The Apocalypse, Or "The Day of the Lord" Springer

Updated in its 13th edition, Joseph Devito's *The Interpersonal Communication Book* provides a highly interactive presentation of the theory, research, and skills of interpersonal communication with integrated discussions of diversity, ethics, workplace issues, face-to-face and computer-mediated communication and a new focus on the concept of choice in communication. This thirteenth edition presents a comprehensive view of the theory and research in interpersonal communication and, at the same time, guides readers to improve a wide range of

interpersonal skills. The text emphasizes how to choose among those skills and make effective communication choices in a variety of personal, social, and workplace relationships.

Crisis of Conscience Zondervan
 Records the history of Plymouth Plantation as written by Bradford in his journals of 1620-1647.

The Unrighteous Zondervan
 The past is what happened. History is what we remember and write about that past, the narratives we craft to make sense out of our memories and their sources. But what does it mean to look at the past and to remember that "nothing happened"? Why might we feel as if "nothing is the way it was"? This book transforms these utterly ordinary observations and redefines "Nothing" as something we have known and can remember. "Nothing" has

been a catch-all term for everything that is supposedly uninteresting or is just not there. It will take some—possibly considerable—mental adjustment before we can see Nothing as Susan A. Crane does here, with a capital "n." But Nothing has actually been happening all along. As Crane shows in her witty and provocative discussion, Nothing is nothing less than fascinating. When Nothing has changed but we think that it should have, we might call that injustice; when Nothing has happened over a long, slow period of time, we might call that boring. Justice and boredom have histories. So too does being relieved or disappointed when Nothing happens—for instance, when a forecasted end of the world does not occur, and millennial movements have to regroup. By paying attention to how we understand Nothing to be happening in the present,

what it means to "know Nothing" or to "do Nothing," we can begin to ask how those experiences will be remembered. Susan A. Crane moves effortlessly between different modes of seeing Nothing, drawing on visual analysis and cultural studies to suggest a new way of thinking about history. By remembering how Nothing happened, or how Nothing is the way it was, or how Nothing has changed, we can recover histories that were there all along.

Freemasonry is the largest, oldest, and most influential secret society in the world. The *Brill Handbook of Freemasonry* is a pioneering work that brings together, for the first time, leading scholars on Freemasonry. The first section covers historical perspectives, such as the origins

and early history of Freemasonry. The second deals with the relationship between Freemasonry and specific religious traditions such as the Catholic Church, Judaism, and Islam. In the third section, organisational themes, such as the use of rituals, are explored, while the fourth section deals with issues related to society and politics - women, blacks, colonialism, nationalism, and war. The fifth and final section is devoted to Freemasonry and culture, including music, literature, modern art, architecture and material culture.

Fear of the apocalypse that never comes!

It is what holds a Jehovah's Witness power-bound by the Watch Tower Society in Brooklyn. Armageddon is always just a little way around the corner. Poul Bregninge in this, his second book on the Witnesses, presents a complete history and ideology of the Society and why it keeps a keen focus on the Day of Judgment. He tells of multiple "days of reckoning" that pass uneventfully and how each failure of Christ to reappear is reevaluated by the Society to foretell of yet another apocalypse still to come. It is the fear of that moment that keeps Witnesses firmly in the fold. Judgment Day is the carrot dangled before them. Every American knows the Jehovah's Witnesses, right? Those somber people who appear at our doors, offering literature and the everlasting salvation of our souls? What do we know about them? We see at our door their facades-their Society-devised disguises-directed to convert anyone willing to follow their Witness-ways of believing and living. In this book you will confront the thinking that motivates those beliefs. Poul's book is a comprehensive view of JW history, its upheavals and struggles, and a raw demonstration of the manipulation and cruelty dealt those it charges with expanding its membership. By keeping Judgment Day ever coming, the Watch Tower Society ensures a ready supply of workers to proclaim the ever-coming coming. The author dismantles their main biblical storage battery, Matthew 24, from which the movement takes their many "signs" of the impending end. His reinterpretation of these readings is a virtual bomb beneath the understanding they find in those key biblical texts. Poul Bregninge was born and presently lives in Copenhagen. He was raised a Witness but informally left the movement in 1959. In 1964 he published

several letters, articles, and features about the Society that the Witnesses deemed unacceptable. A three-man committee expelled Poul. Two years later he published his first book, "Jehovas Vidner under anklage" (Jehovah's Witnesses Accused) in Danish. This book, "Judgment Day Must Wait," is a massive reworking (two and one half times its size) of his first book, now propelled by many years of continuing investigation that brings the history to the present in a text edited for the American reader.
