NICHOLSON BRYSON

The Mystery of 31 New
Inn Parkstone
International

'When you have a large collection of animals to transport from one end of the world to the other you cannot, as a lot of people seem to think, just hoist them aboard the nearest

ship and set off with a gay wave of your hand.' Gerald Durrell and his wife are the proud owners of a small zoo on the island of Jersey. But there's one thing that's

better than a small zoo - a bigger one! So Durrell heads off to South America to collect more animals. Along windswept Patagonian shores and in Argentine tropical forests, he encounters a range of animals from penguins to elephant seals. But as always, he is drawn to those rare and interesting creatures which he hopes will thrive and breed in captivity . . . Told with enthusiasm and without sentimentality, Gerald Durrell's *The Whispering Land* is an often hilarious but always inspiring foray

into the South American wilds.

George's Cosmic Treasure Hunt Random House

'An understated fantasy with an unlikely but likeable hero' *The Times* When Igor accidentally travels back to 1957 Kyiv, he finds out that the past isn't as rosy as it seems. In fact it's positively dangerous... Igor is confident his old Soviet policeman's uniform will be the best costume at the party. But he hasn't gone far before he realises something is

wrong. The streets are unusually dark and empty, and the only person to emerge from the shadows runs away from him in terror. After a perplexing conversation with the terrified man, who turns out to be a wine smuggler, and on recovering from the resulting hangover, Igor comes to an unbelievable conclusion: he has found his way back to 1957 Kyiv. And it isn't the innocent era his mother and her friends have so sentimentally described. As he travels between

centuries, his life becomes more and more complicated. The unusual gardener who lives in his mother's shed keeps disappearing, his best friend has blackmailed the wrong people, and Igor has fallen in love with a married woman in a time before he was born. With his mother's disapproval at his absences growing, and his adventures in each time frame starting to catch up with him, Igor has to survive the past if he wants any kind of future.

The Whispering Land

Usborne
Beauty Cookson is no beauty. She's a plain, timid girl who constantly feels inferior to the super-confident, snooty girls at school. Worse than the teasing in the playground, though, is the unpredictable, hurtful criticism from her father. Beauty and her meek, sweet mother live in uneasy fear of his fierce rages, sparked whenever they break one of his fussy house rules. Eventually, after an unbearable birthday party and the very real threat of

Dad's out-of-control temper, Mum and Beauty run away. Finding themselves in a quiet, idyllic seaside village, their new-found freedom and a moment of culinary inspiration give them a hobby, an income and even a new nickname for Beauty. Can they begin a happier, sweeter life - without Dad? A charming, page-turning and heart-warming story from this beloved author.

Join Algernon the raccoon at Miss Molly's School of

Manners and take lessons in the Careful Listening Laboratory and the Art of Sharing Studio, learn table manners in the Dining Hall of Decorum, visit Sorry Sickbay, and shine at Good Sports Day. *Miss Molly's School of Manners* The Floating Press

This classic detective tale shares a number of characteristics with the Sherlock Holmes series penned by Arthur Conan Doyle -- enough to ensure that Holmes fans will feel right at home -- but the duo of sleuth Dr.

Thorndyke and his protege Christopher Jarvis are unique enough to earn readers' loyalty on their own merits.

Léon Bakst. The art of Theatre and dance

George and his best friend Annie haven't had any space adventures for a while and they're missing the excitement. But not for long . . . Seriously strange things start happening. Banks are handing out free money; supermarkets can't charge for their produce so people are getting free

food; and aircraft are refusing to fly. It looks like the world's biggest and best computers have all been hacked. George and Annie will travel further into space than ever before in order to find out who is behind it.

George and the Unbreakable Code

A blonde is surfing the globe but NOT virtually, she does it for real, sensing the customs of different nations, meeting poor and rich. She wants so much to find that real love, no matter what,

even if she's exhausted, troubled or abused. She's a blind optimist, who finally meets a similar person - an Italian man, though these 2 cultures hit against each other same as our Russian girl lights the Italian guy. What will happen next? Who knows...

Cookie Random House
At the beginning of the XXth century, there was an unprecedented explosion of creativity in all artistic fields. Overwhelming both Europe and North America, the Russian

Ballet revolutionized theatrical design with their stage sets and their costumes that were ablaze with colour yet refined in effect, bearing much of the mystic of the Orient yet also visually influenced by the work of the Persian miniaturists. Together with Diaghilev, Léon Bakst showed himself to be the most talented of the theatre group designers of his time. The costumes he devised with exclusive art seemed to shimmer with a thousand colours. Dazzled by such powers

of imagination, the author, Jean Cocteau, dedicated his book "Bonjour Monsieur Bakst" to him. The great contemporary composers Tchaïkovsky, Rimsky-Korsakov and Stravinsky, among others, all had occasion to call upon his creative genius. Today, his designs remain very popular and may still be seen on stage scenes all over the world, admired by a public that remains as enthusiastic as ever. *The Gardener from Ochakov*
'We are going,' said

Annie, 'on a great cosmic journey. So listen up, Savers of Planet Earth, and prepare to meet the Universe.' George's best friend Annie needs help. Her scientist father, Eric,

is working on a space project - and it's all going wrong. A robot has landed on Mars, but is behaving very oddly. And now Annie has discovered something wierd on her dad's super-computer. Is

it a message from an alien? Could there be life out there? How do you find a planet in outer space? And if you could talk to aliens, what would you say?
