SHEPARD DOMINIQUE

[Edward Said and the Work of the Critic](#) Columbia University Press

Edward Said and the Question of Subjectivity explores the notion of subjectivity implicated in and articulated by Said in his writings. Analyzing several of his major works, Pannian argues that there is a shift in Said's intellectual trajectory that takes place after the composition of *Orientalism*. In so doing, Said forthrightly attempts to retrieve a theoretical and political humanism, as Pannian identifies, despite the difficult and sanguinary aspects of its past. He elaborates upon Said's understanding that only after recognising the structures of violence and coming to discern strategies of interpellation, may the individual subject effectively resist them. Pannian also explores Said's ideas on exilic subjectivity, the role of intellectuals, acts of memory, critical secularism, affiliation and solidarity before dwelling on his interface with Marxist thinkers such as Antonio Gramsci, Theodor Adorno, and Raymond Williams. This engagement marks Said's own

subject formation, and shapes his self-reflexive mode of knowledge production.

Every new American President has a plan to bring about peace between the Israelis and the Palestinians, and every one fails. Every "peace process" has failed in its primary objective: to establish a stable and lasting accord between the two parties, such that they can live together side-by-side in friendship rather than enmity. But why? And what can be done instead? While this failure is a consistent pattern stretching back decades, there is virtually no public discussion or even basic understanding of the primary reason for this failure. The Palestinian Delusion is unique in situating the Israeli/Palestinian conflict within the context of the global jihad that has found renewed impetus in the latter portion of the twentieth century and the beginning of the twenty-first. Briskly recounting the tumultuous history of the "peace process," Robert Spencer demonstrates that the determination of diplomats, policymakers, and negotiators to ignore this aspect of the conflict has led the Israelis, the Palestinians, and the world down numerous blind alleys. This has often only exacerbated, rather than healed, this conflict. The Palestinian Delusion

offers a general overview of the Zionist settlement of Palestine, the establishment of the State of Israel, and the Arab Muslim reaction to these events. It explores the dramatic and little-known history of the various peace efforts—showing how and why they invariably broke down or failed to be implemented fully. The Palestinian Delusion also provides shocking evidence from the Palestinian media, as well as statements from the Palestinian leadership, showing that negotiations between Israel and the Palestinians will never work. But there is still cause for hope. Spencer delineates a realistic, viable alternative to the endless and futile "peace process," that shows how the Jewish State and the Palestinian Arabs can truly coexist in peace—without illusions or unrealistic expectations.

[Power, Politics, and Culture](#) University of Washington Press

Said demonstrates that critical discourse has been strengthened by the writings of Derrida and Foucault and by influences like Marxism, structuralism, linguistics, and psychoanalysis. But, he argues, these forces have compelled literature to meet the requirements of a theory or system, ignoring complex affiliations binding the texts to the world.

The World, the Text, and the Critic Pluto Press

A frank and entertaining memoir, from the daughter of Edward Said, about growing up second-generation Arab American and struggling with that identity. The daughter of a prominent Palestinian father and a sophisticated Lebanese mother, Najla Said grew up in New York City, confused and conflicted about her cultural background and identity. Said knew that her parents identified deeply with their homelands, but growing up in a Manhattan world that was defined largely by class and conformity, she felt unsure about who she was supposed to be, and was often in denial of the differences she sensed between her family and those around her. The fact that her father was the famous intellectual and outspoken Palestinian advocate Edward Said only made things more complicated. She may have been born a Palestinian Lebanese American, but in Said's mind she grew up first as a WASP, having been baptized Episcopalian in Boston and attending the wealthy Upper East Side girls' school Chapin, then as a teenage Jew, essentially denying her true roots, even to herself—until, ultimately, the psychological toll of all this self-hatred began to threaten her health. As she grew older, making increased visits to Palestine and Beirut, Said's worldview shifted. The attacks on the World Trade Center, and some of the ways in which Americans responded, finally made it impossible for Said to continue to pick and choose her identity, forcing her to see herself and her passions more clearly. Today, she has become an important voice for second-generation Arab Americans nationwide.

Edward Said Cambridge University Press

This original and deeply provocative book was the first to make Palestine the subject of a serious debate—one that remains as critical as ever. "A compelling call for identity and justice." —Anthony Lewis "Books such as Mr. Said's need to be written and read in the hope that understanding will provide a better chance of survival." —The New York Times Book Review With the rigorous scholarship he brought to his influential *Orientalism* and an exile's passion (he is Palestinian by birth), Edward W. Said traces the fatal collision between two peoples in the Middle East and its repercussions in the lives of both the occupier and the occupied—as well as in the conscience of the West. He has updated this landmark work to portray the changed status of Palestine and its people in light of such developments as the Israeli invasion of Lebanon, the intifada, the Gulf War, and the ongoing Middle East peace initiative. For anyone interested in this region and its future, *The Question of Palestine* remains the most useful and authoritative account available.

