*Therapeutics* Routledge  
 Nutrition-sensitive, food-based approaches towards hunger and malnutrition are effective, sustainable and long-term solutions. This book discusses the policy, strategic, methodological, technical and programmatic issues associated with such approaches, proposes "best practices" for the design, targeting, implementation and evaluation of specific nutrition-sensitive, food-based interventions and for improved methodologies for evaluating their efficacy and cost-effectiveness, and provides practical lessons for advancing nutrition-sensitive food-based approaches for improving nutrition at policy and programme level.

*The Complete Guide to Growing and Using Sprouts* Oxford University Press

The key to the success of a company is their ability to co-ordinate the key supply chain i.e their key suppliers and suppliers of suppliers. 'Food and Drink Supply Chain Management' looks

specifically at the supply chain in the food and drink industry to provide readers with an understanding of the areas as it is now and its growing importance, and where it is going in the future. 'Food and Drink Supply Chain Management' is the first to take an in-depth view into the supply chain function in the hospitality and food retail sectors. Authored by a range of expert contributors the text looks at issues such as: \* New food processes and GM foods \* Volume catering and JIT (Just In Time) and Food Safety \* Relationships between companies and with stakeholders and responsibilities to these groups \* The internationalisation of the food chain \* The future of the food and drink supply chain and its management Examples and case studies from large international retail and hospitality organizations are used, such as: Bass, Stakis (Hilton), and Tesco, amongst others, to illustrate good and bad practice.

*Strategic Management* Aeon Books

This double volume constitutes the thoroughly refereed post-conference proceedings of the 25th International Conference on Financial Cryptography and Data Security, FC 2021, held online due to COVID-19, in March 2021. Rural Californian Bentham Science Publishers

In addition to its further exploration of the subject of peacocks, introduced in recent Séminaires de Probabilités, this volume continues the series' focus on current research themes in traditional topics such as stochastic calculus, filtrations and random matrices. Also included are some particularly interesting articles involving harmonic measures, random fields and loop soups. The featured contributors are Mathias Beiglböck, Martin Huesmann and Florian Stebegg, Nicolas Juillet, Gilles Pags, Dai Taguchi, Alexis Devulder, Máttyás Barczy and Peter Kern, I. Bailleul, Jürgen Angst and Camille Tardif, Nicolas Privault, Anita Behme, Alexander Lindner and Makoto Maejima, Cédric Lecouvey and Kilian Raschel, Christophe Profeta and Thomas Simon, O. Khorunzhiy and Songzi Li, Franck Maunoury, Stéphane Laurent, Anna Aksamit and Libo Li, David Applebaum, and Wendelin Werner.

Introduction to Relational Databases and SQL Programming  
Springer Nature

This book explores a variety of topics that fall in the realm of psychological and behavioral economics. It demonstrates to the reader how to perform straightforward experiments in order to understand how people think about the economic aspects of their

daily lives. Behavioral economics is a 'hot new area' of economics and consumer psychology. This book provides a comprehensive guide on consumer research and the types of results required. These approaches are spreading further around the globe, thanks to the work of Dr. Howard Moskowitz, one of the authors of this book, and the incredible succ.

**Improving Diets and Nutrition** Cambridge Scholars Publishing
