MANNING HERNANDEZ

Behavioral Neuroscience Simon and Schuster

A classic biography of one of the greatest spiritual teachers of our times. In 1909, when he was just fourteen, Krishnamurti was proclaimed the world teacher in whom Maitreya, the Bodhisattva of compassion, would manifest. The proclamation was made by Annie Besant, then president of the Theosophical Society, a movement that combined Western occult philosophy with Buddhist and Hindu teachings. Besant trained Krishnamurti in his role as the chosen one but twenty years later he chose to disband the order he was head of and set out alone on his endless journey—

As a contemporary of Krishnamurti and one of his closest associates, Pupul Jayakar offers an insider's view of the fascinating life and thought of an extraordinary individual.

How to Write Brilliant Psychology Essays Bloomsbury Publishing

"The first book of an exciting new paranormal series from two award-winning authors about what happens when an alien race brings Earth to the brink of the Apocalypse. The husband and wife writing team of Tananarive Due and Steven Barnes continue to achieve extraordinary literary feats with this first book in the exciting new *Devil's Wake* series. Due's *The Living Blood* and *My Soul to Keep* were each named to Publishers Weekly's list of Best Novels of the Year, and both were nominated for the Bram Stoker

award. Barnes scored New York Times' bestsellers with *The Legacy of Heorot* and *Star Wars: The Cestus Deception*, and he has been nominated for both the Hugo and Cable Ace awards for his work in television. *The eeriness of Devil's Wake* begins a week after tomorrow. An unprecedented infection has swept across the world, bringing an epidemic of mindless biting attacks from the infected that leave their victims "changed." Society has broken down. The victims are more than mindless zombies. They are the result of a sinister alien life-form in the wake of the aliens' insidious plot, humanity ultimately becomes enmeshed in a brutal struggle for control of its home, planet Earth. Part *Dawn of the Dead* and part *Road Warrior*, *Devil's Wake* is a testimony to courage, friendship, and the power of faith. Horrifying and heartbreaking, exciting and challenging, it is a compelling, brilliant story on the edge of what could be the end of it all"--

Additional local and global cases explore cross-cultural and Indigenous psychology, and

probing questions encourage students to think critically about cases and to examine the research methods used in real-life examples. Aided by its strong pedagogical framework, Psychology makes use of cutting-edge learning technology and interactive resources to provide a comprehensive learning solution.

Introduction to Biopsychology, Global Edition Wiley

NEW YORK TIMES BESTSELLER "We should aspire to Colapinto's stellar journalist example: listening carefully to the circumstances of those who are different rather than demanding that they conform to our own." —Washington Post The true story about the "twins case" and a riveting exploration of medical arrogance, misguided science, societal confusion, gender differences, and one man's ultimate triumph In 1967, after a twin baby boy suffered a botched circumcision, his family agreed to a radical treatment that would alter his gender. The case would become one of the most famous in modern medicine—and a total failure. The boy's uninjured brother, raised as a boy, provided to the experiment the perfect matched control. As *Nature Made Him* tells the extraordinary story of David Reimer, who, when finally informed of his medical history, made the decision to live as a male. Writing with uncommon intelligence, insight, and compassion, John Colapinto sets the historical and medical context for the case, exposing the thirty-year-long scientific feud between Dr. John Money and his fellow sex researcher, Dr. Milton Diamond—a rivalry over the nature/nurture debate whose very bitterness finally brought the truth to light. A macabre tale of medical arrogance, it is first and foremost a human drama of one man's—and one family's—amazing survival in the face of terrible odds.