Culture and Resistance Columbia University Press

In works such as *Culture and Imperialism*, Said compelled us to question our culture's most privileged myths. With this impassioned and incisive book, the foremost Palestinian-American intellectual challenges the official version of the Middle East "peace process." "He challenges and stimulates our thinking in every area." —Washington Post Book World.

Edward Said Vintage

This indispensable volume, a comprehensive and wide-ranging resource on Edward Said's life and work, spans his broad legacy both within and beyond the academy. The book brings together contributions from 31 luminaries to engage Said's provocative ideas.

Places of Mind Del Rey

In his final book, completed just before his death, Edward W. Said offers impassioned pleas for the beleaguered Palestinian cause. "These searing essays refract the reality of terrible years through a mind with extraordinary understanding, compassion, insight, and deep knowledge." —Noam Chomsky These essays, which originally appeared in Cairo's *Al-Ahram Weekly*, London's *Al-Hayat*, and the *London Review of Books*, take us from the Oslo Accords through the U.S. led invasion of Iraq, and present information and perspectives too rarely visible in America. Said is unyielding in his call for truth and justice. He insists on truth about Israel's role as occupier and its treatment of the Palestinians. He pleads for new avenues of communication between progressive elements in Israel and Palestine. And he is equally forceful in his condemnation of Arab failures and the need for real leadership in the Arab world.

Covering Islam Vintage

Edward Wadie Said, 1935-2003, Palestinian-American literary theorist.

Edward Said and the Question of Subjectivity Vintage

A groundbreaking critique of the West's historical, cultural, and political perceptions of the East that is—three decades after its first publication—one of the most important books written about our divided world. "Intellectual history on a high order ... and very exciting." —The New York Times In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its

position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding.

Palestine Speaks Harvard University Press

An intimate account of Edward Saïd's life and thought Edward Said is a personal, literary portrait of one of the twentieth century's most influential scholars, written by his close friend and confidante. Here, Lebanese novelist and essayist Dominique Eddé offers a fascinating and fresh presentation of his oeuvre from his earliest writings on Joseph Conrad to his most famous texts, *Orientalism* and *Culture and Imperialism*. Eddé weaves together accounts of the genesis and content of Said's work, his intellectual development, and her own reflections and personal recollections of their friendship, which began in 1979 and lasted until Said's death in 2003. In this intimate and searching portrait of Said's thought, Eddé continues to maintain their dialogue despite his death, trying to make peace with the loss of a collaborator with whom she still wants to talk and disagree. Bringing together personal reflection and theoretical innovation, reflective mourning and immediate argument, Eddé has written a testament to a great intellectual passion. Both specialists of Said's work and newcomers will find much to learn in this rich portrait of one of the twentieth century's most important intellectuals.

On Late Style Bombardier Books

Uses a comic book format to shed light on the complex and emotionally-charged situation of Palestian Arabs, exploring the lives of Israeli soldiers, Palestian refugees, and children in the Occupied Territories.

The Question of Palestine Bloomsbury Publishing

Soon after the Oslo accords were signed in September 1993 by Israel and Palestinian Liberation Organization, Edward Said predicted that they could not lead to real peace. In these essays, most written for Arab and European newspapers, Said uncovers the political mechanism that advertises reconciliation in the Middle East while keeping peace out of the picture. Said argues that the imbalance in power that forces Palestinians and Arab states to accept the concessions of the United States and Israel prohibits real negotiations and promotes the second-class treatment of Palestinians. He documents what has really gone on in the occupied territories since the signing. He reports worsening conditions for the Palestinians critiques Yasir Arafat's self-interested and oppressive leadership, denounces Israel's refusal to recognize Palestine's past, and—in essays new to this edition—addresses the resulting unrest. In this unflinching cry for civic justice and self-determination, Said promotes not a political agenda but a transcendent alternative: the peaceful coexistence of Arabs and Jews enjoying equal rights and shared citizenship.

Palestine Univ of California Press

This book provides a distinctive account of Edward Said's critique of modern culture by highlighting the religion-secularism distinction on which it is predicated. It refers to religious and secular traditions and to tropes that extend the meaning and reference of religion and secularism in indeterminate ways. It covers Said's heterogeneous corpus—from Joseph Conrad and the Fiction of Autobiography, his first book, to *Orientalism*, his most influential book, to his recent writings on the Palestinian question. The religion-secularism distinction lies behind Said's cultural criticism, and his notion of intellectual responsibility.

