle they live. It's all fun and games until someone falls in love! But the fun and games carry on!

Studies in the Languages of Erromango Cambridge University Press

This book is the outcome of a research symposium sponsored by the Association for Educational Communications and Technology [AECT]. Consisting of twenty-four chapters, including an introduction and conclusion, it argues that informational content should not be the main element of education, and that to provide more for learners, it is necessary to go beyond content and address other skills and capabilities. It also discusses the false premise that learning is complete when the information is known, not when learners seek more: their own directions, answers, and ideas. The authors assert that the ability to synthesize, solve problems and generate ideas is not based on specific content, although education often focuses solely on teaching content. Further, they state

that content can be separated from the learning process and that instructional design and educational technology must be about the skills, habits, and beliefs to be learned.