The Question of Palestine Harvard University Press

Author of the groundbreaking *The Question of Palestine*, Edward Said has been America's most outspoken advocate for Palestinian self-determination. As these collected essays amply prove, he is also our most intelligent and bracingly heretical writer on affairs involving not only Palestinians but also the Arab and Muslim worlds and their tortuous relations with the West. "Solidly imbued with historical context and geopolitical conjecture...fresh, unpredictable, personal and incorruptible writing." —Boston Globe In *The Politics of Dispossession*, Said traces his people's struggle for statehood through twenty-five years of exile, from the PLO's bloody 1970 exile from Jordan through the debacle of the Gulf War and the ambiguous 1994 peace accord with Israel. As frank as he is about his personal involvement in that struggle, Said is equally unsparing in his demolition of Arab icons and American shibboleths. Stylish, impassioned, and informed by a magisterial knowledge of history and literature, *The Politics of Dispossession* is a masterly synthesis of scholarship and polemic that has the power to redefine the debate over the Middle East.

Blaming the Victims Bloomsbury Publishing

NEW YORK TIMES BESTSELLER • The first comprehensive account of the epoch-making Six-Day War, from the author of *Ally*—now featuring a fiftieth-anniversary retrospective Though it lasted for only six tense days in June, the 1967 Arab-Israeli war never really ended. Every crisis that has ripped through this region in the ensuing decades, from the Yom Kippur War of 1973 to the ongoing intifada, is a direct consequence of those six days of fighting. Writing with a novelist's command of narrative and a historian's grasp of fact and motive, Michael B. Oren reconstructs both the lightning-fast action on the battlefields and the political shocks that electrified the world. Extraordinary personalities—Moshe Dayan and Gamal Abdul Nasser, Lyndon Johnson and Alexei Kosygin—rose and toppled from power as a result of this war; borders were redrawn; daring strategies brilliantly succeeded or disastrously failed in a matter of hours. And the balance of power changed—in the Middle East and in the world. A towering work of history and an enthralling human narrative, *Six Days of War* is the most important book on the Middle East conflict to appear in a generation. Praise for *Six Days of War* “Powerful . . . A highly readable, even gripping account of the 1967 conflict . . . [Oren] has woven a seamless narrative out of a staggering variety of diplomatic and military strands.”—The New York Times “With a remarkably assured style, Oren elucidates nearly every aspect of the conflict. . . . Oren's [book] will remain the authoritative chronicle of the war. His achievement as a writer and a historian is awesome.”—The Atlantic Monthly “This is not only the best book so far written on the six-day war, it is likely to remain the best.”—The Washington Post Book World “Phenomenal . . . breathtaking history . . . a profoundly talented writer. . . . This book is not only one of the best books on this critical episode in Middle East history; it's one of the best-written books I've read this year, in any genre.”—The Jerusalem Post “[In] Michael Oren's richly detailed and lucid account, the familiar story is thrilling once again. . . . What makes this book important is the breadth and depth of the research.”—The New York Times Book Review “A first-rate new account of the conflict.”—The Washington Post “The definitive history of the Six-Day War . . . [Oren's] narrative is precise but written with great literary flair. In no one else's study is there more understanding or more surprise.”—Martin Peretz, Publisher, The New Republic “Compelling, perhaps even vital, reading.”—San Jose Mercury News

Orientalism Vintage

The only intellectual biography of the groundbreaking author of *Orientalism*, published on the first anniversary of Said's death.

The Palestinian Delusion Princeton University Press

_____ 'A series of dazzling case studies exploring the idea of lateness in a range of composers, writers and artists' - London Review of Books 'Gracefully unquiet, probing and wise ... Said's own elegiac masterpiece of late style' - Financial Times 'What Said stands for - critical intelligence, high art and the preservation of the language - must be at the centre of our lives. This book is a fine monument to his life and work' - Hanif Kureishi 'His own late style, if it is acceptable to call it that, mixes an easy mastery of material with an unquenched desire to preserve difficulties' - Guardian _____ On *Late Style* examines the work produced by great artists - Beethoven, Thomas Mann, Jean Genet among them - at the end of their lives. Said makes it clear that, rather than the resolution of a lifetime's artistic endeavour, most of the late works discussed are rife with contradiction and almost impenetrable complexity. He helps us see how, though these works often stood in direct contrast to the tastes of society, they were, just as often, announcements of what was to come in the artist's discipline - works of true artistic genius.

Restating Orientalism Penguin

From the Iranian hostage crisis through the Gulf War and the World Trade Centre bombing, the West has been haunted by a spectre called 'Islam'. As portrayed by the news media - and by a chorus of government, academic and corporate experts - 'Islam' is synonymous with terrorism and religious hysteria. At the same time, Islamic countries use Islam to justify unrepresentative and often oppressive regimes. In this landmark work, for which he has written a new introduction, one of our foremost public thinkers examines the origins and repercussions of the media's monolithic images of Islam. Combining political commentary with literary criticism, Edward Said reveals the hidden assumptions and distortions of fact that underlie even the most 'objective' coverage of the Islamic world.
